Circulars descriptive of the county can be had on application, for distribution.

CORRESPONDENCE SOLICITED

Address, NEBRASKA SECURITY CO., Harrison, Nebraska.

F. E. & M. V. R. R. Time table.
Going West. Going East.
No. 91, mixed, 10:15 | No. 92, mixed, 4:27

—Knitting cotton, 5 cents a ball, at the millinery emporium.

—Insure against hail at the Bank of Harrison.

—Babies' caps, children's hats and ladies hats at the millinery emporium.

—Highest price paid for hides at the harness shop.

—Second hand mowers and rake for sale on easy terms.

BANK OF HARRISON.

—Ladies' trimmed hats from 65 cents up, at the millinery emporium, north of Ranch Supply House.

—Flowers, flowers, flowers, to suit the taste of all, at the millinery emporium, north of ranch supply house.

—We received a letter in regard to a Montrose matter which will appear in the next issue of THE JOURNAL.

—Quite a curiosity was dug out by C. E. Holmes in the hills north of town. It is a stone formation very much resembling an augur.

—When in Harrison on July 4th, stop at the millinery emporium for fans, 1 cent and upwards.

—Still the crop reports come in: Jos. Shattuck has 30 acres; F. M. Smith, 35; L. Gerlach, 40; F. Tinkham, 50; Otto Tette, 50; Aston Manavak, 50; J. F. Schulz, 45; J. B. Bradley, 55; N. L. White, 55; Bigelow Bros., 75; Henry Wunscheberger, 90; Ferd Hittner, 100; H. Konrad, 160.

—SEARCHED LUMBER: We have a good supply of seasoned lumber constantly on hand at our mill on West Boggy, 10 and 12 feet \$10.00; 14 and 16 feet \$12.00; 18 and 20 feet \$14.00. First-class native shingles always on hand. First-class \$3; second-class \$2 per thousand.

J. E. ARNER.

ACREAGE REPORT WANTED.

THE JOURNAL desires to collect data relating to the acreage of crop put in in Sioux county in 1891, and will take it as a favor if the farmers will send to this office a statement of the crop they have put in, such report showing the number of acres of each kind of grain, vegetables, corn, etc., planted. No matter how small an acreage you have, a report is desired.

To the farmer who has the largest acreage of crop we will send THE JOURNAL free for one year, and to the farmer having the second largest acreage of crop we will send THE JOURNAL free for six months.

All reports must be in on or before July 1, 1891, and the comparison will be made at that date, so that reports sent in later than that would be barred.

We will also be pleased to receive reports from farmers from all parts of the county from time to time as to the condition of the growing crops.

—Ladies' and children's under vests from 10 cents up, at the millinery emporium, north of Ranch Supply House.

—Homestead handkerchiefs, plain or fancy border, 10 cents apiece or 3 for 25 cents, at the millinery emporium, north of Ranch Supply House.

—H. T. Meriam says his small fruits are in excellent condition and will bear several quarts of berries this year. He also says he will have new potatoes large enough for table use by July 4th.

—A rose was left at this office by Mrs. Bassett which she brought from the Agate Springs Stock Farm of J. H. Cook. The bush from which it was taken had over seventy blossoms on it.

—G. H. Turner is adding forty feet to the rear of his store building to make room for more goods. W. O. Patterson has the contract for the work.

The Herald quotes itself in regard to the Nolan case. Why don't it tell how the case was got out of court? Jumping a bond and getting out of the country is good evidence that he was innocent, wasn't it?

—There will be preaching at the Bodard school house on next Sunday at 11 o'clock, a. m. The announcement in regard to services last Sunday was an error. E. E. E. ROZICK, Pastor.

—For the 4th of July a rate of one fare for the round trip has been made on the F. E. & M. V. to all stations within a distance of 200 miles. Tickets on sale July 3d and 4th, good returning until July 6th, inclusive.

—On last Saturday A. R. Dew shipped his wool clip to Chicago. There was 815 pounds of it taken from 142 sheep. That is an average of about five and three-fourths pounds, which is considered very satisfactory.

—The quarterly meeting of the M. E. church was held as announced. Rev. Julian being present. Pres. Julian is a man of energy, ability and experience and the district is to be congratulated on his appointment.

—In the injunction case of Coffee vs. Bixby, a motion was made in the district court at O'Neill on Wednesday to have the injunction vacated. The attorneys were given one week in which to file briefs. Messrs. Bane and Jenckes and Satterlee & Walker are attorneys for Mr. Coffee, and Messrs. Conley and Holmes appear for Mr. Bixby.

—Charles Cammenzind was in town yesterday. He says it rained at his place most of the time Tuesday night. His crops look fine, wheat two feet high, just ready to head out. He has two acres of sugar beets in excellent condition. His brother-in-law visited him last week and he says the crops look better here than in the east.

—For some time correspondence has been going on between parties here and parties interested in the creamery business, with a view to securing an establishment of that kind. The information received is that with one hundred or more cows a plant could be operated successfully, and there is little doubt that the milk from that number of cows could be secured to start with. The plan is for the farmers to own the factory and then if it pays to sell the milk and the creamery also pays, it makes a good profit for the farmers. Some of the largest creameries in the state started with the milk of from 50 to 75 cows, and the business has increased until they now pay from \$6,000 to \$10,000 a month for cream. The business gives the farmers a cash income every month and with ready cash to pay for what he needs the farmer is a great deal more independent. The correspondence on the subject can be seen at this office. If those in other parts of the county desire to know more about the matter we will cheerfully answer any inquiries.

