**GRANT GUTHRIE.**  
—If you want to sell your land, list it with Simmons & Smiley, real estate agents.  
—See Priddy & Moore's ad. in another column. They do good blacksmithing at reasonable rates.

—Do you want to rent your farm? Put it in the hands of the real estate firm of Simmons & Smiley.  
—I. Richstein has purchased the bar fixtures of C. R. Wadsworth and removed them to the Weller building.  
—The weather still continues to be the best on earth, notwithstanding predictions of the weather prophets to the contrary.  
—P. B. Bigelow has a new house on his farm, having replaced the one that was destroyed by fire with a good frame building.

—W. E. Brown has received a set of blacksmith tools and will open up a shop in the Hart building south of the lively barn next week.  
—Geo. W. Stevens arrived Sunday from Illinois with two high-bred trotting stallions. It is pleasing to see such stock coming into the country.

—Mrs. Flora Haynes moved here last week and has taken a claim southeast of town and has a house on it. Land near town will not be open for settlement much longer.  
—A jolly crowd of young people went to Commissioner Johnson's pond to skate Friday night and, although the ice was thawed a little in some places, they had a good time.

—It is reported that a keg of liquid refreshments was stolen from Wadsworth's place one night last week. He is said to have contemplated the arrest of the parties, but changed his mind when all the phases of the matter were considered.  
—M. E. O'Brien, Superintendent of the State Fish Commission writes that the fish car will arrive at Harrison on the 5th of March with young trout. About thirty thousand of the fish will be distributed in the streams, and different parties will receive some for private ponds.

—About the 1st of March thirteen or fourteen cars loaded with the effects of Seward county people will leave for Sioux county, where they will locate. About thirty people will compose the colony-farmers and their families, and they are arranging for a special train with a coach attached. It is expected that six or seven cars from Nuckolls county will be added to the train here. The best wishes of the Blade will be with them in their new homes.—Seward Blade.

—Last week Griswold & Marsteller sold two car-loads of oats to parties in Lusk, Wyo. The market created by the non-producing districts of Wyoming will prove a source of profit to our people. At present the price of oats in the east is so low that it would not pay to ship them, but west is a good market at good prices and but a short distance to pay freight. When the oil and mineral resources of Wyoming are developed it will make a demand for all the products of this locality.

—Last Sunday O. B. Tinkham and two of his sons, John Worden and Elmer Frew arrived with two palace stock cars loaded with stock, household goods and farm implements from Nuckolls county, to make Sioux county their home. As soon as they get located they will send for their families and thus add population and prosperity to Sioux county. There are a number of farmers in the locality from which they came who are only waiting for a favorable report of country before they will prepare to move here. So far, all are well pleased with what they have seen, and are satisfied that the chance to secure homes are better than in any locality they know of.

## PERSONAL.

C. K. Haas will now reside in Harrison.  
H. H. Lorrimer is up from Andrews today.  
J. H. Cook was at Crawford the last of the week.

George Walker made a trip to Chadron Tuesday.  
Fred Denel was in from Wyoming this morning.

F. M. Smith was up from Five Points yesterday.  
Henry Wertz went to Crawford Tuesday evening.

Tom Dunn returned from Colorado Thursday evening.  
C. H. Redd was in town Monday and called at this office.

H. H. Russell was up from Glen yesterday and called at this office.  
Will Gayhart and sisters were over from Montrose the last of the week.

County Attorney Conley went to Ainsworth Monday evening on legal business.  
Miss Lisie Deuel is on the sick list this week and other members of the family are ill.

Charles Bolmert was up from Running Water on Tuesday where he has been working some time.  
A. R. Kennedy came up from Crawford Tuesday to look after his interests here and returned yesterday evening.

Grandma Sutton, of Pleasant Ridge, while visiting at Z. G. Deuel's Sunday, was taken ill and is no better at last accounts.  
Mr. and L. J. Simmons and children started for Warrensburg, Mo., Monday evening in answer to a telegram summoning them to the bedside of Mrs. Simmons' father who was hurt some days ago.

—Turner wants your butter and eggs.  
—Glidden Barbed Wire \$3.75 at Turner's.

—B. F. Thomas has gone into the locating business. See his ad. in another column.  
—There will be a new blacksmith in the old A. Hart shop next week. Give him a call.

—Edward Holdorf, who came from Cass county, Iowa, last week, has started a contest on Mrs. Haas' claim in the valley.  
—As I expect to remove my shop in about thirty days, those having shoes to be repaired had better bring them in as soon as possible.

**J. W. SMITH.**  
—New settlers are coming and locating in all directions. Frank Tinkham informed us on Saturday that two new men had recently filed on land close to his place.

The newcomers from Nuckolls county have moved their stock and effects to J. J. Kipp's place on Sowbelly creek and will live there until their families come, when they will settle on different places in the locality.  
—It is reported that A. Metlinley sold 90 head of steers for the neat sum of \$35 a head. Sioux county cattle generally bring as good a price as any and it costs very little to raise them, as they graze the year round on government grass.

—Andy Christian's little 17-month-old girl died this morning at 3 o'clock at the residence of Z. G. Deuel, of scarlet fever. Her death is a hard blow to Mr. Christian, coming as it does, so soon after the death of his wife, and he has the heartfelt sympathy of this community.

—Phillip Unitt writes that he will invest in a mill here if a stock company can be formed and some of the people here will take stock. He thought a \$8,000 or \$10,000 mill would be about the proper size. That would be better than a bonus, as the investors will get their money back. There will be a mill here this year.

—The indications are that an application will be made to have a regularly licensed saloon here in the future. There is absolutely no question but that a saloon of that class is preferable to having the liquor business conducted as it has been in the past. If a license is granted the party who secures it should be required to comply with the law and at the same time he should be protected in his right and those who are not licensed to sell liquor as a beverage should be prohibited from doing so. A saloon with no screens or blinds as the statute provides and which closes at the time required by law and in which gambling is prohibited is not near so dangerous as a hole-in-the-wall which recognizes no law.

—Word was received that the special immigrant train from Seward will start next Wednesday, the 1st, for this place. There will probably be from fifteen to twenty cars in the train as some who first intended to come on that train will come separate, and some who have never seen the country will come. The cars will be decorated with streamers announcing that the people on board are bound for Sioux county, where land is free and the climate is the best on earth, and where free posts, fuel and building logs can be had. They will probably reach here Friday of next week. The train will be the best advertisement for Sioux county that she has yet had, and will undoubtedly be the means of bringing others here to look at the country, and when they see the advantages offered they will locate.

## A Card.

To the friends and neighbors who so kindly and generously came to our aid in our recent loss by fire we desire to return our earnest and sincere thanks. The remembrance of kindly words and deeds will always remain with us.  
**P. B. BIGELOW AND WIFE.**

—J. W. Sherill brought us a few sample ears of corn on Tuesday that are good examples of the producing qualities of our soil. The ears were from twelve to fourteen inches long and the corn was planted in June.
