10:15 No. 92, mixed. 4:27

W. C. T. U. will meet on Feb. 14 at Mrs. Conley's at 8 p. m.

Steam pump has been undergoin this week and now works better than formerly.

Due to the severe storm and the work THE JOURNAL is issued this week.

Buying call, and see my complete list of harness, saddles and collies.

H. A. CUNNINGHAM.
Teachers and scholars are celebrating the anniversaries of Longfellow. The event will occur on Friday, Feb. 14. Two will be combined as circ will not permit of separate for each.

Undersigned will give a magic edition of Bunyan's Pilgrim's and miscellaneous views, at the Harrison on Friday and Saturday, Feb. 20th and 21st. Ad. Adults, 15 cents; children, 10 cents.

O. R. HAINES.
Sum of district court which on next Monday will in all by the most important term in Sioux county. The trial of a man, charged with murder, will be a hearing. This will be the first murder since Sioux county was organized. There are a number of civil cases to be tried, and all will prove to be quite an interest. The indications are that number of people will be in attendance.

The village board has appointed G. Guthrie as treasurer to fill the vacancy caused by the death of D. P. Davis.

J. H. Bartell had a calf killed by the engine of a special train one day last week.

Rev. Moore came up from Crawford on Saturday to hold quarterly meeting, but owing to the storm the program had to be abandoned. He preached at the church on Monday evening.

A car load of coal came down to G. Guthrie on Saturday and the arrival thereof was very timely for the severe storm caught many of the people with a small supply of wood.

Two farmers who left Chadron for home on Saturday are known to have perished in the storm and others are missing. Two lost their lives at Kearney and one woman died from exposure at Rushville. So far no loss of life has been reported in Sioux county.

STRAYED OR STOLEN—From my place, 10 miles northwest of Harrison on Jan. 24, 1891, one dark gray horse colt, 8 months old, weight about 600 pounds. Had a strap around his neck with ring attached. A liberal reward will be paid for information leading to his recovery. A. R. KENNEDY.

All the farmers interested in the advancement of the agricultural industries of Sioux county are requested to meet in Harrison on Tuesday, Feb. 16th, for the purpose of effecting a permanent organization. This course was decided on at the meeting of farmers held on Feb. 2, 1891. ROBERT WILSON, Sec.

D. H. Griswold and J. E. Marsteller, each occupy suburban residences and since the recent heavy snows they have provided themselves with snow shoes. The latter got some "experience" before he had gone far the first trip he made with them.

During the storm on Sunday it became necessary for C. E. Verity to get some wood. While splitting a stick the ax came in contact with a clothes line and rebounding, Mr. Verity received a heavy blow on the head from the back of the ax. The wound was dressed and he is now about all right, but he thinks a high wind, a clothes line and an ax make a bad combination.

County Treasurer Gayhart arrived here last Saturday from his trip east. While absent he purchased a fine red-poll bull. He thinks dehorning is all right, but no horns are better still, especially when backed up by the records of the red-poll herd books.

James W. Scott who has been at Chadron for some time receiving treatment for his eyes, has returned home with his sight restored. He had been blind for quite a time before being placed under the care of Dr. Clary and he is happy to be again restored to usefulness. His many friends gladly welcome him to their midst.

Commissioners Green and Knott were storm bound in Harrison last Saturday and occupied some of the time in looking over the past records of the county. The popular demand for an investigation of the records is growing stronger all the time and the board of commissioners cannot do an act that will meet with more hearty approval than to employ an expert and have the books investigated.

We regret that the storm last week caught us with a very limited supply of wood. A number of our friends have promised to bring us wood and we depend on them to keep us supplied, but they delayed longer than was convenient. We will take it as a favor if, as soon as possible, those who intend to bring us wood see that we have a good big pile, so that if another storm comes, our wife and little ones will not be without fire.

A monster mass meeting was held at Ogallala on last Tuesday to discuss and encourage the irrigation movement. Western Nebraska is solid for irrigation and free silver coinage.

Not less than 30 inches of snow has fallen in Sioux county this winter. This is more than is reported in the past four years. It puts the ground in good condition and a big crop will reward those who properly sow and care for the seed. A good crop is bound to be followed by a large number of new settlers and it all means prosperity to the entire county.

The resolutions passed by the state senate to the effect that stringent usury laws and an extension of the stay law would be bad policy and against the interests of the state, will meet with the hearty approval of the settlers in the western portion of Nebraska for with no fear of unfriendly legislation it will be long until the loan companies will open up again in the line of farm loans and that will afford relief to a great many of the settlers.

