The potato crop in this locality will be immense. The size and quality of tubers grown in Sioux county are hard to beat.

LUMBER—First-class native lumber and shingles constantly on hand at my mill on East Boggy, 13 miles east of Harrison. J. E. ARNER.

H. A. Cunningham has purchased the residence property of S. H. Jones. This is a nice piece of property and will make Mr. Cunningham a nice home and also prove a good investment.

John Pieteresen was in town the first of the week with some samples of corn which he raised on his farm on Indian creek. The ears were large and well-filled and it is estimated that it will yield from fifty to seventy-five bushels per acre. That is pretty good for a new country.

We acknowledge the receipt of premium list of the Converse county, Wyo., fair, which will be held at Manville, October 6, 7 and 8. The F. E. & M. V. has made a rate of one fare for the round trip. We extend thanks for a complimentary ticket.

In the last issue an article headed "Sioux County", relating to the exhibit of the state fair should have been credited to the Omaha World-Herald from which it was copied but by an oversight was not credited. We re-publish the article this week giving proper credit. Show what others think of Sioux county.

NOTICE.

We send out a number of extra copies of THE JOURNAL each week and no one need hesitate to take them from the postoffice as there will be no charges against any who have not ordered the paper. THE PUBLISHER.

W. L. Hoyt has purchased the coal business of Grant Guthrie and will look after the needs of the people in the fuel line in the future.

The infant child of Mr. and Mrs. J. C. Northrop has been very sick for the past week, but is thought to be a little better this morning.

The board of county commissioners will meet in regular session on next Tuesday, Oct. 6, which will be the last regular session of the year.

The weather this morning is quite damp, a falling mist filling the air. The seasons appear to be changing the same as they move in all other portions of the state as the county was settled.

The attendance at the dance last Friday evening was not large. The weather was threatening and people were very busy which accounts for no more being present. A good time was enjoyed by those who were present.

G. H. Turner has a potato of the Blue Victor variety, which was raised by Thomas Doyle, which weighs 2 pounds and 13 ounces. If there is anything in the potato line in the state that can beat that we should like to hear of it.

Frank Nutto has purchased a fine black polled bull of J. H. Cook to put in his herd at Antelope Creek. These are fine cattle and Mr. Nutto knows that it pays to raise good stock. The progressive stock growers are all arranging to improve the grade of their cattle and that means increased prosperity.

At the republican primary for Lower Running Water precinct the following nominations were made for precinct officers: assessor, O. J. Govey; justices of the peace, C. E. Govey, W. S. Nicholson; constable, W. A. Matteson; judges of election, B. F. Moore, L. Larson, Geo. Englebrecht; clerks of election, W. A. Matteson, W. S. Nicholson.

While Sioux county does not pretend to be the best corn county in the state, still good corn is raised within its borders. D. H. Hamlin has 25 acres which parties who are in position to know say is fully matured and will average 40 bushels per acre. Many of the stalks have two good sized, well-developed ears on. That is pretty good for a new country.

On Sunday H. A. Priddy and family arrived from Iowa where they have been for some months. He says they have come to stay and now occupy their home northwest of town. Mr. Priddy says there are a number of families in the locality where he was who are coming to Sioux county, some of them being on the road now and others will come later. Many people are disposing of their farms in Iowa and preparing to come west.

We are informed that a colony of ten families are getting ready to come to this locality from one county in Iowa. Such news is good news to every property owner in the country. When people come here and establish homes it increases the value of all the property in the vicinity. If every one does all he can to "coax" more people to come here, it will not be long until property values will be greatly increased. Let the good work go on.

The entertainment at the church last Saturday evening was well attended and enjoyed by all present. Miss Chapman demonstrated that she possessed a good deal of ability as a reader and by study has prepared herself to appear before the public in a creditable manner. After visiting here for a time Miss Chapman goes east to pursue her studies and should she ever visit Harrison again it is safe to say that the people will welcome her with pleasure.

Geo. Watts, of Seward county, was here during the past week visiting acquaintances and looking over the country with a view to investing. Mr. Watts located in Seward county in the early days and passed through the hardships incident to the settlement of a new country and he remarked that Sioux county possessed advantages which that part of the state could not offer to settlers, and predicted that it would not be long until real estate in Sioux county would be a valuable thing. He selected a fine quarter section of deeded land which he will likely purchase in the near future. He will do some missionary work for Sioux county on his return home for he says he has neighbors who are paying high rent who will likely come here when they learn what they can get.

PERSONAL.

C. H. Weller is attending the fair at Chadron.

C. E. Holmes went east Saturday on business.

Mrs. G. H. Turner returned Friday from her visit in the hills.

C. H. Redd is in town this morning on his way home from Wyoming.

Judge Barker went to Rushville Friday and returned yesterday.

