No. 1035 No. 92, mixed 4:27

Patterson has recently en-
larged and improved his residence.

10,000 pounds of butter
and eggs, at Turner's. Highest
price paid.

A first-class sewing ma-
chine, for a cow. Inquire at this

Journal building is being im-
proved the inside and as a conse-
quence are rather topsy-turvy.

There are getting rather numerous
it would be a good plan for the
to provide some kind of em-
ployment for all such during their so-
journ in the village.

SEASONED LUMBER: We have a good
seasoned lumber constantly on
hand on West Boggy. 10
feet \$10.00; 14 and 16 feet \$12.00
and feet first-class native
lumber always on hand. First-class \$3;
second \$2 per thousand.

souri and Sioux City & Pacific
at Fremont, Lincoln, Hastings,
Omaha, Missouri Valley, Sioux
Paul, Duluth and points north,
Chicago, Chicago, Milwaukee,
and regions in Wisconsin.
Sections are made at Chicago,
Buffalo, Albany, Philadel-
phia, New York and all points in the
palace sleeping cars on all
trains.

work of the assessors is now
completed and they will make
returns during the present month.
County commissioners will meet as
usual on Tuesday, at which time all persons who
may have reason to complain of
the assessment should appear. The board
will be engaged in the work for
at least a week. If you
think your assessment is too high, or not
proportion to the assessment of others
you have the privilege of appearing be-
fore the board and having a hearing.
That all, but if you know of any
that do not make a correct report of the
property owned by them, subject to
assessment it is your right and duty to
report such acts known. It is just as
much to your interest to have the prop-
erty of others listed and at a fair value
as it is for you to guard against
undervaluation of your own property.
The poor man pays more than
his proportion of taxes and that is

A Bad Stroke.

On last Monday a storm passed over the Agate Springs Stock Farm, of J. H. Cook, about 18 miles south of Harrison. During the storm lightning struck in a bunch of his horses, killing three of his standard-bred mares. The animals killed were I. U., Patsy C., and Kitty C., and two of them were in foal by his Hambletonian horse, Mendonain. The fluid passed along a wire fence and killed two of Mr. Cook's cattle which were two miles from where the horses were killed. The loss is a severe one, as the horses killed were as fine as there was in the state, and were worth not less than \$3,000. The loss is cause for regret to all, for such horses are not to be found in every locality and Sioux county could justly be proud of them.

Caught With the Horse.

For some time the officers have been on the lookout for horses belonging to Bar T company of South Dakota and the Sheriff of Dawes county recently sent word to Sheriff Reidy to watch the movements of one John F. Nolan who had a ranch down in the sand hills, and whose brother lives in Sioux county a few miles northwest of Harrison. On last Thursday Nolan came to Harrison and the sheriff got to looking around and found six horses about a mile from town and one of them was the kind of a horse the officers were looking for. About 3 o'clock in the afternoon Nolan left town and soon started off with the horses which Sheriff Reidy had been examining, and that officer watched his man take his departure from a good point of observation, and that evening, according to agreement, he went to Chadron where he gave the sheriff of Dawes county the information he had obtained and that officer started out to intercept Nolan. This he did at Hyannis, and the same horses found in his possession that he left here with, and he was arrested and taken to Chadron and put under bonds. From the indications the officers are going after horse and cattle thieves in earnest, and Sheriff Reidy appears to be able to take care of his share of the work.

Highest price paid for hides at the harness shop.

D. M. Sutton is building a new barn on his property.

The base ball boys of Harrison are trying to get up a game with the Crawfordites. If successful there will be some sport.

The soldiers' relief commission, consisting of S. R. Story, A. Blood, Jr., and E. G. Hough, was in session at the office of the county clerk last Saturday.

The new passenger train did not appear last Sunday as was expected, but it is reported that it will be on hand next Sunday morning, at an early hour. Wait for it.

A party consisting of J. W. Robinson, M. Bruck, C. E. Holmes and E. D. Satterlee went to VanTassel last Sunday and brought home a quantity of fish.

H. T. Zerbe was in town on Saturday and took out a windmill, which he will soon have at work pumping water. Windmills will soon be plentiful all over this country.

It would be a good plan for the village board to enforce the ordinance relating to stock running at large. No one dare put out trees or plant a garden for fear they will be destroyed, nor do they dare picket a cow out on account of the danger of loose stock injuring her. If we have laws let them be enforced.

As announced in the last issue of THE JOURNAL A. W. Mohr had his imported Percheron horse in Harrison on Tuesday. Julius Sievers also had his Norman-Canadian horse in town for a short time, and the two attracted a good deal of attention. The former is a black-gray, handsomely dappled and the latter is a beautiful black. Both horses are powerfully built and have good action for animals of their size. The farmers of Sioux county are fortunate to have the opportunity thus afforded for raising a good class of horses, and it will not be long until a brace will be a curiosity in this locality.

