### ACREAGE REPORT WANTED.

THE JOURNAL desires to collect data relating to the acreage of crop put in in Sioux county in 1891, and will take it as a favor if the farmers will send to this office a statement of the crop they have put in, such report showing the number of acres of each kind of grain, vegetables, corn, etc., planted. No matter how small an acreage you have, a report is desired.

To the farmer who has the largest acreage of crop we will send THE JOURNAL free for one year, and to the farmer having the second largest acreage of crop we will send THE JOURNAL free for six months.

All reports must be in on or before July 1, 1891, and the comparison will be made at that date, so that reports sent in later than that would be barred.

We will also be pleased to receive reports from farmers from all parts of the county from time to time as to the condition of the growing crops.

—The ice cream social at the court house last evening was well attended and enjoyed by all.

—Ladies' and children's under vests from 19 cents up, at the millinery emporium, north of Ranch Supply House.

—Try our Queen of Minnesota flour and you will like it.

GRISWOLD & MARSTELLER.

—Hemstitched handkerchiefs, plain or fancy border, 19 cents apiece or 3 for 25 cents, at the millinery emporium, north of Ranch Supply House.

—H. G. Stewart sends word that the deputy state lecturer of the alliance will be in Harrison to speak on July 30th, and invites all to come and hear what he has to say.

—The annual school meeting of this district, No. 7, will be held at the school house on Monday, June 29th, at 4 o'clock p. m. This is an important meeting and all interested in the school should attend.

—The injured arm of C. S. Scott has so far improved that he expects to get to work next week and will complete the well for Dr. Shafer, after which he will sink a well for Jos. Stasny on his farm a couple of miles east of town.

—The excellent prospects for a fine crop continue and as people have got to have something with which to cut their grain and G. H. Turner has arranged to handle the McCormick binders, reapers and mowers. He expects a sample machine in a few days.

—The commissioners are still in session as a board of equalization. They had just about completed their work last Saturday, but since that time changes have been demanded which makes a great deal more work on the books. They will likely adjourn this week.

—The Children's Day exercises at the church on Sunday evening were well attended. An interesting program had been prepared and was well carried out. The church was handsomely decorated with evergreens and flowers. The observation of children's day has become almost universal.

—The fourth quarterly meeting of the Harrison charge will be held in the M. E. church of Harrison, on Saturday and Sunday, June 29th and 30th. Preaching at 10:30 a. m. and 8 p. m. Quarterly conference at 2 p. m. Saturday. Our new presiding elder, Rev. A. R. Julian, will be present on that occasion.

E. E. E. ROBBIE, Pastor.

—The young peoples' society of christian endeavor will hold its 10th annual international convention at Minneapolis, Minn., from July 9th to 12, 1891, for which occasion the F. E. & M. V. railway has made a rate of one fare for the round trip. Tickets will be on sale July 7th to 8th and the time of returning can be extended until August 26th if so desired. For further information call on or address any agent of the F. E. & M. V. railway.

—On Monday a writ of injunction was sued out before Judge Barker by C. E. Coffee, restraining B. B. Bixby from completing his ditch and fish pond. It seems that for some time the plaintiff has kept up a dam and operated an irrigating ditch across a portion of the land of the defendant and since 1889 he has done this through the courtesy of the latter. Recently Mr. Bixby determined to make a fish pond whereby the water would be taken from the creek and return thereto after running through the pond, all on his own land, and to this Mr. Coffee objects and seeks to stop him. Mr. Bixby had been informed by good authority that he had a perfect right to carry out his plans, and Mr. Coffee sets up in his papers that by reason of his having enjoyed the use of the water for more than ten years he has acquired title thereto. The stream is about ten feet wide. The matter will be settled in the courts.

Fireworks and dance in the evening.

—C. N. Keith, general agent of the Dakota Loan & Trust Co., of Watertown, S. D., was in town this week and inspected the loans made through the Bank of Harrison on Sioux county real estate. He expressed himself as very highly pleased with the work done in this county, and stated that the company would resume loaning this summer, providing the harvest proved as abundant as it now promises to be.

—The weather has been quite damp since our last issue. On Friday it rained, on Saturday it rained, on Sunday it rained again, and about the middle of the afternoon Monday it began again and it kept it up until about 10 o'clock Tuesday night. Some idea of the amount of water that fell may be had from the observation of Dr. Shafer. He had a barrel standing out, clear from anything which would interfere. When the rain commenced on Monday the barrel was empty and yesterday morning Dr. Shafer measured the water therein and found it to be fully ten inches deep.

—Some of the farmers in the valley report that damage has been done to their corn by cut worms. While the cases are but few it is to be regretted that there are any. Sam Tebbel says about twenty acres of his corn is badly cut and Serres Brothers report considerable loss. These pests are in almost all localities and frequently do a great deal of damage. Prof. Budd in a recent article in the Des Moines (Iowa) Register says that cut worms have been doing a great deal of damage in that state and adds that the best protection against them is fall plowing. He says that in a field under his supervision the crop on fall plowing is entirely free from cut worms while the portion which was not plowed until spring is so filled with the worms that the crop is destroyed.

—A communication in the last issue of the Herald makes a great attempt to belittle the farming interests of this country and tells how C. F. Coffee and other great cattle men, in their great goodness of heart, advised people in former days to desert from farming and devote all their energy to stock. As Mr. Coffee has been engaged exclusively in the stock business and is considered the greatest cattle man in Sioux county, his success may be taken as an example. The assessment of a person is considered pretty good evidence of his financial condition, we give the assessment of personal property of Mr. Coffee for four years as it appears on the records, which is as follows: In 1888 he was assessed on personal property \$14,200; in 1889 at \$9,326.50; in 1890 at \$5,031, and in 1891 at \$861. To judge by that the exclusive stock business has not been such a howling success as some folks try to make out.

Bodare Items.

B. B. Smith returned from Grand Island Saturday.

Miss Parsons was a pleasant caller at Eli Smith's this week.

Compared with previous years crops are in excellent condition.
