

THE SIOUX COUNTY JOURNAL.

VOL. 5.

HARRISON, NEB., AUG. 24, 1893.

NO. 50.

THE SIOUX COUNTY JOURNAL.

L. J. Simmons, Editor and Proprietor.

P. M. & N. E. Time table.
Going West. Going East.
No. 4, mixed, 11:15 | No. 6, mixed, 8:30

HARRISON MARKET.	
Wheat—per bushel	90.00
Oats—per bushel	30.00
Corn—per bushel	40.00
Shorts—per hundred lb.	1.00
Beans—per hundred lb.	1.00
Feed—chopped—per hundred lb.	1.00
Potatoes—per bushel	1.00
Butter—per lb.	15.00
Eggs—per doz.	3.00
Poultry—per doz.	3.00
Onions—per lb.	4.00
Beans—per lb.	4.00
Coal—per ton	4.00
Wood—per cord	3.00
Lumber—native—per m. ft.	15.00

—Harrison needs a drug store.
—What are you going to contribute to the state fair exhibit?

—Old papers for sale at THE JOURNAL office. 5 cents per dozen.
—If you want to sell your land, list it with Simmons & Smiley, real estate agents.

—Mr and Mrs W. H. Hough occupy the rooms formerly occupied by Mr. and Mrs G. H. Turner.

—For rent or sale at a bargain, a business lot and building in a good location in Harrison. SIMMONS & SMILEY.

—Mr. and Mrs. Griswold have moved into the Jameson house from their farm west of town.

—All kinds of wood work done at Priddy's blacksmith shop, opposite THE JOURNAL office.

—J. H. Cook shipped four car loads of cattle from Andrews on Tuesday. The cattle in this part of the country are in fine condition.

—Don't forget to write to your friends in the east and tell them to come out on one of the harvest excursions and see you.

—Don't fail to have something here on September 5th to help make up the exhibit to go to the state fair. Bring the best you have and plenty of it.

—Take out a policy in the Preferred Mutual Accident Association. It is cheap and reliable. L. J. SIMMONS, Agent.

—FOR SALE OR TRADE FOR STOCK—My saloon business, bar fixtures and stock. J. REEBSTER, Harrison, Nebr.

—Don't forget to collect something to help out the state fair exhibit. When you find anything suitable put it away carefully and notify the committee that you will have it here on the appointed day to be loaded into the car.

—Rev. Glasner will preach next Sunday at the church in Harrison at 11 o'clock and at the school house in district No. 31, south of town, at 2:30 in the afternoon.

—WANTED—One hundred head of cattle to winter. For terms call on me at my place northwest of town or address me at Harrison, Nebr. GEO. OLINGER.

—It is rumored that some of the stockholders in the old Herald company contemplate investigating a little to see what became of their interest when the editor sold himself to the pops last fall and took the Herald plant with him.

—B. L. Smuck has just completed a stable 14 by 22 feet which has not cost him a dollar except in work. That is one of the things people should not forget to tell their friends about in regard to this country. The building logs, posts and fuel to be had here for the hauling go a long way toward making a home.

—We are in receipt of a letter from George Walker who is now engaged in the practice of law at Casper, Wyo., which says he is doing well. He is a hustler and his years of experience will help him to succeed in his work. All hope he will have continued prosperity in his new field of labor.

—On Monday G. Reinders, C. Christensen, J. C. Neag, H. Konrath, M. Gayhart and F. Nutto came over from Montrose and had the papers drawn to begin the much talked of case against those who are taking water from Hat creek and its tributaries for irrigating purposes. There are about thirty defendants named in the pleadings and the district court will be asked to grant a temporary injunction to restrain the defendants from diverting the water from the natural channels. It is stated that a great deal of inconvenience and even suffering has been caused to man and beast in the vicinity of Montrose for want of the water. Now that the case has gone into the district court it will be decided according to law and all will know what rights they have to the water. County Attorney Conroy and Clarence Butler, of Hot Springs, are attorneys for the plaintiffs.

—Screen doors at the lumber yard.
—Remember that THE JOURNAL office is headquarters for job printing.

—160 acres adjoining Harrison for sale at a bargain, if taken soon. SIMMONS & SMILEY.

—A regular meeting of the Harrison W. C. T. U. to be held in the M. E. church Friday Aug. 25th at 3 p. m. All members are cordially invited to be present. Mrs. W. O. Glasner.

