G. H. TURNER.

D. M. Sutton has had a new water tank built, which will be a great convenience to him.

It is about time for the farmers to begin to enlarge their graneries to make room to store the immense crop that is now growing.

The ice cream social at the court house on Tuesday evening was a success, although the rain doubtless kept a number from venturing out.

As the grain and vegetables of various kinds begin to mature we should like to have our farmer friends bring samples to this office in order that visitors may see what is growing in Sioux county.

Prof. E. H. Barbour and party arrived from Lincoln yesterday and will spend some time in gathering geological specimens in this locality. They are provided with tents and will have a regular outing and do a lot of work at the same time.

Wm. and L. D. Harmon passed through Harrison the first of the week on their way to Montana. They have resided in the east part of the county for a number of years. Shortly before reaching town they mashed down a wagon wheel and had to lay over for repairs.

The annual school meeting will occur next Monday as provided by law. All school districts hold a meeting on that date and it is the most important gathering to the schools that occurs during the year. The work of the entire year is mapped out, so it is the duty of all interested to attend.

The reports from Johnson county are that the round-up is going along quietly. The cowboys all go armed but there is no trouble, those who are gathering the cattle belonging to the big cattle companies and those who were mixed up in the invasion are in sympathy with the settlers and it is thought that all the stock belonging to those who have had trouble with the settlers will be gathered and taken to some other range. If that is done all trouble will be at an end and the rustlers will be out of a job.

This section of country has been pretty well cut off from the outside world during the past week. The rain of last Wednesday washed out a lot of track and bridges on the Elkhorn between Whitrey and Chadron and the repairs are not yet completed. The mail which was for this point as well as express and freight got hung up at Chadron. No Omaha or Lincoln papers were received here from Wednesday until Tuesday and then the latest was those of Sunday. Part of the mail went out on the Union Pacific and reached here over the Cheyenne & Northern, but the delay was annoying and made people wonder how business was carried on before railroads were built.

Married.

SMITH-CORNELL.—At the residence of bride's parents, at Crawford, Neb., on Monday, June 20, 1892, by Rev. O. T. Moore, Mr. Ben. B. Smith and Miss Hannah Cornell.

Invited guests numbering about forty were present. Numerous floral designs added to the pleasure of the occasion and the newly married pair were made the recipients of many useful and ornamental presents. They will make their home on Mr. Smith's farm in the valley and will begin their married life with best wishes of all for prosperity and happiness.

Harmon, Frank Daily and B. S. Padlock as defendants, for the sum of \$20.30 and costs taxed at \$20.08 and accruing costs. I have levied upon the following real estate as the property of defendants to satisfy said order of sale to-wit: The S. THOMAS REDDY, Sheriff of Said County.

Dated June 9, 1892.

To School Officers and Patrons.

For the benefit of any districts that desire to vote a tax for a library but think it may be illegal I give State Superintendent A. K. Goudy's opinion on the subject:

"A library being a very important part of the working apparatus of the schools, the school board has authority to make provision for this by voting a tax the same as for other school supplies."

A. SOUTHWORTH, County Superintendent.
