THURSDAY, JULY 13, 1893.

Long Pine is jubilant over the prospects of having the United States fish hatchery located there. All the people in northwest Nebraska would be glad to see the hope of the citizens of Long Pine realized.

Notwithstanding the efforts to keep it from the public, the fact is that cholera is causing a great many deaths in Europe every day. If an epidemic is escaped the countries of the old world may consider themselves fortunate.

The demand for a cheaper rate to the worlds fair has been listened to by the roads and a rate of one and a fourth for the round trip has been made. That will help a great many people to see the big show. The new rate will go into effect next Monday.

It is reported that a pop gathering was held near Stromsburg on July 4th at which the stars and stripes were not permitted to be unfurled. If the report is correct it certainly shows that the great reform party has no patriotism or love of country in its make-up and no party will amount to much which is ashamed of or disrespectful to Old Glory.

From what can be learned it is the desire of the silver mine owners to learn the fate of the white metal as soon as possible. If it is to be money they will make a big stake and if it is to be merchandise they will arrange to operate the mines at a reasonable profit. It is more the uncertainty of the thing than anything else that is worrying them.

The pop convention of Ohio, a few days ago in convention assembled, unanimously passed a resolution calling on congress to impeach President Cleveland as a traitor. It would be a hard matter to find an executive who would be satisfactory to the populists. It is strange that when conventions of that party do such things as referred to above the men who claim to be fairminded of the party will acquiesce.

From all over the land the reports are that the financial situation has passed its worst stages and the conditions are now a good deal improved and the predictions of those who are in a position to judge are that within six weeks the flurry will be entirely past and there will be plenty of money for all legitimate business purposes. The confidence of the people is already restored to a very great extent and that is a long stride toward quiet.

Mosher, the bank wrecker, was sentenced on last Saturday by Judge Dundy to serve a term of five years at hard labor in the United States penitentiary at Sioux Falls, South Dakota. The sentence is the shortest time allowed by law for the crimes to which Mosher confessed. It was generally thought he would not get off so easily. If all bank wreckers were certain that they would wear stripped clothes for five years they would be more careful.

If those who want the volume of the circulating medium doubled, claiming that it would help them when they have nothing which they could exchange for money if the country was flooded with it, will give some tangible reason for their demand they would come nearer being entitled to a hearing than they are by simply howling for more money to be issued. Let all the money be issued that is necessary so long as it is good money, but poor money would be a detriment to all classes.

President Cleveland has been suffering from rheumatism for some time past, but the reports are that he has so far recovered as to be able to go fishing so the public mind is now at ease. Press correspondents seem to be given to a good deal of exaggeration on such matters and the effect on the public is not for the best, especially when the financial condition is as unsettled as it is at present. A little more truth and a little less sensationalism would be appreciated by the masses.

It has come to be pretty generally believed that the convention for a north and south line of railroad which was recently held in Lincoln in pursuance of a resolution introduced last winter by Senator Stewart was simply a scheme to hood a couple of Texas towns. If that is true the statesman from Deadman must have been worked to introduce the resolution and keep at work agitating the scheme. He made the motion at the recent convention for a meeting to be held at Topeka during the coming winter and so has provided a trip for himself. Who pays the freight? It is a sad fact that the great reformer rides on a goat.

The Chadron Journal has again changed hands and J. W. Wright is now editor and business manager. Prof. Ferguson will devote his entire time to church and school work. Mr. Wright is a stepson of Judge Bartow. We wish the new management success in the future.

When the affairs of the banks which have failed within the past few weeks have been investigated one of two things have been found. Either the banks are able to pay depositors in full or the officials or some one connected with the bank has not been honest. Financial stringency seems to work the reverse of charity in that it exposes a multitude of sins.

The army officers who were recently appointed as Indian agents do not appear to appreciate the task set for them and are making an attempt to get the president to change his order and let them out. It has been supposed that such positions were very desirable by the number of fellows who wanted them, but it may be that the army officers are better acquainted with the work of the office than are other people.

Proceedings have been commenced by the attorneys for the state in the late impeachment force to compel the committee to pay them what is left of the appropriation. It is brought by Doane who was one of the attorneys who gave the opinion on which the suits were brought. It would seem that after having proven that his opinion was wrong he would subside and not make such a display of gall as the suit above referred to demonstrates that he possesses.

