WANTED—A bright, active agent in every town in the state. Pay work and good pay. Address: Weekly State Journal, Lincoln, Neb.

Don't forget that the barber shop is on the east of the postoffice, when you want a shave, hair-cut or shampoo.

Lumber—First-class native lumber and shingles constantly on hand at my mill on East Boggy, 13 miles east of Harrison. J. E. ARNER.

I sell the McCormick binders and mowers, the best on earth. Come and examine them before buying elsewhere. G. H. TURNER.

A good portion of the grain in the valley is cut and shocked and the song of the reaper is heard in the land. On the table the grain is not yet ripe but promises a good yield.

Take the Fremont, Elkhorn & Missouri Valley and Sioux City & Pacific railroad for Fremont, Lincoln, Hastings, Superior, Omaha, Missouri Valley, Sioux City, St. Paul, Duluth and points north. Des Moines, Dixon, Chicago, Milwaukee, and the lumber regions in Wisconsin. Close connections are made at Chicago for Toledo, Buffalo, Albany, Philadelphia, New York and all points in the East. Palace sleeping cars on all through trains.

Get something ready for the state fair.

The Regular Farmers' Alliance will meet at the residence of George Brown on Friday, August 7, at 3 o'clock in the afternoon. All members are requested to be present. W. S. HALL, Secretary.

A. A. Gordon harvested 43 bushels of good sized shelled of spring rice from two bushels of seed. The heads are good and well filled and will prove a good yield.

The dispatches from Washington a few days ago stated that the pension of D. F. Thomas had been allowed. After so long waiting the confidence in the government will be greatly appreciated by Mr. Thomas.

At the close of examination a number of the teachers went to the residence of Superintendent Southworth and spent a pleasant social evening, the good feeling which prevailed between the two sets, in the school superintendent during the entire year well for the educational interests of Sioux county.

T. O. Williams brought in some samples of grain yesterday which show up well. Wheat three and half feet high with heads four feet to six inches long and set equally as good. Commissioner Green brought in some heads of six-row barley which are fine. All kinds of grain are good and the farmers are happy.

Some people seem to be putting in their time attempting to arrange for combinations and splits, but the entire work is decidedly thin. The hand of the worker is soon behind the curtain and the people are aware of the designs of the manipulators, and the "silk" workers will realize that their fibers have been in vain.

All who are interested in the Bible school are requested to be present next Sunday. The library has arrived and it is hoped that books can be given out on Sunday. A Bible school will immediately follow at 4 o'clock, when Mrs. Bassett will tell the people something of the work in Box Butte county. All who can are requested to be present.

On last Saturday a woman and a couple of children arrived from the west on the train and soon began to seek assistance from the people. They were taken care of until Tuesday morning, when they took their departure. THE JOURNAL was informed that they were sent here from some place in Wyoming. The authorities should see that all such cases are treated as this one was. This is not a dumping-ground for Wyoming paupers.

The harvest excursions are assured and the managers of the railroads are preparing to do all they can to attract people to the west. J. Francis, general passenger agent of the B. & O., has sent out a communication in which he expresses the hope that the various localities take hold of the matter and get up special advertising matter and send men out to distribute it and work up the matter. The only cost would be the printing and expenses of the railroads will furnish the transportation. It would be a good plan for our people to take the matter up and do something. It would be a paying investment. Shall Sioux county take a hand in the work?

The Western Normal College at Steamboat, Iowa, is still the favorite with western schools. The enrollment was over four thousand the past year, and five hundred fifty-four students graduated from this institution in July of this year. The school is organized for the vast army of poor young men and women all over the west, who are anxious to secure an education, and have no money to throw away in useless expenditures. But for the Western Normal College and the advantages it offers to students of this class, an education would be impossible to them. If you are thinking of going to school at all this year, before you fully make up your mind, write to Pres. Wm. M. Crean, mention this paper and you will be mailed free announcements concerning the school.

A Pleasant Reception. Last Friday evening Prof. Leach and lady went to the residence of L. J. Simmons to spend the evening and after they had been there a short time a knock was heard at the door which on being opened admitted Superintendent Southworth accompanied by the teachers who had attended the institute and their friends making a party of about fifty. Prof. and Mrs. Leach were considerably surprised when a considerably heightened and when Superintendent Southworth presented them with a handsome set of nut-crackers and pins as a testimonial of appreciation of their efforts as instructors during the institute. Prof. Leach responded in an appropriate manner and the gathering then took the form of an informal reception and the evening was spent in an enjoyable manner, and at a late hour the party dispersed, wishing Prof. and Mrs. Leach continued prosper-

PERSONAL. T. O. Williams returned from Belmont, Mo., yesterday.