—Samuel Jenkins, practical boot and shoe maker. Cowboy boots a specialty. Repairing promptly and neatly done. Satisfaction guaranteed. Shop second floor south court house.

—W. F. Shepherd received a new spring wagon the first of the week. Such things are very convenient when people have a good distance to come to town.

—The horse belonging to N. L. Tipton which broke its leg some time ago has so far recovered that he now stands on the leg and will soon be all right. The leg will be but slightly blemished.

—When Charles Weaver had his hands examined by a doctor it was found that instead of being poisoned as he supposed he had a felon on the middle finger of each hand. They were lanced and are getting better.

—The fourth quarterly meeting of the M. E. church for this charge will occur on September 3d. The services will be held at Plimpton's grove and will open at 11 a. m. and 3 p. m. Rev. T. Elken will be in attendance.

—Mrs. Lewis Gerlach will leave this week for Iowa with the little boy. The visit to Crawford did not satisfy them and the parents have decided to take him east for medical treatment. It is hoped that their efforts will be successful.

—H. H. Everet arrived from Lincoln last week and will spend some time in this part of the state in geological work. He has gone to the vicinity of Adelia to begin operations. None of the other state university people will be here this year, as Chicago has greater attractions.

—It was hoped that a new site for the school house would be secured before the opening of school but that seems to be out of the question. It would be a good plan if the school board would have some strong railings put up at the sides of the steps leading to the entrance. It would cost but little and children would be less liable to get injured.

—Buff Coffee will ship two car loads of cattle this week. He will load at Andrews as the water there makes it much more convenient. For lack of water at the stock yards here a great deal of stock is loaded at Van Tassel and Andrews which should be loaded here and an arrangement should be made as soon as possible so as to bring the business here.

—J. M. Smiley received word a few days ago from the superintendent of the gates of the state fair grounds that he would be wanted during the coming fair as usual. Mr. Smiley has been employed there for a number of years and it seems that his services are appreciated and if he goes down that will make one more from Sioux county, and while he will be busy the most of the time he will have a chance to get in a word for his home county once in a while.

—It is reported that wolves are doing a great deal of damage to the stock along the Running Water. J. W. Earnest had a large fine mare killed last week and some of his horses were attacked almost every night and a number were killed. He has been compelled to remove them to prevent further loss. The excellent work done by Senator Stewart in the legislature last winter after his display of interest in the wild animal bounty during the campaign last fall certainly must make the stock owners feel thankful to him for his assistance in the work of ridding the country of the pests.

—On last Friday a fire occurred southwest of town which did a great deal of damage. It was first noticed a little after noon and some went out to put it out and it was supposed to be under control when it broke out afresh and a party went out from town and it was all extinguished. It destroyed a quantity of hay for A. Hasselquist, Robert Wilson and W. C. O'Connor and also burned a hay rake belonging to Mr. Wilson and burned over a large area, destroying a great deal of feed. There is no feed to spare in this county and people should be very careful about fire. The laws in regard to the setting of fires are pretty severe and if people get after any one for setting a fire it would make him pay dearly for the work. The settlers should make it a point whenever they see a fire to go and help put it out and notify others. A great deal of the grain which was destroyed last Friday could have been saved if word had been sent to town that help was needed. There are only a few who are so indifferent that they would not go out and help fight a fire.

PERSONAL.
J. W. Hunter was at the county seat yesterday.

E. J. Wilcox was in from Warbonnet on Saturday.

Josh Baker started for Elk Creek, S. D., Tuesday evening.

M. J. Carroll returned from Hot Springs, S. D., last week.

County Treasurer Gayhart was in town on Monday and at this office.

Buff Coffee and C. T. Snyder were at the county seat the first of the week.

J. J. Kipp was up from Bodarc on Tuesday and called at these headquarters.

Valentine Wohlbeiter called Saturday and added his name to our list of readers.

Arthur and Roy Green were up from Royville the first of the week and called to see us.

Mr. and Mrs. C. F. Carlton arrived from Alliance Tuesday for a short visit with relatives.

Geo. H. Turner was in from Antelope the last of the week called for a short chat with us.

J. H. Cook accompanied by J. W. Gribble, of Omaha, made an agreeable call at this office on Monday.

Winfield Satterlee has been visiting friends in this locality and returned to his home at Chadron last evening.

