In a letter to the Nebraska Farmer Albert F. Woods says: "For gen- farming and stock-raising there is nty in the state that offers better n than Sioux county: good grass, soil and timber and a chance to at the kind of a farm you want."

Prof. Barbour and party left Satur- rening for the Indian reservation, ter spending about ten days there will go to Lincoln. They are pleased with the result of their The State Journal of last Sunday ined quite an account of the work expedition.

Sheriff Reidy received a letter from other in Iowa last week which in- a very bad state of affairs. The rop will be little more than not- out as will be the poorest crop here for years. The extreme wet early part of the season was fol- a lack of moisture later and it will be a decidedly short crop.

E. L. Lawrence has the agency for e grinder which is pronounced by who are in a position to judge to best thing of the kind in the mar- with it a mower, sickle can be d in five minutes and a great deal job done than is possible to do by for it keeps the bevel on the sections which is the most important thing a sickle do good work. Parties use for such a machine would ill to consult him.

—See Scott's ad in another column.

—Nels Engbret and Jos. Stasny each took out new self-binders last week.

—Salt \$2.65 per barrel at GINSWOLD & MAESTLERS.

—Charles Bohbert has purchased the interest of W. E. Moore in the well drill.

—J. E. Wallace is having his threshing machine fitted up ready to begin work.

—Don't forget to save samples of your crops to help make up the exhibit at the state fair.

—C. R. Wadsworth has gone to seek a place where there is more demand for his kind of goods.

—The efforts to get a flouring mill ought to be renewed. A mill would be a paying investment.

—There is a scarcity of hands in this locality. Men are wanted in the harvest and hay fields and also at the saw mills.

—The crop of winter rye is reported as being first class. The acreage is small, but will likely be largely increased next season.

—The rock work on the new road is nearing completion. The road will be ready for the farmers of the valley to haul their crops to market over.

—Henry Brundige came up Tuesday and put a homestead filing on a piece of government land. He knows the value of a good quarter section of land on which to make a home.

—A new threshing outfit, complete, arrived last week for James Nolan. With the number of machines there are in the county this year there will be no need to employ outsiders.

—A little 4-year-old girl of J. B. Burke's got lost of Tuesday and was found by J. G. Morris about a mile from home. She had evidently started to follow her father who had gone to a neighbor's.

—The Ladies' Aid Society will give an ice cream social in the court house on Wednesday eve, Aug. 17. There will be a short program commencing at 7:30 sharp. Cream and cake will be served immediately after. All are invited.

—Alex Lowry has filed a homestead right on a quarter section of fine land about three miles east of town. He came here last spring, plit in a crop and took time to look around. He says he is here to stay and hence has laid claim to 160 acres of Uncle Sam's domain.

—Mrs. A. Southworth and daughter, Winnie, were thrown from a buggy last week. The team attached to the vehicle became unmanageable and made a short turn, throwing both the occupants out, but fortunately no injuries were sustained except slight bruises. The buggy was somewhat damaged.

—Sam Leeling was in town Monday and said he had his wheat cut and in shock. He said he had shocked grain in the east which was heavy but his crop this year is the heaviest grain he ever handled. The small grain crop all over the county is good, with the exception of some smut in the wheat.

—E. J. Wilcox informed us on Saturday that he would have about one hundred tons of wheat grass this year. There is no question that wheat grass is the best grass for hay that is known. There are more fattening properties in it than in clover or timothy. It is a native of this country and by breaking or thoroughly cutting the sod with a disc harrow a good crop of it is obtained. Our farmers would do well to get good sized meadows of it for hay.

—The rate at which people are filing on land of late is one of the best indications of the coming of new people and development of the country. A good many have been waiting, thinking there was plenty of time, but the assured good crops here, considered in connection with the poor crops in many of the older states and portions of this state has brought them to the conclusion that if they wanted to get a choice piece of land it would be necessary for them to be about it; and the future will prove the wisdom of their course.

—In the car load of cattle shipped recently by G. W. Hester, was one which was "held up" by the brand inspector. The animal, we are informed, was purchased by a resident of Harrison from a party near Crawford and by such purchaser sold to Mr. Hester. By what authority any one seizes cattle shipped to market is a question. Under the laws provision is made for inspecting and disposing of diseased stock but Nebraska has no law creating a brand inspector at stock yards. It is hoped Mr. Hester will contend for his rights in the matter.

Married.

The coming presidential and state campaign will be one of the most exciting ever known. During this time you will want a newspaper that is thoroughly in touch with public sentiment, and one that prints the news before it becomes stale. The Semi-Weekly State Journal prints the news several days earlier than the old-fashioned weeklies, and costs the same, \$1.00 per year. A complete paper twice each week—Tuesdays and Fridays. Giving 104 papers a year, it is almost as good as a daily. The old-time weekly is not in it when it comes to printing news. A year's subscription will carry readers all through the campaign and the next session of the legislature. A big dollar's worth.

A few of our offers.—The Journal a year and "Stanley in Africa," \$1.40; Journal and Weekly N. Y. Tribune, both one year, \$1.25; Journal and Oxford Bible, \$2.75; Journal and Neely's political map, \$1.80.

As a trial subscription we will send the semi-weekly until after election for a quarter. Address,
