

The Sioux County Journal.

(PUBLISHED 1888.)

Subscription Price, \$2.00

L. J. Simmons, Editor.

Entered at the Harrison post office as second class matter.

THURSDAY, APRIL 18, 1895.

Governor Holcomb has commuted the sentence of Carleton, the Fremont murderer who was sentenced to be hung, to imprisonment for life. It does not seem that people are very much in favor of legal executions.

Gamblers whose winnings amount to more than \$4,000 are subject to the income tax and are not allowed to make any deductions for losses. Wonder how much revenue the government will receive from that source.

The banks in a number of the towns along the Elkhorn have been compelled to give notice that they would not receive mutilated silver coin. Some one has evidently been making something out of the metal taken from the coins and then passing them at face value.

Two men who were alleged to be cattle rustlers were hung by vigilantes four miles from the mouth of White river in Keya Paha county last week. If such work continues north Nebraska will soon have a great reputation for acts of violence. It is the general result that one violation of the law is followed by others.

The war between Japan and China is at an end. The latter has accepted the terms of the former. It has been a remarkable event in the history of nations and will mark an epoch in the history of the world. Japan has suddenly advanced from an insignificant position to one among the foremost nations of the earth, and bids fair to continue her march.

In the matter of the action taken by an attorney in Gage county in prosecuting a man in a manner not warranted by law, the committee has made its report and the attorney has been cited to appear before the district court in May and show cause, is any he has, why he should not be punished by fine or otherwise for his action in the case.

The leaders of the silver forces seems to be either attempting to mislead people or have been drawing wrong conclusions. They claim that the sentiment in favor of free coinage is rapidly increasing. The sentiment of bimetalism is no doubt becoming more crystallized as time passes but the real number who want free and unlimited coinage of silver is growing smaller rather than larger. Bimetalism on a safe basis is what the masses are in favor of.

The Chadron Signal attempts to defend Stewart for his part in the row in the senate a few days before adjournment on the ground that the bill was a bad one. That was no excuse for the member from this district to refuse to recognize the rules of the body to which he belonged. No one has been found who seems to have been in favor of the measure which Stewart attacked and the opinion is general that it deserved to be attacked, but there is a right as well as a wrong way to get at such matters and two wrongs have never yet made one right.

An International Bimetallist.

Strenuously as Mr. Horton advocated the restoration of silver to its proper place, he was as firmly opposed to any attempt in this direction by the United States alone. Such a course, he knew, would simply have put this country at a disadvantage, commercially, with the gold countries of Europe and reduced it in the world's money market to the level of South America and China. He therefore opposed with all his influence and learning the efforts to introduce the free coinage of silver in this country by act of Congress, and he had the satisfaction of knowing that his position fulfilled one great criterion of correctness, in that it was bitterly assailed by the extremists on both sides. He rejoiced in the repeal of the so-called Sherman silver law and for years previously had urged the repeal of the Bland bill which, in his opinion, constituted the greatest obstacle to international action on behalf of the universal free coinage of silver. From the sketch of Samuel Dana Horton, by Frederick W. Hollis, in the April Review of Reviews.

The Easter Youth's Companies.

Among the many attractive and handsome Easter numbers so popular among readers of magazines and papers, The Youth's Companion excels in appropriateness to the season and in the exceptional quality of its reading matter. "The Story of a Statue," by the Marquis of Doria, prepared for The Companion in collaboration with the Franco-Louis, is an article of rare interest. "Dorothy's Easter," and "A Corner in Eggs," are two typical Easter stories well worth twice reading. The "Resurrection of a Shovel," an adventure story by Clark W. Russell, would be hard to duplicate.

Each one of the entire collection of stories deserves special mention, and with the miscellany, poetry, etc., contained in this one issue is worth the price of the paper for the entire year.

Chancellor Canfield has resigned his position with the state university. This is a serious loss to that institution, and it will be quite difficult to find a man who will fill the place.

While in Chadron nothing more definite was heard about the proposed factories. Some claim that they will be built, others say they will not and others treat the whole matter as a joke. The most of the business men seem to hope it will be all right but do not have much confidence in it. It seems too bad that it should fall through for it would have been a great thing for northwest Nebraska.

