Mr. Whitehead was nearly worn out, having lost about four night's sleep during the week previous, but he gave the people an hour's talk which lowing morning. demonstrated that he is a man of ability and knows what he is talking about. There was none of the braggadacai spirit in his manner or words and his statements were backed up by the records. His attention was called to an article recently published in the Crawford Boomerang, asking him certain questions concerning his acts while in the legislature in 1889 and he proved by the records that the writer of the article did not know what he was writing about, and that his premises were false. He made no promses as to what he should do in the event of his election, but he told of some things he would not do. He was frequently applauded and he made many friends both for himself and his party. His personal appearance and pleasant address is much in his favor as they indicate the

"Seeing is Believing."

And a good lamp must be simple; when it is not simple it is not good. Simple, Beautiful, Good-these words mean much, but to see "The Rochester" will impress the truth more forcibly. All metal, tough and seamless, and made in three pieces only, it is absolutely safe and unbreakable. Like Aladdin's of old, it is indeed a "wonderful lamp," for its marvelous light is purer and brighter than gas light,

softer than electric light and more cheerful than either. Look for this stamp—THE ROCHESTEE. If the impedealer hasn't the genuine Rochester and the sivie you want send to us for our new illustrated catalogue, and we will send you a jamp safely by express—your choice of over \$,000 varieties from the Largest Lamp Store in the World.
