HON. JAS. WHITEHEAD,

6TH DISTRICT.

will address the people of Sioux at the
COURT HOUSE IN HARRISON,

Friday, October 21, 1892,

At 2 O'clock, p. m.

Come every one and hear
the eloquent candidate and
judge of his ability and de-
cide whether or not he is
worthy of your support.

T. O. Williams has gone to Wyom-
ing to drill wells.

Tell your friends to come quick if
they want to get first choice of land.

Miss H. M. Warneke has moved into
the second story of the Smith building.

It is reported that a little child of J.
W. Langdon was severely burned a day
or two ago.

V. A. Hester and his sisters will oc-
cupy rooms on the second floor of the
Andrews building.

With new people coming in and new
business enterprises starting up the spirit
of rattle is greatly revived and a pros-
perous future for Harrison and Sioux
county is assured.

Gen. C. H. Van Wyck, the independ-
ent candidate for governor is to speak in
Harrison on Oct. 28th. He is the only
speaker the independents expect to have
here during the campaign.

Spring wheat brought as high as 53
cents in Harrison during the past week.
It is the quality of the wheat which
commands the price. Sioux county pro-
duces the best wheat in the state.

It would be well for the village
board to have the planks and charred
timbers, which are lying about the streets
near where the fire occurred picked up.
Some one will have a horse injured if
they are left as they are.

J. W. Smith will open a boot and
shoe repairing shop in Cunningham's
harness shop on next Monday. Mr.
Smith is a good workman and guaran-
tees his work and invites the public to
bring him anything they have to be done
in his line.

Speaking of gardening in Sioux
county, J. J. Kipp had a little patch
planted to tomatoes, about one-sixteenth
of an acre, from which he has sold over
\$30 worth besides all he used and gave
away, and there are still many bushels
which did not ripen.

The national W. C. T. U. have set
apart Saturday and Sunday Oct 22 and
23 for special prayer service. The local
Union is requested to meet at the church
at 2 p. m. Saturday and there will be a
temperance meeting at 7:30 p. m. Sun-
day. All are invited.

Solomon Burkly, of Montrose, raised
a crop of flax which yielded 24 bushels
per acre and he sold the seed for 90 cents
per bushel, making \$21.60 per acre. That
is a good deal more than the market
price of the land and shows that farming
in Sioux county pays when it is properly
done.

A. A. Brower, of Chadron, republican
candidate for representative for this
district was in Harrison a short time yester-
day. He met a number of people
here and expects to be here on
Friday to get better acquainted with
them. He is a pleasant gentleman and
made a good impression on all he met.

F. M. Smith was in from Bodarc on
Tuesday and made a pleasant call at this
office. He has the material at his place
for a new house which he expects to be-
gin work on next week. Mr. Smith is
an old settler in Sioux county and has
made a success with his farm and is
anxious for more people to locate near
him.

A few days ago Mrs. Mary E. Mac-
Lachlan received by express from Scot-
land an heirloom of much interest. It
is a Bible which was printed in 1603,
bound in leather with a leather cover en-
casing the entire book. The leaves are
time stained but well preserved and the
old-fashioned style of spelling and form-
ing of letters add to its interest. One of
the most curious features of the book is
that at some early date some of the
leaves got torn out and destroyed and
some one copied the missing leaves from
another Bible of the same edition, the
copying having been done with a pen
and in so neat and regular a style as to
almost equal the printing. The book is
prized very highly by the possessor and
arrangements will be made for it to be
exhibited at the world's

The Seward party of land-seekers, H.
J. Smiley, Henry Covey, Will, Frank
and Wilmer Phillips, left for home Sat-
urday evening, having each made out
filing papers on a quarter section of fine
land lying a few miles east of town.

They will gather their corn crops and
prepare to return here in the spring to
make their home, and in the mean-
time they will do some missionary work
for Sioux county by telling their friends
what can be secured here. They were
highly pleased with the treatment they
received at the hands of hiverymen, hotel
men and all with whom they had deal-
ings, for all charges were reasonable and
no one attempted to bleed them. They
say that others expect to come up here
in the near future to get a quarter sec-
tion of Uncle Sam's land and it is need-
less to say that all such will receive a
cordial reception at the hands of the
people of this town and vicinity.

Grammery Items.

Dug Hamlin took a load of wheat to
mill last week and owing to the severe
rains did not get back until Saturday.
Why doesn't some one start a mill in
Harrison? There's not much inducement
in raising wheat when it takes a whole
week to take a grist to mill.

Corwin Lewis is getting well fast and
has begun building a house on his claim.
John Dunn was in your city last Fri-
day.

Leslie Crane has a new roof on his
house now. He doesn't intend to be
rained on any more.

We mean to give Hon. James White-
head a good, large audience at the Rally.
Mrs. Lawler returned to Harrison last
Tuesday after a pleasant visit with
friends in the valley.

George Davis has been harvesting corn
for Lin Ellis the past week.

Winter has given warning of his com-
ing by the heavy frosts we had last
night.

Because the alleged steel wheels got out by inexperienced men
who have gone down in the river, and who have sent us your
order for the wheels, we have decided to make all of our
wheels in this country. In this year's business and cycles the
Armstrong has in proportion much less than any other wheel
of the same size and has frequently been lost.

45 sold in '88

2,288 sold in '89

6,268 sold in '90

20,049 sold in '91

60,000 will be sold in '92

A Steel Wheel and Steel
is sold every 3 minutes.

These figures tell the
story of the ever-growing
demand for the Armstrong
Steel Wheel. Where
one of these wheels
is used, it takes the Country
around, and we were able to make all of
the wheels in the world. Orders often
waited to be filled, but now we have
vastly increased our plant and see
prospects to plant our wheels in every
habitable portion of the globe.

Are you getting a wheel from the Agri-
cultural Co. in the 4th year of its exist-
ence, one of many times as
many as all other wheels
combined? Show us
the Steel Wheel, the Steel
Wheel?

If you are in a field in
which there has been no improve-
ment for 25 years, or in which
there are no tools or machin-
ery, or in which the tools are
except in public imitation
of our inventions.

The liberal policy of the Armstrong Co. that guaran-
tees its goods satisfactory or pays freight both ways, and
the enormous output of the factory which enables it to fur-
nish the best article at less than the price of any other. For
we furnish the most perfect bearings ever
got to a wheel, and have made an exhaustive re-
vision of the Armstrong and Co.

If you want a wheel, call, or if you want to
know the price, call, or if you want to know the price,
