Corrected every Thursday.

—Hides wanted at the harness shop.
 —Plug tobacco for 25 cents a pound at Turner's.
 —Otto Tietze has our thanks for a nice piece of beef.
 —Eighteen pounds of granulated sugar for \$1.00 at Turner's.
 —A car load of lumber arrived for G. Guthrie on Tuesday.
 —Four pounds of Arbuckle's coffee for 50 cents at TURNER'S.
 —Seven choice cigars for 25 cents at TURNER'S.
 —Bring in your oats to the Ranch Supply House. Will allow \$1.00 per hundred in trade.
 —Show your interest in the agricultural society by getting a membership ticket.
 —A county fair next fall is assured. Now is the time to prepare to have something to exhibit.
 —LUMBER.—First-class native lumber and shingles constantly on hand at my mill on East Boggy, 13 miles east of Harrison. J. E. ARNER.
 —Do not fail to get a membership ticket in the agricultural society. It is not organized for a few but for every resident in the county.
 —The Sunday schools are preparing for a good time Christmas eve. A supper will be served early and a Christmas tree and entertainment will be features of the evening.
 —Tell your friends in the east that there are hundreds of thousands of acres of land in Sioux county which will cost you nothing if they want to make a dime on a quarter section, except the ad office fees and they are small.
 —During the past week John Corbin, J. H. Bartell, W. C. O'Connor, Jerry Hill and Eli Smith each contributed a rod of wood which will help to keep us comfortable during the cold season.
 —The county alliance meeting which was called for last Friday was not a moving success, numerically, as all who appeared to participate were H. G. Stewart, of White River and George Burson, of Cottonwood.
 —Speaking of the productiveness of the soil of Sioux county, A. Blood informed us that he raised a squash last season which weighed 85 pounds, and it had no special care or forcing. What locality can beat that?

—STRAVED—About November 6, 1891, two yearling steers; one red and the other white, branded AM connected on 41 lap. A suitable reward will be paid for information leading to their recovery. A. W. MORM.
 —D. H. Griswold received word this morning announcing the death of the father of the latter at his home in Pennsylvania, on last Saturday.
 —Parties in the east are sending for samples of the products of Sioux county. We desire that those who have wheat, oats, corn, potatoes and, in fact, anything which gives evidence of the productiveness of the soil, bring in a few samples to be used to help in the work of getting new people here.
 —A grand ball is to be given at the Court house hall on New Year's eve, the proceeds to go to the benefit of the Sioux County Agricultural Society. All should attend for they can have a good time and at the same time help to put the society in shape. Don't forget the date, December 31, 1891. Come early.
 —The entertainment at the Southworth school house on last Thursday evening was well attended and passed off very pleasantly. It was the close of the fall term of school and at the close the teacher, Miss Minnie Smith, was presented with a handsome album as a token of esteem by the pupils and patrons of the school.
 —Henry Lindeman, brother of County Clerk Lindeman, arrived last week and has placed a homestead filing on a quarter section of land a few miles northwest of town. His family will be here in the near future and others from his locality will shortly follow. All that is needed is to get people here to see what they can obtain and they will soon become residents.
 —Jake Kriesler returned last week after a year's roaming over the northwest states and territories and he says Sioux county offers better opportunities for a poor man or one of limited means than any place he found. The opportunities now offered will not last long. Now is the time to take advantage of them.
 —The election of W. H. Davis as principal of the village school made it necessary to find somebody to take the Herald. On Saturday Col. Ketchum was here but he was wanted with the late Marsland and was warned him to keep his fingers clean. On Monday E. S. Nesbitt and A. L. Ketchum came up and we learn that the latter has purchased the Herald plant and will conduct it to the future.

County Agricultural Society.

Pursuant to the call a meeting was held at the court house on last Tuesday to organize a county agricultural society. The meeting was called to order by D. H. Griswold, and on motion Martin Gayhart was elected temporary chairman. A. W. Mohr was elected temporary secretary. The first thing taken up was the adoption of a constitution. This done the election of officers followed and resulted as follows:
 Martin Gayhart, president.
 D. H. Griswold, senior vice-president.
 H. W. MacLachlan, secretary.
 C. E. Verity, treasurer.
 The following vice-presidents were recommended by the president and confirmed by the society: J. M. Robinson, J. S. Tucker, Chas. U. Greig, Jeremy Stinson, F. W. Knott, S. R. Story, R. Kennedy, A. W. Mohr, E. M. Smith, Eli Smith, J. H. Cook, O. J. Gosway, Octave Harris, J. W. Ernest. The president then selected the following as a board of managers: J. M. Robinson, Jeremy Stinson, A. W. Mohr, Eli Smith and J. H. Cook.
 A good deal of interest was manifested and all seemed desirous of making a success of the movement. Over one hundred membership tickets have already been subscribed for and the paper has been circulated but a little. The membership tickets will be in the hands of the secretary in a few days and then all who desire to take an interest in the work can purchase them. They will be one dollar each and give the owner a vote in all meetings of the society and also admit him and his family to the fair during the season.
 The meeting adjourned subject to the call of the board of managers.