Lawson Sheldon, of Cass county, arrived on Monday to visit H. T. Conley and look after his real estate interests.

O. B. Tinkham has disposed of his cattle to Nels Anderson and expects to start in a short time for Missouri. The trip will be made by team.

The first of the harvest excursions left the east on Tuesday and any people coming thereon will arrive today or tomorrow. As no one went east to work, few are expected to come.

Peter Schaefer, writes that he will be in Harrison within a couple of weeks. He will ship some stock up and will likely spend the winter here. Others are expected to either come with him or soon after.

It looks as if it would be necessary for the farmers and stock owners to organize and pay a bounty for the destruction of wolves. An arrangement could be made so each would pay in proportion to the number of head of stock he owned. In that way a bounty could be raised large enough to pay men to hunt the animals and it would not be a heavy tax on any one of them.

The committee have decided that the car should be loaded and ready to start for the state fair on Tuesday, September 5th. All should bear that in mind and be on hand that day or before with anything that they can gather up to be used in making up the exhibit. There should be no lack of interest in this work. It is a part of the duties of a citizen and the more there is to take an interest the more there will be accomplished and the easier it will be for all. Bring your stuff on or before the 5th day of September.

It is reported that the party holding the care of the interests of the public at one of the outside postoffices has been trapped in opening letters which did not belong to them and it is said that when accused of the act it was acknowledged. The law is very strict in regard to such matters and such acts are done deliberately and it is quite likely that the official will have a chance to bitterly repent of the offense. People do not like such work and feel that it is their duty to bring the guilty to justice when they have the proof.

The reports from Wyoming and Colorado are that there will be practically no feed for stock there this winter. A great many horses go through here on their way east to be sold or find a place to winter. The result of the condition of affairs on the western ranges will be that the stock men will have to either move their herds or suffer terrible loss. Taking all things into consideration it looks as if stock which is wintered properly would command good prices next spring and people in this locality seem inclined to profit by the circumstances and are putting up all the hay they can. Should the winter prove to be a severe one the hay will be valuable.

In the latest agricultural report from Washington for July, thirty-five states make reports, and of that number twenty-eight report injury to crops by drought. There has never been a season when so general a lack of moisture has prevailed as has been the case this year. The Ohio river was reported a few days ago as being the lowest that has ever been known. Such short crops and the bad conditions of business in general make the outlook for a great many people anything but bright. The head of a family who can see his way clear to make a living for those dependent upon him for the next eight months should be happy.

Items for Fishermen.
Seward Reporter.

These are a few reasons why you should give your aid to the suppression of mines and seining:

Because it is unlawful to use a net.

Because fish if protected are a valuable food item.

Because one net dragged over a spawning bed destroys more fish at one time than would be destroyed in five years by natural causes.

Because young fish, too small for use, are killed by being tangled in the meshes and shaken out on the shore.

Because fish of all kinds are taken when full of spawn thus cutting off the supply of eggs for restocking the stream.

Because net fishermen and pothunters are hogs who have not the least idea of legitimate sportmen.

Because the fish commission is an expense, and their work, if not protected, is a dead loss instead of a profitable investment, as it should be.

PATENTS

FOR INVENTIONS

PROCURED BY THE

Press Claims Company.

Equal with the interest of those having claims against the Government is that of INVENTORS, who often lose the benefit of valuations because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With a view of protecting inventors from worthless or careless attorneys and of seeing that inventions are well protected by valid patents, THE PRESS CLAIMS COMPANY has retained counsel expert in patent practice and is therefore prepared to

GRANT PATENTS, CONDUCT INTERFERENCES, MAKE SPECIAL EXAMINATIONS, PREPARE SELECTED CASES, REGISTER TRADE-MARKS AND COPYRIGHTS, ANSWER OPPOSITIONS as to SCOPE and VALIDITY of PATENTS, PROSECUTE and DEFEND INFRINGEMENT SUITS, ETC., ETC.

If you have an invention on hand send THE PRESS CLAIMS COMPANY a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are not necessary unless the invention is of a complicated nature. If others are infringing on your rights; or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

THE PRESS CLAIMS COMPANY, WASHINGTON, D. C.

615 F Street, northwest P. O. Box 468.

JOHN W. WOODRUFF, Consulting Attorney. *Cut this out and send it with your application.
