# A 1ERRIBLE EXPLOSION.

Ten Persons Killed, Twenty Wounded and

WILMINGTON, Oct. 9 .- Several startling explosions in quick succession some counted five, others seven, at 3:30 the depot powder works on the Brandy wine. A rush was made for telephones. but nothing could be learned beyond vague reports of the damage.

An Associated press representative hastened to the scene and wired that a section of the works known as the "Up per Yard" is a complete wreck and at Katel would bring out a rush seated least six lives are lost.

One of the magazines went off first by were set off by the concussions, which followed in rapid accession. There were at least seven distinct successive explosions. Every dwelling in the neighborhood is reported wrecked or unroofed or more or less damaged. Telephone inquiries from West Chester state that the explosion was distinctly heard in that section.

Later - A messanger has just brought in the following dispatch, which shows that the worst has not yet been learned of the powder mill explosion: "Ten killed and twenty wounded. Rockland is a complete wreck. None of its houses are left standing."

Rockland is a village on the Brandy wine above the scene of the explosion It comprises a large paper mill owned by the Jessup & Moore company, and about fifty dwellings, in which chiefly reside the mill employes. Its population is about two hundred. Evidence of the destruction at that distance leads to the belief here that the number of killed and wounded have not yet been fully ascertained.

The Dupont powder mills extend along the Brandywine and are chiefly on the west bank and close to the water into the "upper," "Hagley" and "lower" Rockiand proves to be incorrect as to beginning. the "upper yard." There are some fifty houses inhabited by employes of the powder mills, clustered here, and these

LAKE MOHONE, N. Y. Oct. 10.-The eighth annual Indian conference at La'te Mohonk began yesterday. President Gates of Amherst college was made chairman. General Whittlesey of Washington, secretary of the board of Indian commissioners, gave a general survey of the field and referred especially to the happy change in public tentiment in the last few years, due largely to influence emanating from Mohonks. Ex-President McCoah read an able paper to demonstrate the capacity of the Indian for civilization. The worst of red men, he said, are not in a less favorable condition for civilization than our own aporators, the Britons, as described by Cassar. It was Christianity that wrought their change and it would do the same for the Indians.

The Erie Hallroad Trouble.

New York, Oct. 10.-Everything is quiet on the Erie railroad. Yesterday was set for the strike in case the de mand made by the employes of the road for shorter hours was not granted. Sec ond Vice President Thomas has sent a delegation of employes, informing him that be would positively give the men an saswer tomorrow. It is understood that the board of directors are in favor of meeting the men on a fair bas a.
