Longation and Crime.

or with some unperceived theory for which they are in search of evidence, irelike y to reach very misleading resuits. This has been the case with those writers who, for some reason not easily understood, have sought to show that education, so far from overating and the journ list tackled him. to diminish crime, actually increased it. The fallney of this reasoning and the fundimental error on which it is based and acquaintance with the facts. were clearly shown by Commissioner Harris in his address at the prison congress in Cincinnati. For example it is found in Michigan, that 70 per cent of the criminals cats read and write, while only 30 per cent are absolutely Illiterate. | wasn't." Immediately, someone products this fact as proof positive that there is more crime among educated peop e than among those who are literate. But why that is? the statement is incomplete until we: know wint is the ratio of innurales to When this factor is taken in the account a very different concernsion is reached. it appears that 95 per cost of the POP tree, mostly." and write. That is to say, 5 per cent of kodak over his shoulder and went on, were not overcoats, and peace again trail Europe to the further cast. the population farmishes 30 per cent of the criminals, which giver eight times Adeged Recreation of The Popc. as many criminals from each the sand of those not illicerate.

In like manner, a coperficial exercina tion of the statistics of crime in Manual chasetts would loud to the conclusion that there had over a startling increase in the amount of crone since 1860. But a closer secution of the causes of arrest shows that the upparent increase is due to arrest for drambo mass, or violations of the liquor law, which causes figured scarcely at all at the earlier date. Taking this fact into consideration, it is form! that crim a against person and property were more numerous proportionately in 1860 than in 1885. During those twenty-are years there has been a decrerse of 41 per cent. In the crimes state, allowing for the increase of popproperty are much safer than they were twenty-five years ago, but intemperance is not nearly so safe. Boston

Tracks Regarding Spee.d.

Nelson's performance at Rushville as well as that of other horses that started there and at Kankakee, will in all probability put an end to the chatter about two kinds of records The Maine horse trotted the kite-shaped track in 2:114 when he was sent for the record, and the Riverside Park track at Rushville in 2:11% when the owner's intention was to go a mile between 2:13 and 2:14. B. B. also paced the Kankakee track in 2:1314 and Adonis was forced out in 2:12% to beat him in a postponed race and in many instances these are cut at Rushville. Tony H. was faster at away in order to get at the more valuable timber, which lies only three or able timber or able timbe was faster at Rushy lie than at Kanka-kee Taking these limit performances the grant has a summer trees are of enormous size, two sunken trees are of enormous size, two sunke d rence between the Kankakee track at an oval one as the one over which the horses perform at Rushville is new. last week's meeting being the first held there. It may be possible that the independence track is faster than Kookakee on the same ground that Cleveland track is faster than Beacon park or the famous old Franklin park at Bangus.