On last Saturday morning snow began to fall and kept it up at a good rate. Later the wind began to blow and the result was that a veritable blizzard raged from before noon on Saturday until near Sunday night. A great deal of snow fell, as near as can be estimated fully twelve inches of the beautiful fell during the storm, and there was about the same amount on the ground when the storm began and the high wind made it fly in great shape. Those who lived here for years say it was the worst storm ever experienced in this locality. The train from the west did not get through from Friday until Wednesday night and no train came from the east from Saturday morning until today (Thursday), and it was reported that it was about the same all along the line. On Wednesday one of the rotary steam snow plows which came across from the U. P. on the Cheyenne & Northern came down this line opening the track in good shape and at a rapid rate, and a little later a train went east. A large number went down to investigate the rotary plow and some of them found out just how it worked.

A good deal of anxiety has been felt to know how the people throughout the county fared during the storm, for it is known that some of them are not well provided with clothing, but the fact that fuel is free and plenty makes it an easy matter for suffering from cold to be avoided, and so far no bad reports have come in. The cattle that were not protected and supplied with feed are reported to have suffered greatly, and it is quite likely that some loss was sustained. The fact of the pleasant weather during the first part of the winter resulted in the cattle being strong and in good flesh and consequently able to stand some rough weather, but it was a bad storm and no one cares to experience another like it for some time. It was a good thing that it occurred on Saturday and Sunday for, as there was no school on those days, children were not caught away from home and exposed to the severe cold.

The convention at Sidney on last Saturday which was held in the interests of irrigation projects was a large and enthusiastic gathering. It was addressed by a number of well-informed men of this and other states. The result was a decision to urge irrigation in every way possible. The people have come to the conclusion that irrigating is the latest improvement in farming and the indications are that in all parts of the state preparations will be made so that the land may be wet when needed in case a season like 1890 should again visit the state.

The settlers of western Nebraska who have gone into that country and endured the hardships of frontier life in establishing homes for themselves and families, naturally rebel against the idea of giving up their homesteads, timber claims and pre-emptions to the cattle barons that their frisky bovines may roam at large over a thousand hills. If the legislature makes any serious attempt to do this there will be a whirlwind about the capitol building compared with which the Meiklejohn combat was the gentlest kind of a zephyr.—Fremont Tribune.

PERSONAL

Mrs. F. M. Smith came up on the train Friday morning.

J. A. Hanson gave us some cash on subscription last Friday.

Mrs. S. L. R. Maine returned last week from her visit to the east.

Dr. E. B. Graham sends us a remittance from Ogden, Utah, to apply on subscription.

Frank Conley returned home last week. The deep snow made it impossible for him to get around much, but it is quite probable that he will become the owner of some Sioux county real estate before long.

Not a Desert.

The Fremont Tribune in speaking of the condition and prospects of the western counties has this to say of Sioux county:

It is not a very great exaggeration to say that fifty per cent of the settlers of Sioux county are facing the grim spectre of want caused by conditions entirely beyond their control, and it is also true that the fine crops of this county during the years prior to 1889 establish the fact that with the ordinary amount of rainfall the soil is fertile and capable of raising excellent crops of wheat, oats, barley and grass and fair crops of corn.

Mothers should remember, when a physician cannot be procured, that Ayer's Cherry Pectoral promptly relieves the croup.

—THE JOURNAL and the Omaha Weekly Bee for one year for \$9.75, cash in advance.

The Financial Question.

EDITOR JOURNAL:—In the article which appeared in THE JOURNAL of Feb 5th, the writer evidently means confederate money or "green goods" when he says that a man might have a million "dollars" in his pocket and yet be unable to buy a "two bit" meal of victuals. That is not the kind of money under discussion. Now as farmers let us look this thing squarely in the face. Well then we need more money, don't we? You bet! Senator Plumb said on the floor of the senate, "We have less than ten dollars per capita in actual circulation and about as much more tied up in the U. S. treasury vaults." No one disputed Senator Plumb's assertion, so we take it to be true. You see just as the circulation is, so are the prices. Plenty of money, good prices. Little money, low prices. Now let us look and see if we can find out "who struck Billy Patterson." Who raised this hob with our money anyhow? Who did it? Go back, say about five or ten years and see the make up of congress. We think in 1882 there were then as now about 330 members of the house and they had thirteen farmers, then as now, 100 lawyers, 80 doctors, merchants, etc., and 175 bankers. That tells the whole story. How on earth are the farmers to ever cope with these lawyers and bankers? They will keep our noses to the grindstone and keep us paying interest until doomsday if we don't do something. Don't you see who has the "pull" on us? What does it mean? Renew your note every three months and add in the interest. Let us see how a national bank account looks in figures.