The result of the trial of James Statery seems to be hard for many to understand and apparently not what should have been expected. It developed on the hearing of the evidence that there was no chance to hold the defendant, as it is a well-established rule of law that a piece of property cannot be feloniously taken with the consent of the owner, and as a principal is responsible for the acts of his agent, the knowledge of the agent is equivalent to that of the owner. The attorney for the prosecution knew that no conviction could be secured under the evidence long before the case was concluded. From those facts it will be well for parties who desire to convict rustlers to pursue a course which will not put the county to a lot of expense when there is no possible chance of conviction. Another important point in connection with the result of the trial in question is that it should impress on the mind of every honest man in the county the necessity of standing up for the observance of the law by all. At the rate it has been going of late the taxpayers will be burdened by a very heavy load of costs if it continues. There is no way to prevent complaints being made for rustling by any one, neither can a bond for costs be demanded in the case of a felony, and a great deal can be accomplished if it is known that there is a strong public sentiment against the crime of rustling cattle. It is to the interest of every honest man to have it stopped for the further reason that it destroys the market for honestly secured beef at the prices made by those who get their supply from the stock belonging to others. If a man is caught stealing cattle he should be punished, but there is no use in setting up jobs which result in caught, in fact it is worse than useless, for it makes a great deal of expense and leads those who are inclined to violate the law to believe that they can safely carry on such work. It would also be well for those who have charge of the prosecution of such cases to know just what evidence the case is to be based on and if it is not such as to warrant the action they should protect the interests of the public by refusing to bring the action. The JOURNAL is in favor of the punishment of those guilty of crime, but it is also opposed to legal forces which are simply an expense to the county.

By virtue of an order of sale issued by the Clerk of the District Court of Sioux County, Nebraska, upon a decree rendered by said court in favor of George W. Buckingham as Plaintiff, and against Herman Miller, et al., as Defendants, with the 20th day of April, 1895, at Ten o'clock A. M. on said day at the front door of the court house, in said county, in and to the following described real estate, viz: The south half of the Northwest quarter, and Northwest quarter, south quarter and Lot Six, in Section Three in Township Thirty-one North, Range Fifty-three West, T. 31 N., R. 53 W., in Sioux County, Nebraska, at public auction to the highest bidder for cash, to satisfy said order of sale, in the sum of \$125.00 and interest, costs and accruing costs. When and where attendance will be given by the undersigned.

By virtue of an order of sale issued by the Clerk of the District Court of Sioux County, Nebraska, upon a decree rendered by said court in favor of Charles E. S. Nutting, Plaintiff, and against George W. Cobb and H. C. O'Neil, Defendants, with the 22nd day of April, 1895, at 10 o'clock A. M. on said day at the front door of the court house, in said county, in and to the following described real estate, viz: Lots One and Two and the East half of the north quarter of section nineteen, Township Thirty-four North, Range Fifty-two West, T. 34 N., R. 52 W., in Sioux County, Nebraska, at public auction to the highest bidder for cash, to satisfy said order of sale, in the sum of \$52.50 and interest, costs and accruing costs, at which time and place the attendance will be given by the undersigned.

By virtue of an order of sale issued by the Clerk of the District Court of Sioux County, Nebraska, upon a decree rendered by said court in favor of Ernest E. Crepin, Plaintiff, and against John Gaughenbaugh, et al., Defendants, with the 22nd day of April, 1895, at eleven o'clock A. M. on said day, at the front door of the court house, in said county, in and to the following described real estate, viz: The North East quarter of Section Thirty-two, Township Thirty-five North, Range Fifty-four West, T. 35 N., R. 54 W., in Sioux County, Nebraska, at public auction to the highest bidder for cash, to satisfy said order of sale, in the sum of \$25.00 and interest, costs and accruing costs, at which time and place due attendance will be given by the undersigned.

By virtue of an order of sale issued by the Clerk of the District Court of Sioux County, Nebraska, upon a decree rendered by said court in favor of J. L. Moore, Trustee, Plaintiff, and against George E. Cook, et al., Defendants, with the 22nd day of April, 1895, at One o'clock P. M. on said day, at the front door of the court house, in said county, in and to the following described real estate, viz: The East half of the North East quarter of Section Twenty-four, Township Thirty-two North, Range Fifty-five West, T. 32 N., R. 55 W., in Sioux County, Nebraska, at public auction to the highest bidder for cash, to satisfy said order of sale, in the sum of \$25.00 and interest, costs and accruing costs, at which time and place due attendance will be given by the undersigned.

Patents. NOTICE TO INVENTORS.

There never was a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of mankind in the factory and workshop, the household, on the farm, and in official life, require continual accessions to the apparatus and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who being on the alert, and ready to receive the existing deficiencies, does not permit the affairs of the government to deter him from quickly conceiving the remedy to overcome existing discrepancies. To great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "no patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick exit or to get an allowance and obtain the forty-three cents. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 615 F Street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade-marks, labels, copyrights, interferences, infringement suits, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents. Write for instructions and advice. JOHN WEDDERBURN, 615 F Street, N. W., Washington, D. C.

Final Proof Notices. All persons having final proof notices in this paper will receive a marked copy of the paper and are requested to examine their notices and if any errors exist report the same to this office at once.

Notice for Publication. Land Office at Alliance, Neb., March 20, 1895. Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before M. J. Blewett, clerk of the District Court, at Harrison, Neb., on April 27, 1895, viz: John T. Coffey, of Bodare, Neb., who made H. E. No. 255 for the sec. 1, ne. 1/4, sec. 27, tp. 33 n., r. 54 w.

