—Tarpaulins at the harness shop.
 —Paint, oil, glass and putty at drug store.
 —Latest patterns of wall paper at drug store.
 —It is reported that cattle are living on green grass in the valley.
 —Salt \$2.65 per barrel at GRASWOLD & MARSTELLER'S.
 —If the past week has not been genuine April weather we should like to know what was necessary to make it so.
 —Quite heavy stock losses are reported from the sand hills east of Dawes county, but no loss to speak of occurred in this section of country.
 —A couple of farmers living a few miles from town got into a row last week and the one who got the worst of it had the other arrested. He acknowledged the act and paid a fine of \$1 and costs.
 —C. H. Weller has gone to Chadron to prepare to open business there on May 1st. Theo. Trimbur expects to move down there about the 20th of the present month. There will be quite a colony of Harrison people at Chadron and all wish them prosperity.

—The voice of the meadow lark is an added evidence of spring.
 —District court will convene next Monday and the jury is called to appear on Tuesday.
 —A. Priddy today moves into the Bartell building and on next Monday will open a restaurant.
 —On account of the unsettled condition of the weather last Saturday night B. F. Thomas did not deliver the lecture as advertised.
 —The ladies, almost without exception have contributed a dime each to the fund for the purchase of a hammer with which to drive the last nail in the woman's building at the world's fair grounds at Chicago. There will be few, if any, towns the size of Harrison that will make so good a record.
 —Last Monday Mike Bruck, better known as Shoester, disposed of his tools and personal effects and took the east bound train. He was to represent Sioux county in the democratic state convention yesterday and then will look for work. As Shoester is a thing of the past the question to be decided is "who will rush the kettle now?"

—J. W. Scott expects his brother-in-law on every train. The people will come here all right if the settlers will let them know of the advantages offered by Sioux county.
 —T. O. Williams says he has found out who cut his fence and he is apt to make it a little interesting. A good heavy fine might teach some people to respect the rights of others.
 —A gentleman arrived yesterday from the eastern part of the state to investigate the advantages of stock growing in Sioux county. He will visit some of the principal stock farms and should be find what he wants he will return in the near future to Sioux county. The advantages possessed by this locality are fast becoming known and people will not be slow to take hold of them.
 —The article from the Cheyenne Leader which appears in another column contains information of importance to the people of this locality. The experiments of Melbourne have demonstrated that he can produce rain and he goes at his work in a manner which indicates no attempt of fraud. The price of one cent per acre makes it so cheap that no one will hesitate to go into an agreement.