Many of the readers of THE JOURNAL remember the closing of the general merchandise store in Harrison of Rosa & Thompson in the fall of 1889. Last week the case came up in the district court at Chadron under the title of Rosa & Thompson vs. M. E. Smith & Co., (of Omaha) for damages arising from the seizure of their stock. The case was hotly fought, A. Bartow appearing for Rosa & Thompson and Spargur & Fisher for the Omaha firm. The result was a verdict in favor of Rosa & Thompson for the sum of \$3,838. The many friends of Rosa & Thompson in this county will be glad to learn that they will, at least, be partially paid for the heavy loss they sustained by reason of the seizure of their goods.

PERSONAL.

James Farnam went to Vorhees last Thursday.

J. H. Cook went down the road last evening.

Geo. Walker went to Chadron last Thursday.

Robert Neece was in town the first of the week.

Hon. W. W. Wood, of Rushville, was in Harrison yesterday.

James Clark was up from Montrose on Tuesday and called at our office.

Octave Harris was in Harrison on Monday and called at our office.

W. H. Zimmerman writes us to send THE JOURNAL to him at Dickey, Iowa.

A. Blood, Jr., was in Harrison on Saturday and added his name to the list of readers of THE JOURNAL.

Rev. and Mrs. Rorick went to Hay Springs the first of the week to attend the ministerial association.

E. B. Henderson, of Albion, stenographer for Judge Coffin, was in Harrison last Thursday between trains and made a pleasant call at our office.

J. E. Marsteller is now a resident of Harrison, having moved into the De Brown property last week.

LOST—At Harrison, on May 11th, a \$5 bill. Finder will be rewarded by leaving the same at THE JOURNAL office. AUGUST RING.

If the weather will permit, a gospel meeting will be held at the church on Thursday evening, May 21st. All are invited to participate who can.

J. F. Schulz reports the arrival of a son at his home on last Sunday. Thus does the population of Sioux county increase.

C. S. Scott has his well machine at Dr. Shaffer's and will soon sink a well for him, and T. O. Williams has brought his drill down from Wyoming and will put down a well for Dave Bartlett and also one for J. H. Bartell.

The sugar beet committee received a letter from H. H. Nicholson, of the experimental station of the state university, to the effect that the points which will attract the most attention from capitalists and sugar manufacturers is the cost of production and yield. It is urged that all who are making experiments will use due care in keeping the record and ascertaining the yield. With the proper record and as good tests as were made in 1890, Sioux county will have a sugar factory before the crop of 1892 is ready to work up, and a sugar factory in the county will double the value of every piece of property in the county.

The work of getting sheep by our farmers has already commenced. J. W. Robinson purchased a flock a few days ago and we are informed that J. G. Morris expects to have 1,500 of the woolly coats before fall. There is no kind of stock which will bring as good returns on the money invested as will sheep and we expect to see a great many farmers in Sioux county engaged in the industry in the near future. Surveyor Dew reports that it is an excellent country for the business, his flock having done finely, and H. H. Russell says the same of his flock.

A fire started in Crawford a few days ago and had it not been for the facilities possessed by that town for fighting fire, a heavy loss would have been sustained. It is about time that Harrison began to figure on some way of fighting a fire should one get started. A close call was made on one row of buildings and it would be good policy on the part of the village board if they could devise some way to fight fire. A good big reservoir on the hill near the school house, and pipes laid thereto would give pressure enough to protect all the buildings in town except the court house and school house, and the expense would not be very great.

THE JOURNAL learns that a number of farmers in the eastern part of the county have secured beet seed and will also be in the contest for the prizes offered by the state board of agriculture, and also that some of the farmers of Snake Creek precinct will be on hand. It is hoped that all who undertake the experiment will give it the care needed so that good results may be obtained. A good high average yield of sugar will benefit the county more than a few very high tests and a lot which would cut the average of the county down. If Sioux county makes as good a comparative showing as it did last year it will have great weight in attracting attention and capital to this part of the state and with proper exertion on the part of the people it is more than likely that a factory can be secured before the crop of 1892 is raised. Those who only got a small quantity of seed should send some of the beets for analysis, for although they cannot compete for the prizes offered it will help the showing of the county.

The children day service will be held in the M. E. church at Harrison, on Sunday, June 14, 1892. The exercises will consist of musical and literary entertainment, and will be under the auspices of the Union Sunday School of Harrison. Every one is cordially invited to be present. E. E. E. RORICK, Superintendent.

Strayed—\$10 Reward.

Strayed from Hat Creek, Wyoming, one six-year-old mare, white spot in forehead, one three-year-old mare and one three-year-old gelding, all dark brown, branded on left shoulder; also U weight about 1,000. Will pay \$10 reward for their return or information leading to their recovery. Lusk, April 24, 1891. C. E. PARTRIDGE.
