Some parties came out to Box Butte a short time ago from the east and after investigation invested \$4,000 in real estate. People of sense know that north-west Nebraska will yet become a rich part of the state.

John Daut was down from Hat Creek, Wyo., last week. He says sheep are doing well on the range and he is well pleased with his venture in woolly coats. While here he purchased the farm of E. P. Maine just northwest of town. He has not lost faith in Sioux county real estate.

Unlike most proprietary medicines, the formula of Dr. J. C. Ayer's Sarsaparilla and other preparations are cheerfully sent to any physician who applies for them. Hence the special favor accorded these well-known standard remedies by the world's fair commissioners.

A children's party was given by Mrs. D. M. Sutton on last Saturday for her daughters, Minnie and Onie. A number of little folks were present and had a good time.

Ayer's Cherry Pectoral is known by its works. The experience of half a century proves that no other preparation of the kind stops coughing and allays irritation of the throat and bronchial tubes so promptly and effectually as this.

County Treasurer Woodruff expects to start the last of the week for New York with a car load of horses. He selected them with a view to putting the market to which they go and if the venture proves satisfactory he will try it again.

Station Agent Pontius was offered the Hay Springs station last week. The business men and citizens generally did not favor a change and a petition was circulated and signed by every one to whom it was presented, asking Supt. Harris to retain Mr. Pontius here. The request was granted and the people feel more kindly toward the official who holds the destinies of agents along this division in his hands.

Henry Lindeman had seven fine sheep killed a short time ago and he shot a dog belonging to Gustav Noreisch, which he thought did the killing. Noreisch got mad about the killing of his canine and came up and made a complaint before Justice Smuck. A warrant was issued and the sheriff went out Monday and brought Lindeman in. The case was continued until the 13th, the defendant being released on his own recognizance. County Attorney Clark is prosecuting the case and Grant Guthrie is for the defense.

The most severe storm of the season struck here Tuesday night. A high wind made the snow fly in great shape for most of the following day. No attempt was made to send a train west from Chadron. The atmosphere was so charged with electricity that on coming in contact with metal one would receive a slight shock. The wind went down last evening and at 7 o'clock this morning the mercury stood at 80 degrees below zero. A snow plow went up the line this morning so that the train will likely be on time to day. No school was held yesterday, as it was too severe in the morning for children to venture out. The storm was of so short duration that stock did not suffer and as the snow was blown from part of the ground the cattle could go to feeding at once and being fat they are all right.

BUSINESS NOTICE.

THE JOURNAL has a large number of accounts on its books—making in the aggregate hundreds of dollars. Much of this is owed by men who are much better fixed financially than is the publisher. It is therefore urged that every person indebted to this office settle the same at once. It costs money to conduct a newspaper and what is due has been earned and is due just as much as any other debt, so it is desired that prompt settlements be made by all.

Late Literary News.

General Lord Wolsey makes a most important contribution to the literature of the China-Japan war. In an article for the February Cosmopolitan, he discusses the situation and does not mince matters in saying what China must do in this emergency. Two other noted foreign authors contribute interesting articles to this number. Rosita Mauri, the famous Parisian danseuse, gives the history of the ballet, and Emile Ollivier tells the story of the fall of Louis Philippe. From every part of the world, drawings and photographs have been obtained of the instruments used to torture poor humanity, and appear as illustrations for a clever article, by Julian Hawthorne, entitled, "Salvation via the Rack." Mrs. Reginald de Koven, Anatole France, W. Clark Russell, Albion W. Tourgee, and William Dean Howells are among the story tellers for the February number of The Cosmopolitan.

Washington Ball.

It is reported that the parties who are working up the factories for Chadron have gone to Chicago to close up the deal. If the factories are secured it means much to northwest Nebraska.

D. W. Woody informed us that some one entered his cave recently and helped themselves to about twenty-five bushels of potatoes and a quantity of other vegetables. Whoever made the raid is pretty well fixed for the winter.

Last Saturday was the day on which the ground hog is said to come out and take weather observations. As the sun shone a part of the day it is to be expected that we will have winter for six weeks from that date. If spring opens by the middle of March in this latitude, people should not complain.

C. H. Unitt arrived last week with a car load of personal effects and on Tuesday Mrs. Unitt arrived. They will at once go to housekeeping on their homestead south of town. All unite in wishing the young people prosperity and happiness in their new home.

The eastbound train continues to stop here for supper but does not leave until 6:40. The new arrangement adds importance to this place as a stopping station.

Washington Ball.

Arrangements have been made for holding a grand ball on the anniversary of Washington's birth, February 22, at the court house. The Fort Robinson orchestra has been secured and everything will be done to make it the most enjoyable ball of the season. Supper will be served at the railroad eating house and that is also to be first-class. Spectators will be charged 25 cents children the same as adults. Tickets for the dance will be one dollar, and the supper will cost seventy-five cents a couple. All are invited to come and have a good time.

Blood Poison

THE BANE OF HUMAN LIFE, Driven Out of the System by the Use of

Ayer's Sarsaparilla

"For five years, I was a great sufferer from a most persistent blood disease, none of the various medicines I took being of any help whatever. Hoping that change of climate would benefit me, I went to Cuba, to Florida, and then to Saratoga Springs, where I remained some time thinking the waters. But all was no use. At last, being advised by several friends to try Ayer's Sarsaparilla, I began taking it, and very soon favorable results were manifest. Today I consider myself a perfectly healthy man, with a good appetite and not the least trace of my former complaint. I can do my daily and especially my night work myself. I recommend Ayer's Sarsaparilla, if in need of a perfect blood-purifier."—J. A. B. OGDEN, proprietor Hotel Victoria, Key West, Fla.; Post Office, 222 W. 10th St., New York.