—The sugar beet committee has been negotiating with the factory at Norfolk and with the F. E. & M. V. railroad company with reference to the shipping of beets from Harrison to Norfolk. The managers of the factory say that they will be glad to receive all the beets that can be sent them, and it is believed that the railroad people will make a rate at which the growers can afford to ship them. The B. & M. realize the importance of the industry and made a rate early in the year at which farmers in Box Butte county can ship to the sugar factory at Grand Island and it is safe to assume that the F. E. & M. V. will do likewise. It is not expected that a great amount of profit will accrue to the shippers this year, but it will bring them a little ready money and will also establish a basis on which they can figure for the future. The beets are reported as looking fine and the prospects are good for Sioux county capturing some of the prizes offered by the state board of agriculture, and it will all help to advance the development of what will be the greatest industry in Nebraska, and Sioux county will yet be the banner sugar producing county in the state.

4TH OF JULY.

A Grand Time at Harrison.

PROGRAM.

The following is the program prepared by the committee of arrangement for the 4th of July. Other features will be added and everything possible done to make it pleasant for all. Every one is invited to come and participate:

COMMITTEES.

Track—W. R. Smith, C. H. Weller.

Decorations—E. G. Hough, George Olinger.

Fireworks—D. H. Griswold, C. H. Andrews.

Fireworks and dance in the evening.

FOUND DEAD.

On last Monday afternoon Anna, daughter of John Pietersen, left the home of her parents on Indian creek, to go to a neighbor's about two miles distant on an errand. Not returning in a reasonable time, the family became uneasy and when upon inquiry it was found that she had not been at the place for which she had started, their fears greatly increased. A general search was instituted and kept up until Wednesday afternoon, when the lifeless body of the missing girl was found lying partially in a pool of water about a mile home. A messenger was sent for the coroner, and Dr. Shafer and Sheriff Reidy went to the family residence, about thirty miles north of here, and held an inquest on Thursday. The inquiry showed that the girl was subject to sinking spells, having had one while at school on the preceding Friday, and the circumstances indicated that death resulted from such a cause and a verdict was returned accordingly.

Deceased was a bright, promising girl, 16 years of age, and respected by all, and the bereaved parents have the sympathy of the entire community in their terrible affliction.

PERSONAL.

Squire Tucker was up from Glen on Monday.

J. H. Cook and Judge Barker went east Monday evening.

B. B. Bixby was in town on Monday and called at this office.

J. B. Bradley was in town Tuesday and called at this office.

James Clark called this morning and gave us some cash on subscription.

E. B. Price arrived from the east Saturday, accompanied by Mrs. S. H. Jones.

Mrs. Laura Owens, daughter of Dr. Shafer, came up from Rushville this morning.

C. B. Kimball, of Alliance, accompanied by his wife, son and daughter, are visiting John Plunkett.

Warbonnet Items.

Your observer is at home to-day on account of rain. It has rained every day for a week, and crops look splendid, especially the sugar beets.

The sawmill will move to Dunn's canyon this week.

Wm. Davis has come home to work for the CR outfit and his brother, George, has quit Seaman's ranch and will work for the same outfit.

Surveyor Dew has finished shearing his sheep and reports a satisfactory clip.

H. T. Meriam says, "I jings" he wants the dry weather advocates to stop praying, as every prayer brings a shower.

Fred Schulz is at home again.

It is amusing to see some of the dry weather prophets try to plow corn between showers.

Miss Thos Thomas came home yesterday; Miss Elsie Merriam is expected home soon; E. E. Garton is expected back from Iowa in a few days, accompanied by a house keeper.

Every body is delighted with the prospects for a good crop.

TO SCHOOL PATRONS.

As the law compels school districts to furnish text books, it will be necessary to provide a place to keep them. I suggest that we go a little farther and vote for a small tax, say one-half mill, for a start toward a library of good books.

The school boards to have control of the school property, the teacher them as of other property, the teacher to be librarian while school is in session. If we can get our children interested in good reading instead of trashy literature we will have no trouble to create a desire to learn. Vote a small amount and try it for a year.

A. SOUTHWORTH
Co. Supt.

Gen. Grosvenor has tendered his resignation as member of the immigration committee to visit Europe, of which he was chairman. The reason for the act is assaults made upon him by the press and in his resignation he said: "I cannot afford to hold office to the injury of my party." Such sentiments show that he is possessed of a true, manly spirit and well worthy the respect of all.

A man by the name of Waggoner was hung in Wyoming, about forty miles from Newcastle, a few days ago for stealing horses. He is said to have been a notorious horse rustler, having accumulated a fortune in cash and 1,000 head of horses, partly by rustling, but mostly by buying stolen stock. While lynchings are to be deprecated, there are times when an outraged public is almost forced to take the law into its own hands as a matter of self-protection.

At Hay Springs there has been some cases recently worked up by one T. S. Tripp, which the News refers to as blackmailing schemes and as it is expected that other arrests will follow on charges without foundation, it is moved that all likely to be called upon be notified to bring a bucket of tar to be used presumably in decorating Tripp. A few years ago the citizens of Rushville administered such a dose to an odious character and ever since that the town has been given a wide berth by men whose acts would arouse public indignation. While tar is pretty severe, it generally proves to be a pretty thorough disinfectant when applied by indignant citizens.

Under the heading "Calves vs. Sugar Beets" the last issue of the Herald publishes an article from an exchange advising every farmer who can to invest in a few heifer calves as a foundation to prosperity. That is right. Get the calves and then follow the advice of the article referred to which says: "Let every farmer who can raise \$100 try this investment, giving the heifers and their increase good care and plenty of feed." Every one should get all the stock he can give good care and plenty of feed to. No one ever advised anything else. It is the ranch system, which is to let all stock shift for itself, regardless of the rights of common people, that causes trouble.

Hail Insurance.

We have the agency for the German, of St. Paul, and can insure your crops against loss or damage by hail. Call and get particulars at the Bank of Harrison.