—Apples 90c per bushel at Turner's.
 —Blankets and robes at Cunningham's.
 —Go to Turner's for bargains in everything.
 —Twenty-four bars of soap for \$1 at Turner's.
 —Highest market prices paid for grain at the Harrison Lumber Yard.
 —C. S. Scott will begin the construction of a new house on his farm southeast of town in the near future.
 —WANTED—20,000 pounds of oats. Will give \$1.00 per hundred pounds in trade. RANCH SUPPLY HOUSE.
 —An entertainment was given by the school on last Thursday evening at the church and was quite well attended.
 —FOR SALE—A barber outfit, complete at Harrison, Neb. CHAS. PALMER.

—We call the attention of our readers to the advertisement of the Chicago *Inter Ocean* which appears in another column of this issue. The *Inter Ocean* is one of the best and most popular family newspapers published and when you are making up your list of papers for the next year you cannot do better than to consider its claims. The *Journal* clubs with the *Inter Ocean* on very good terms.
 —A very pleasant progressive euchre party was given at the residence of H. A. Cunningham last Thursday evening in honor of Mrs. M. P. Maholin. Six tables were used and the evening passed very agreeably. At the close it was found that Mrs. Maholin had won the highest number of games at the royal table and was awarded the prize and that Miss Rosa DeBoeck had been detained at the lowest table the greatest number of times and was awarded the other prize.
 —In the work of advertising Sioux county a good deal of progress is being made. Negotiations are pending for the establishment of agencies in eastern Nebraska, Iowa, Illinois and other states, and after a little time good results are bound to follow. All that is needed is the hearty co-operation of every settler in the county. Sioux county can just as well be settled up in five years as in twenty-five and the result will be that the land will be made valuable in a short time just as well as to sit still and wait for a quarter of a century for people to come of their own accord. Your land will not increase in value until the county is settled up so it is simply a matter of business for you to put your shoulder to the wheel and help the work along.

—The work of getting flags to float from the school houses of this county is going on. The Montrose district won the flag offered as a prize by Southworth for the best exhibit at the institute in 1890, and through the efforts of B. B. Smith the stars and stripes have been floating over the school house in district No. 1 for the past six weeks. At the close of the entertainment in district No. 9 last Friday evening a collection was taken up for the school house; it was purchased a flag for the school house and it is hoped that it will not be long until every school house in the county will have the national emblem floating over it. What is the reason there is no flag on the Harrison school house? The county seat should not be behind the rural districts.
 —Renewed interest is being manifested in the matter of roads. There is nothing which speaks better for a locality than good roads and it is a great deal easier to get them located now than it will be after a few years, and in addition to that it is a great deal better for the farmer to work their road tax on a road which will be permanent and beneficial than to work on one which, in all probability will be vacated as soon as the locality is settled up. It is a mistake for those through whose land a road runs to try through a large sum allowed as damages and get in any other way to obstruct the opening of roads for they will benefit those along whose farm they pass more than the value of the land appropriated, and get consent roads wherever possible and get them located and where it is necessary to force a road the sooner it is begun the better, if the road is needed, for it takes about six months to open a road under the laws now existing. All personal feelings should be laid aside in such work and what will result in the greatest number should alone be taken into consideration.

A Flouring Mill.

The necessity of a flouring mill has been forcing itself upon our people with increasing weight. A great deal of grain has been going out of the county for milling purposes and carrying with it a large amount of other business which should be kept at home. A strong effort has been made of late to secure a mill and a man has been found in the east part of the state who is looking for a location.
 A meeting of the business men was held last Thursday evening and after a discussion of the matter it was decided to raise a bonus for any one who would erect and operate a steam roller mill at this place. Those present agreed to contribute and enough was assured so that it was safe to make a proposition offering one thousand dollars and word was sent to that effect. A subscription contract was drawn up and the greater part of the money subscribed. But there is still a little lacking so that any who are willing to help the good cause along are requested to make it known.
 A good mill here will be a great benefit, not only to the town but to all the surrounding country, and it will greatly assist in the efforts to get new people to come here to locate. A mill can be erected here at a much less cost than it could be where all the lumber had to be shipped in and can be operated cheaply because coal can be obtained at a low rate. These facts together with the fine quality of wheat grown by the farmers will certainly make a mill a paying investment.
 With the securing of a mill one important feature of prosperity will be added and will pave the way for other important improvements. The enterprise exhibited by the citizens of Harrison in this matter is commendable and shows that they are alive to the interests of the community.

Membership Tickets.

Membership tickets in the Sioux county agricultural society will be ready on Monday, December 21, 1891, and can be had by those who have become members. They cost \$1 each and entitle the member to a voice and admit him to all meetings of the society and also admit him and his family to the county fair. All are urged that all who are interested in the success of the society will secure one of the tickets.
 H. W. MacLachlan, Secretary.
