THURSDAY, MARCH 23, 1893.

The patents on the Bell telephone have and hence the public will be benefitted.

Senator Stewart's maxim freight rate bill was laid on the shelf last Saturday. The pops are going to have the Newberry bill or none and it is likely they will have none. If they wanted to be at all fair why did they not accept some of the bills that were not so far-reaching as the Newberry measure?

The democratic editors held a meeting at Lincoln last week at which resolutions were passed urging the appointment of democratic editors wherever practicable and expressing the opinion that because a man held an office under Cleveland's former administration be should not be refused recognition during the present administration.

The investigation of the penitentiary has demonstrated clearly that some changes in the constitution of Nebraska are very badly needed. To expect the number of state officials now provided for to give the attention needed to all the duties imposed upon them is out of reason. The state has made a marvelous growth since the constitution was formulated and it should be changed to meet the demands.

The supreme court named Robert Ryan of Lincoln, Frank Irvine of Omaha, and John M. Regan of Hastings to the positions of supreme court commissioners as provided by the law passed at the present session of the legislature. The first-named is a republican, the second a democrat and the third a populist. They are all well qualified for the position and the work of the supreme court will not likely be so far behind in future.

It is high time that the name independout was dropped in connection with the populist party. There has never in American politics been known a party in dependence as has marked the action of the rules of the alliance to carry out ford will reap some benefit therefrom. their selfish desires, the party has ever Crawford Gazette. been the most tightly caucus-bound political organization in existence. There has been nothing independent about it.

is not to be allowed a seat in the United States senate and the legislature will have to be called together to elect a succeasor to Senator Warren. Washington and Montana are also in the same fix and said that both law and precedent are against the seating of senators appointed by a governor. The new contest in Wyoming will be watched with a good deal of interest.

Some papers in speaking of the relatives of C. W. Mosher paying a portion of the defaulter's shortage providing he is allowed to escape going to the peu, advocate that the scoundrel be let off, as the funds received would help out poor depositors. It is just such schemes as that which leads or lures men to do as Mosher did. A man who will deliberately lay his plans to defraud people who look upon him as a friend as Mosher did is far more dangerous to society than the man who with drill and hammer, in the dark of night opens a safe and carries off the contents. Striped clothes should adorn the wrecker of the Capital National Bank for a good long term.

Last Thursday Representive Sheridan, of Red Willow county, knocked Rosewater, of the Bec, down and Ed. Roggen took a hand and Sheridan turned his attention to him and the pugilists had to be pulled apart. According to the Bee warning and struck him on the temple, but according to the Lincoln Journal the two men were engaged in a dispute and consething Rosewater said made Sheridan ed and he struck him. It is hard to get at the facts in such cases but it is grants, and of their track and rolling rell-known in the state that Rosewater not healtate to make the best show does not healtate to make the best showing for himself so it is more than likely
that the Bee man gave occasion for the
assault. It is to be regretted by all good
citizen that so disgraceful an affair
should have occurred in the corridor of
the state house. The belligerant statesman was made the recipient of handman was made the make capital out of
Thomassault of capitalists bied that the
Pacific reals might survive.

To falsify history for notifical effect.

Farmers in the vicinity of Fails City complain that the winter wheat is badly killed out. A large acreage was sown in the southeastern part of the state but the fall and winter were so dry that much of it killed out.

entering the field to share the patronage destroyed. Female base ballists carry- lag behind the rest of the state? of the public. The result will be a reling the stars and stripes are entitled to duction in cost to the users of telephones as much protection as sailors in foreign ports and Secretary of State Gresham should see that Spain makes proper reparation for the insult to Uncle Sam's

> It is claimed that Kruse, the populist from Knox county who was seated by an unholy combination in the house, regardless of right and justice, did some very peculiar work in regard to a bill relating to life insurance companies, When the representatives of the insurance companies refused to be held up for \$1,500 by a fellow from Friend, Kruse reported the bill for passage. The insurance men put the matter in the hands of the proper parties and it will be investigated. There appears to be a good many "reformers for boodle only" in the passage of logislature and they ought to the proper baries and it will be insured by the proper parties present legislature and they ought to disgust every honest man and open his eyes to the fact that he has been hoodwinked into helping a lot of disreputable shysters into office. A just and honest political reformer, if ever found, will be the eighth wonder of the world, and doomsday will arrive before one is found if the search is confined to the office-seek

goods last week. They came from Seward county, this state, and are bound to be good citizens for that is the kind kept down there. The vacant and cheap lands of Northwest Nebraska will not lie idle.-Chadron Signal.

A special train pulled through Chadron last Friday from the eastern part of less, viz: the state bound for Sioux county. It

and immigrant goods passed through which there has been known so little in- Crawford over the Elkhorn Saturday evening, from Seward, this state, desthat party since its inception. Being tined for Sioux county. This is the rethe result of schemers who prostituted sult of Editor Simmons' work, and Craw-

#### Falsifying History.

Wyoming is to be afflicted with a special session of the legislature. A. C. government, at the rate of five dollars Beckwith, the appointee of Gov. Osborne per acre, reminds one of the sharp landlord who came around to renew the lease to the tenant. The tenant assured the landlord that he had so improved the premises at his own expense that the property was worth at least a thousand will have to adopt the same cause. It is dollars more than when he moved in. The grateful landlord expressed his pleasure and said that he must then, in order to get a living interest out of the investment, raise the rent sixty dollars.

At the time the Union Pacific was building its line, you could buy all the land scrip you wanted to lay in Nebraska at sixty cents an acre. As for land in Wyoming, Colorado and Utah along the Union Pacific survey, it could not have been sold at sixty cents per section. It was really valueless until the road was built and the country began to be populated.

As a matter of fact the value of the lands along the government grant roads in the west was increased to an amount far greater than the entire cost of the government, and the people of the west reaped the benefit by homesteading them as fast as the roads were built.

While it is proper to hold these roads to the spirit and letter of the contract. it is stupid to ignore the wonderful courage and enterprise of the builders of the roads and the benefit conferred

upon the people.

The building of great railroads through a wilderness in advance of immigration, feasible as it looks today, was then con sidered by a great majority of busines men and capitalists as a crazy experiment, and it was with the utmost difficulty that the projectors of the enter price raised the enormous sum by the hypothecation of the unmarketable land stock which were so largely conside dead and non-dividend paying property