Mrs. M. J. Baly was called to Lincoln to assist in caring for her niece Mrs. Dr. Leach, who is seriously ill.

Wm. Kennedy, who has been visiting in town, left last evening for his home in Iowa.

Miss Pearl Pollock, Minnie Smith, Ruby Simmons and Louis and Claude Hester visited Van Tassell on Wednesday.

A. J. G. Govey was up from the south part of the county the first of the week.

Commissioner Green went down the road Tuesday to be examined for a position.

A. M. Gibley, of the Herald Publishing Company, returned Tuesday from a trip to Colorado.

F. O. Simmons arrived on Saturday and remained until yesterday as the guest of the Jones family. He was accompanied home by his family who had been here for some weeks. They were all highly pleased with the country.

A Fine Establishment. On Monday the editor of THE JOURNAL visited the Agate Springs Stock Farm of J. H. Cook. This is one of the finest stock farms in the county. His farm is located about twenty miles south of Harrison on the Running Water and contains four thousand acres of land, on which there is about thirty miles of fence and is stocked with about five hundred head of cattle and between one and two hundred head of horses. The stock is of every description of quality, and the cattle are the red and black polled breeds, and to illustrate that it pays to raise good stock we mention the fact that Mr. Cook has been offered \$20 per head for his two-year-old steers while the ordinary mucky steers three and four years old are selling for \$2.

The horses of the Agate Springs farm are good ones. The fine Hambletonian stallion "Mendoman" standing at the head of the stud. There are a number of trotting and standard bred mares and colts which give promise of making a good showing in the speed ring and in addition to these are a number of fine ponies for which there is always a good market and it will not be long until the Agate Springs farm will be noted for the valuable horses raised thereon.

The farm has been fitted with a number of comfortable and convenient barns, sheds, corrals, etc., and Mr. Cook is now at work putting in a system of water works, which when completed will supply all the buildings and yards with water. The proprietor also contemplates the erection of a new house in the near future, the family residence now being on the ranch house order, and Mr. Cook preferred to delay the erection of a house until he had matured his plans for the future on other matters and then build a house to compare to the rest of the buildings. Taken as a whole the Agate Springs farm is one of which Sioux county may well be proud and demonstrates that stock farming in northwest Nebraska is a good business to follow.

Time for Action. It is but a short time until the state fair and the committee appointed to get up an exhibit from Sioux county should lose no time in getting the exhibit in shape. Last year the exhibit was pronounced a very creditable one by those who saw it and it was gotten up under the most unfavorable conditions. With the splendid indications for crops and everything favorable, there is no reason why an exhibit cannot be made that will result in much good to the county. While a great responsibility rests with the committee, the work should be done by the united effort of all. Let each prepare something. It matters not if there are a number of samples of something for it will show that different points of the county are represented and all help to attract attention. A good quantity helps the appearance of the exhibit. Don't be afraid of getting too much and be careful to preserve it in good shape. Don't wait for the committee to ask you for something. Tell them what you have and what you will prepare and deliver at the time and place specified by them. There is a lot of work to be done and the more that take hold of it the better the exhibit will be and the easier it will be to get it up.

Teachers' Resolutions. The following is the report of the committee on resolutions at the closing session of the Teachers' Institute.

Resolved, That we, the teachers attending the Normal Institute at Harrison, Sioux county, hereby tender our thanks to Professor S. L. Leach and lady for the able manner in which they have conducted our institute and for their efforts in our behalf. For their zeal and earnestness in imparting valuable instruction, we owe them a deep debt of gratitude, and desire to offer this our humble tribute to their worth.

Resolved, That we appreciate the efforts of the county superintendent, A. Southworth, for his labors towards making our institute a success, and his kind and gentlemanly bearing towards us at all times.

Resolved, That our thanks are due to the board of county commissioners and are hereby tendered them for granting us the use of the court house in which to hold our sessions.

Resolved, That we are not unmindful of the courtesies extended to us by the press of the county, including THE SIOUX NEWS, and so offer them our grateful thanks.

Resolved, That we are deeply sensible of the kindness and hospitality of the citizens of Harrison which they have so freely extended to us during our sessions, and we beg them to accept our warmest thanks.

Resolved, That the county press be requested to publish these resolutions.

A. J. BARCOCK, Chairman. E. A. E. CONSER, Secretary. SARA TASSON.

Dr. LEONHARDT. 1422 O Street, Lincoln, Neb. Practice limited to diseases of the NERVOUS SYSTEM, HEART and BLOOD.