Put out	\$100,000	
Got back (Nat Bank notes)	90,000	
Loan on interest	10,000	
Draw 4 per cent on	100,000	\$ 4 000
Draw 3 per cent on	90,000	7 200
Draw total on	100,000	11 200

No wonder "farming don't pay." No wonder they put up 250 new national banks this year. Big thing isn't it for the banks? See now why not a congressman stirs a peg or lifts a hand against national banks. Then what we want is the abolition of the national banks of issue, and the issuance of legal tender treasury notes in sufficient volume to meet the needs of the business of the country without special advantage to any class or calling. We want one standard rate of interest, say 4 per cent and attach a penalty against any other rate. More money means easier times. People will then buy and not study how to make a dollar go as far as possible. Money plenty means more meat eaten, more flour consumed and farm products of all kinds. More money means more waste and more enterprise but it also means better times.

Yours for the farmers,
W. J. M.

To create an appetite, and give tone to the digestive apparatus, use Ayer's Sarsaparilla.

Best Line to the East.

The Burlington Route B. & M. R. R. is running elegantly equipped passenger trains without change from Newcastle, Wyoming and Crawford, Nebraska, direct to Lincoln, Nebraska, making connection at that point with their own through trains for Denver, Cheyenne, and all points west, and for Kansas City, St. Joseph, St. Louis, Omaha, Peoria, Chicago, and all points east.

Remember this is the only line by which you can take sleeping car from Crawford in the evening arriving in Lincoln and Omaha the next afternoon, and in Chicago, Peoria and St. Louis the following morning.

For further information and tickets apply to nearest agent of Burlington Route B. & M. R. R.

The Nebraska Legislature.

Now that the legislature of this state is in session all those desirous of complete and unprejudiced reports of the proceedings of that body should at once subscribe for that great newspaper, THE NEBRASKA STATE JOURNAL. Being located at the state capital none of its would-be rivals are able to compete with it in handling the proceedings of the legislature, or in gathering other important capital happenings. A comparison of the reports of the legislature in the different state dailies will establish this claim. The daily will be sent to any address for \$1.00 per year and the Weekly for \$1.00 per year.

Removed to Cleveland, O.

The office of the American Farmer, the valuable journal which is still being offered free to the readers of THE JOURNAL, has been removed to Cleveland, O., where in its new field the American Farmer will be better able to meet the requirements of its rapidly increasing National circulation. Many valuable improvements and new features are contemplated by the management of the American Farmer during the coming year, making the paper more valuable to its readers. The regular subscription price of THE AMERICAN FARMER will remain as heretofore \$1.00 per year.

WINTER

IS UPON US,
And now is the
TIME TO BUY
Stoves and Furniture.

COME IN AND SEE US,
GRISWOLD & MARSTELLER.

A RELIABLE FAMILY NEWSPAPER.

That is the Character Almost Universally Given to
THE WEEKLY INTER OCEAN.

So great is its popularity that for years it has had the LARGEST CIRCULATION of any Chicago weekly newspaper. It is ably and carefully edited in every department with a special view to its usefulness in THE HOME, THE WORKSHOP, and THE BUSINESS OFFICE.

It is a Consistent Republican Newspaper, But discusses all public questions candidly and ably. While it gives fair treatment to political opponents, it is bitterly OPPOSED TO TRUSTS AND MONOPOLIES as antagonistic to both public and private interests. THE LITERARY DEPARTMENT of the paper is excellent, and has among its contributors some of the MOST POPULAR AUTHORS of the day. THE FOREIGN AND DOMESTIC CORRESPONDENCE, SERIAL AND SHORT STORIES are the equal of those of any similar publication in the country. The Youth's Department, * Charity Shop, * Women's Kingdom, * and * The Home ARE IN THEMSELVES EQUAL TO A MAGAZINE.

In addition to all this the NEWS OF THE WORLD is given in its columns every week. In all departments it is carefully edited by competent men employed for that purpose.

THE PRICE OF THE WEEKLY INTER OCEAN IS \$1.00 PER YEAR.

THE SEMI-WEEKLY INTER OCEAN is published each Monday and Thursday morning, and is an excellent publication for those who can not secure a daily paper regularly and are not satisfied with a weekly.

THE PRICE OF THE SEMI-WEEKLY INTER OCEAN IS \$1.00 PER YEAR

By Special Arrangement with the Publishers of
SCRIBNER'S MAGAZINE
That Magazine and The Weekly Inter Ocean are
Both Sent to Subscribers One Year for Two Dollars and Ninety Cents.
TEN CENTS LESS THAN THE PRICE OF THE MAGAZINE ALONE.
LIBERAL COMMISSIONS given to active agents. SAMPLE COPIES sent whenever asked for. Address all orders
THE INTER OCEAN, Chicago.
