President Cleveland has given up the pet financial schemes and has appeared to congress to help him out.

Last week J. S. Parais issued the first number of the Guide at Alliance. It is just as good as it used to be and has a good lot of advertising so that it should prosper.

The Democrat, the only paper published at Hemingford, is for sale. It is beginning to dawn on some folks that newspaper cannot be published at together on promises. The owner of the newspaper business is recognized as legitimate business enterprise the better it will be for all parties.

The last of the populist papers published in York county has ceased to exist. A number of other papers of the faith are ready to have their epitaph written. Straws show which way the wind is blowing and such occurrences show that the populist party is losing strength.

So far it has not been noticed the Senator Stewart has made any great effort to have the assessment law proved for the benefit of his constituents nor for the listing of all property at full value. If this part of the state goes any laws in its favor it will have to look to others than its gassing senator.

During the week ending last Saturday was withdrawn from the subscription to the amount of \$13,955,000. The yellow metal is now at a premium, in certain sense and it is claimed by financiers that the country is practically on a silver basis. No financial excitement is anticipated, and the result will be watched with interest.

Prof. Hicks, the weather prophet, says that Nebraska will have better crops during the next three years than ever before. We do not, as a rule, place much reliance on the prediction of Prof. Hicks, but it is to be hoped that in this case his vision of the future is correct. Three years of big crops will make the present hard times seem like a dream.—Seward Reporter.

The pop press makes a great fuss over the fact that state warrants sell for more than their face, although a pay governor is in the chair, but these papers keep very quiet about the republican majority being so large in each branch of the legislature that a measure can be passed over the veto of the governor, and that majority does much toward keeping Nebraska's credit above par.

The statement of the county treasurer which was published last week is deserving of comment. It was shown that the amount of warrants outstanding is but \$1,221.94, or about two dollars and a quarter per capita for the residents of the county. When it is remembered that Sioux county has not a dollar of bonded debt our people have just cause for congratulation, for if a law is made so that the western part of the state will not continue to pay more than its just portion of state expense, the taxes imposed on our people will not be burden some.

A petition has been sent to Representative Robertson of Holt county, requesting that he stand in his resignation. The reason given is that he is a member of the organization of outlaws which murdered Barrett Scott. It is claimed that the authorities of Holt county have a complete roster of the gang. If it is a fact that Robertson is a member of the murderous gang he should not only be requested to resign as a member of the legislature, but steps should be taken to impeach him. No man can honorably take the oath of a legislator and belong to an oath-bound band of murderers, and law-abiding citizens of the state should not be compelled to have such an individual help make the laws of the state.

In speaking of a proposed amendment to the law in regard to the office of county attorney Stewart said he would support a measure for the abolition of that office. He is level on that point. There is no other office in the state that is so out of place. The salary is not sufficient so that a good attorney can afford to take it and make a campaign for it and as a result it is filled in most cases by those who are the least fitted for it. The county officials are compelled to look to him for advice or hire their own attorney, and the chances are that the official has no confidence in what that party would say was law. The board of commissioners must look to him for advice and be it in whom it devolves to conduct all criminal cases, at least, in the important point of beginning. It is no wonder that the taxpayers are frequently put to unusual expense and county officials get off as to the

Everything indicates that war will be in progress between Mexico and Guatemala in the very near future. How much it will amount to or how long it will last cannot be foretold.

During the recent strike on the trolley lines of Brooklyn an action was brought to compel one of the companies to operate enough trolleys to accommodate the traffic. The lines were tied up by the striking operators but the justice of the supreme court held that the company was not a private concern and that the trolleys for the convenience of the public that a good law there is no reason for any one to object to the authorities and trolleys being used to prevent striking operators from interfering with the running of trolleys. It even goes further and makes it the imperative duty of the authorities to make it possible for the trolleys to be operated.