Notice for Publication. Land Office at Alliance, Neb., March 20, 1895. Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before M. J. Blewett, clerk of District Court, at Harrison, Neb., on April 20, 1895, viz: Christina Marking, of Gilchrist, Neb., who made H. E. No. 257 for the sec. 1, ne. 1/4, sec. 27, tp. 33 n., r. 54 w.

Sioux County, Prizes on Patents.

THE LAND OF THE HOME-STEADER.

Free Homes for More Than 5,000 Men.

A new county with schools, churches, railroads, etc., AND 800,000 ACRES YET OPEN TO HOMESTEAD ENTRY.

Contains over forty-five miles of railroad and has no county bonds.

NO BONDS, NO DEBTS, LOW TAXES.

Fuel, Posts, Logs and Lumber Cheaper Than at any Other Place in Nebraska.

Sioux county is the northwest county of Nebraska. It is about thirty miles east and west by about seventy miles north and south and contains

OVER 1,300,000 ACRES of land. There are more bright, sparkling small streams in the county than can be found in the same area elsewhere in the state. It has more pure timber in its grasses are the richest and most nutritious known so that for stock-growing it is unequalled.

The soil varies from a heavy clay to a light sandy loam and is capable of producing excellent crops.

The principal crops are small grain and vegetables, although good corn is grown in the valleys. The wheat, oats, rye and barley are all of unusually fine quality and command the highest market prices.

The water is pure and refreshing and is found in abundance in all parts of the county.

The county is practically out of debt and has over forty-five miles of railroad within its borders, has a good brick court house and the necessary fixtures for running the county and there has never been one dollar of county bonds issued and hence taxes will be low.

The Fremont, Elkhorn & Missouri Valley railroad crosses Sioux county from east to west and the B. & M. has about fifteen miles of its line in the northeast part of the county.

The climate is more pleasant than that of the eastern portion of Nebraska. There is still

OVER 800,000 ACRES of land in Sioux county yet open to homestead entry. It is better land and more desirably located than that for which such rushes are made on the open prairie of a reservation. There is no railroad land in the county and for that reason its settlement has been slow for no special effort to get settlers was made, as was done in the early days of the settlement of the eastern part of the state.

Good deeded land can be purchased at reasonable rates with government land adjoining so that a person who wants more than one quarter section can obtain it if he has a little means.

There are about 2,500 people in the county and there is room for thousands more.

Harrison is the county seat and is situated on the F. E. & M. V. railroad, and is as good a town as the thinly settled country demands.

School houses and churches are provided in almost every settlement and are kept up with the times.

All who desire to get a homestead or buy land cheap are invited to come and see the country for themselves and judge of its merits. Homesteads will not be obtained much longer and if you want to use your right and get 160 acres of land from Uncle Sam free it is time you were about it.

Look at This List of western cities: Chicago, St. Joseph, Omaha, Lincoln, St. Louis, Denver, Kansas City, Leadwood.

It doesn't matter which you intend visiting. The Burlington Route is the best line to all as it is to any one of them.

Advertising matter and full information about trains and rates on application. J. FRANKS, G. P. & T. A., Omaha, Neb.

North-Western LINE

F. E. & M. V. R. R. is the best to and from the

SUGAR BEET FIELDS

OF NORTH NEBRASKA.

Prizes on Patents.

How to Make a \$100 and Perhaps a Fortune.

We want to make and induce people to keep track of their bright ideas we offer a prize of one hundred dollars to be paid on the first of every month to the person who submits to us the most meritorious invention during the preceding month. We will also advance the inventor the cost of a paper, published in Washington, D. C., which has an extensive circulation throughout the United States and is devoted to the interests of inventors.

THE PRESS CLAIMS COMPANY. The idea of being able to invent something strikes most people as being very odd. This is the opinion of the Press Claims Company. It is the simple things and small inventions that make the greatest amount of money, and the complex ones are seldom profitable. Almost everybody at some time or another, conceives an idea, which, if patented, would probably be worth a fortune. Unfortunately such ideas are usually dismissed without thought. The simple inventions like the one which would be easily sold up and down without breaking the passenger's bank, the case for the eye, the button, the oil lamp, the better slippers, the new chairs, are things that almost everybody sees some way of disposing of, and it is this kind of invention that net the greatest returns to the inventor.

The prize we offer will be paid at the end of each month, whether the invention has been accepted or not. The Patent Office will, every competitor must expect to be refused on his invention through no fault of his own. We secure the price of our Patent Office will have a valuable patent.

THE PRESS CLAIMS COMPANY. JOHN WEDDERBURN, General Manager, 615 F Street, N. W., Washington, D. C.