Last week a negro was lynched by a mob at Bardwell, Ky., and it now it seems to be pretty well established that he was not guilty of the crime for which his life was taken. Two girls were murdered and suspicion fell on the negro in question and he was arrested. The sheriff tried to prevent the mob from doing violence to the prisoner but was overpowered and the man hung. Mob law should only be resorted to in cases where the laws are perverted or fail to meet the demands of justice and then every particle of doubt as to the guilt of the accused should be removed before such terrible punishment is meted out.

The publishers of the *Cosmopolitan* have created a sensation in magazine circles by reducing the price of that popular periodical to \$1.50 a year, or just one-half its former price, and that too with no reduction in the quality of editorial or mechanical excellence which has always been of the highest order. The management of the magazine has for some time been increasing the circulation of the *Cosmopolitan* as rapidly as possible and it has reached a point where it can be produced at a profit at the reduced price, which will make it within the reach of all. The action of the publishers of the *Cosmopolitan* means that much more first-class literature will be read by the masses and that means elevation of the people and the broadening of their views and it all tends to make the world better and therefore happier.

A terrible storm passed over the counties of Cherokee, Beuna Vista, Pocahontas and Calhoun, in Iowa on the night of July 6th dealing destruction and death to all the towns and people in its path. At Pomeroy the destruction of the town was almost complete. It is said that a hundred were killed and several hundred injured. At other towns the results were nearly as bad. The financial loss will run up into the hundreds of thousands of dollars, and the suffering which will be inevitable is appalling to even think of. The scenes at the improvised hospitals are said to have been heartrending. Hail accompanied the storm, the hailstones weighing from one to three pounds, splitting roofs and killing stock, so great was the force with which they fell. It is said to have been the worst storm ever experienced in Iowa. An appeal has been made to the governor of that state for assistance and everything possible is being done to relieve the unfortunates.

On last Monday a fire occurred on the fair grounds at Chicago which destroyed one building and caused the death of about forty firemen and guards. The distressing scene was witnessed by many thousands of people who were powerless to render any assistance. The favorable winds were all that prevented the destruction of the entire white city. Had such a thing occurred the loss of life would have been the most terrible ever known. It is said that the mayor of Chicago has decided that the protection of the exposition buildings will be taken in charge by the city of Chicago in the hope of more safety. The fire was first discovered in the tower of the building and the flames rushed up there to extinguish it, when to their horror they saw that all below them was aflame. A number jumped a distance of ninety feet to the roof below and were mangled to death.

Friars and Wages.
 St. Louis Globe-Democrat.
 The report of the senate committee appointed to investigate the subject of prices and wages for the last fifty years presents some very interesting and significant facts. It shows, in a general

way, that there has been a steady improvement in the condition of the laboring population. That is to say, the cost of living has gradually decreased and the rate of wages has gradually increased. The working man receives more for his services at present than he has ever received before, and the articles that he mainly buys are to be had at lower figures than he has ever before obtained them. This effectually disposes of the melancholy talk about alleged misfortunes of the industrial classes. They are earning twice as much as they did fifty years ago, and it does not require so much by at least one-fourth to purchase what they need. It is true that they are not now satisfied to live as they lived at that time, and that the gain is accordingly not represented in actual money or property, but the fact remains that they have profited in the measure stated, and that there has been a corresponding addition to their comfort and happiness. They are better housed, fed and clothed than the laborers of any other country. Their chances of employment have been materially enlarged, and the poorest among them have not been deprived of the opportunity to better their condition by industry and economy.

Final Proof Notices.
 All persons having final proof notices in this paper will receive a marked copy of the same and are requested to examine their notices and if any errors exist report the same to this office at once.

Notice for Publication.
 Land Office at Chadron, Neb., Jun. 10, 1893.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before Conrad Lindeman, Clerk of the District Court at Harrison, Nebraska, on August 14th, 1893, viz:

William E. Jones, of Ardmore, S. Dak., who made Homestead Entry No. 240 for the sec. 12, T. 22 N., R. 57 W. of the 6th P. M. He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Ebenezer Cowlishaw, John Peterson, all of Ardmore, S. Dak.; Joseph Boffer, Peter Hansen, all of Montrose, Nebr. W. H. MCCANN, Register. (4430)
