INVENTIONS

PROCURED BY THE

Press Claims Company.

Equal with the interest of those having claims against the Government is that of INVENTORS, who often have the benefit of valuations because of the incompentency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With a view of protecting inventors from worthless or careless atttorneys and of seeing that inventions are well protected by valid patents, THE PRESS LAIMS COMPANY has retained counsel expert in patent practice and is therefore prepared to

OBTAIN PATENTS, CONDUCT INTERPERENCES, MAKE SPECIAL EXAMINATIONS, PRESECUTE REJECTED CASES, REGISTER TRADE MARKS and COPYTIGHTS. RENDER OPINIONS as to SCOPE and VALIDITY of PATENTS, PROSECUTE and DEFEND INFRINGEMENT SUITS,

ETC., ETC If you have an invention on hand send THE PRESS CLAIMS COMPANY . sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are not necessary unless the invention is of a complicated nature. If others infringing on your rights, or if you are charged with infringement by others, at mit the matter to us for a reliable OPINION before acting on the matter.