Dr. Gibbs was up from Crawford on professional business on Tuesday.

Otto Munson called on Saturday and gave us some cash on subscription.

Sanford Shores called on Tuesday and added his name to our list of readers.

G. A. Dove called on Saturday and ordered THE JOURNAL sent to his brother, N. E. Dove.

E. E. Garten returned from Iowa on Saturday, accompanied by his bride, and they will make their home in Sioux county.

S. H. Jones has accepted an offer of clerk to the Indian agent at the agency in Oklahoma, and he and Mrs. Jones will start for there the first of the week. Their many friends here regret to lose them, but wish them success. They will still hold Sioux county as their home.

On last Tuesday Sanford Shores arrived from Custer county on the noon train. County Attorney Conley took him out southeast of town and he selected a quarter section of land and filed on it and took the evening train for home and will return with his family in the near future. Mr. Shores says there are a number in his locality who will be up here in the near future to look up a location. The tide has turned and new people will soon be flocking to the government lands of Sioux county. Keep right on "coaxing" them to come.

Only three minor countries in Europe have raised enough breadstuff this year to supply home consumption. The United States must supply the shortage that exists in all the rest of the nations of Europe.—Lincoln Call.

Married.

ARNER—BEANS.—At the residence of the bride's parents in Crawford, Neb., on Thursday evening, September 24, 1891, by Rev. Curran, Mr. John E. Arner and Miss Emma Beans.

The bride and groom are both well and favorably known to the people of this place and vicinity, where they have resided for a long time and their many friends extend congratulations and best wishes for a long and prosperous voyage over the matrimonial sea.

An Important Decision.

The supreme court in the case of state ex rel. Wessell vs. Weir has very clearly interpreted Sec. 34, Chap. 18, statutes as follows:

"The legislature by the above section, (Sec. 34, Chap. 18) has limited the power of county boards, in incurring county indebtedness. They can not lawfully incur an indebtedness against the county, in excess of the tax levied for the current year."

Further on in the opinion the court makes a clear distinction between the kind of indebtedness incurred by the statute as follows:

"As for the claims for making the tax list and the salaries of the county clerk and county attorney it is safe to say that the provision of Sec. 34 in so far as they limit the power of county boards to create county indebtedness and bind the county for its payment, have no application. The salary of a county officer is not an indebtedness of the county which is created or incurred by the county board. The law makes it the duty of the county clerk and county attorneys to discharge the duties of their respective offices imposed by law and they can not refuse to perform the same in the ground that the tax levy has been exhausted nor is the county for that reason relieved from paying the salaries of said officers, but must provide for the payment of the same."

Under the opinion a large per cent. of the county indebtedness is void, also quite a per cent. of the Wessell claims on proper proof to the court. The court says "there is an entire absence of proof to show that when the indebtedness was contracted the levies for 1889 were exhausted." The issues were made up in November, 1890, and L. O. Kull, who was county attorney failed to put in the certificates showing that the levy was exhausted at the time the indebtedness in controversy was incurred. In ordering the writ to include the claims in the estimate of 1892 the court makes the following statement:

"If the indebtedness was so large that its payment would absorb so much of the revenues of the county as to leave the county board practically without means to meet the current expenses of county government, we might be called upon to require only a portion of the plaintiff's claims to be paid in one year, and the balance out of future tax levies." The above puts the matter in such shape that the issuing of writs can be avoided, which will be an advantage ultimately to the tax-payers of the county.

The conditions in Russia are becoming more appalling as time passes. In some districts the inhabitants of entire villages are dying of starvation. The doctors are prescribing corn instead of medicine. The crop was a failure and now a new insect whose ravage are worse than the Hessian fly is at work and a plague has broken out among the cattle. Terrible suffering is in store for the people of that country and heavy imports of food will be necessary to prevent them from starving and the Russian government will have to furnish the means with which to purchase the supplies.

Notice to Land Owners.

TO ALL WHOM IT MAY CONCERN: The commissioner appointed to establish a road commencing at the southwest corner of section 3, township 22, range 43 in Cottonwood precinct, Sioux county, Nebraska, running thence east on the section line between sections 3 and 4, and 9, 3 and 10, 2 and 11 to a point 10 chains east of the corner common to sections 3, 4, 9 and 10; thence southeasterly through the N W 1/4 and N E 1/4 of said section 11 to the S W corner of the S E 1/4 of the N E 1/4 of the same; thence east 1/2 mile, terminating at the 1/2 corner on the west side of section 12, township 22, range 43 has reported in favor of the establishment thereof, and all objections thereto or claims for damages must be filed in the county clerk's office on or before noon of the 31st day of November, A. D. 1891 or said road will be established without reference thereto.
