—Byron used a great deal of hair dressing, but was very particular to have only the best to be found in the market. If Ayer's Hair Vigor had been obtainable then, doubtless he would have tested its merits, as so many distinguished and fashionable people are doing now-a-days.

—A small 29 year old broncho, about fourteen men, and a cloud of dust caused considerable excitement on our streets last Tuesday morning. In spite of the odds against it the "broncho" came near coming out victorious, but after a brave run it was forced to succumb to the inevitable and was ignominiously led away at the end of a rope.

The preliminary examination of Tom Burns for the killing of Albert Jones twelve miles south of Crawford resulted in Justice Crail binding Burns over to the district court in the sum of \$500 to answer a charge of manslaughter. It seems that what little evidence there was in regard to the killing went to show that Jones began the shooting.

—The contest case of Chas. Newman vs. Gordon W. Nichols came up for hearing before County Clerk Blewett on Monday but was postponed as the contestant was unable to produce certain alleged material witnesses. The case excites considerable interest as the title to the well known East Springs in the south part of the county is involved.

An epidemic of murder seems to be running among the people of north Nebraska. On top the story of the killing of Jones, south of Crawford last week comes one from Brown county. One G. A. Porter living between Ainsworth and Springview had some trouble with a family of negroes over a horse, he at once proceeded to "get his gun" shoot and kill the mother, an old and defenseless woman, and one of the sons, besides taking an ineffectual shot at another of the boys. It is a credit to the community in which Porter lives, that there are grave fears that he will be lynched.

The Old German's Taleman. The Germans have a story which this home-loving people like to repeat. A father, when his daughter became a bride, gave her a golden casket with the injunction not to pass it into other hands, for it held a charm which, in her keeping, would be of inestimable value to her as the mistress of a house. Not only was she to have the entire care of it, but she was to take it every morning to the cellar, the kitchen, the dining-room, the library, the parlor, the bedroom, and to remain with it in each place for five minutes, looking carefully about. After a lapse of three years the father was to send the key, that the secret taleman might be revealed. The directions were followed. The key was sent. The casket was opened. It was found to contain an old parchment, on which was written these words: "The eyes of the mistress are worth one hundred pairs of servants' hands." The wise father knew that a practice of inspection followed faithfully for three years would become a habit and be self-perpetuating—that the golden casket and the hidden charm would have accomplished their mission.—Folk Lore.

Married.

MCCANN-DONAHOE. On Wednesday June 12, 1895, at the residence of Mrs. Jordan, near Gilchrist; Rev. P. Brophy, of Chadron, officiating; Jas. McCann and Miss Annie Donahoe.

The groom is one of Sioux county's oldest residents a prosperous young farmer and stock grower, and the bride an estimable young lady, of Kill parish, Cavan County, Ireland. The contracting parties were schoolmates in Ireland and the ceremony of Wednesday was the finishing chapter of a romance begun in Ireland. The Journal joins the numerous friends of the young couple in wishing them a prosperous journey through life.

—Robert Neece reports that the wolves killed two calves for him last Monday night besides injuring several more. It is to be regretted that our representatives in the last legislature could not spare enough thought from their great schemes to give a little attention to getting an appropriation to pay the bounty offered by the state for the destruction of the greatest danger to the largest interest in the district.

—Notices are posted calling the annual school district meeting for Monday, June 24. The meeting should be attended by every person interested and the affairs of the district thoroughly looked into. If sufficient funds can be made available, the district bonds should be paid and the interest payments thereon stopped. Some move should be made either towards a new school house or towards making the approach to the present one less dangerous for the children.

Commercial Potato Growing.

Nebraska Farmer.

There are but few farmers that appreciate the worth of the potato crop outside the immediate needs of their own families. They seem to ignore the fact that potatoes are now grown as a field crop to the very best advantage, just as corn and wheat are grown. Labor saving machinery is now provided the potato farmer for putting in his crop quickly cultivating it effectually and making the harvest easy. The fact is also ignored that the price paid for good potatoes one year after another is such as to offer substantial inducements to farmers to devote a few acres each year to the cultivation of good keeping varieties. Also the feeding value of potatoes when they happen to be cheap and plentiful is a thing that is generally overlooked. They are a good appetizer and put stock in condition to get the most good from other foods consumed. We are convinced that Western farms should be growing potatoes from a commercial point of view.

Marvelous Results.

From a letter by Rev. J. Gunderson, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia succeeding la grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and satisfactory in results." Trial bottles free at the Pioneer Pharmacy. Regular size 50c. and \$1.00.

—W. H. Evans will be at Harrison from Monday, June 24, until Saturday, June 29, after which he will be in Saturdays of each week. If you have any watches jewelry etc., in need of repair give him a call, satisfaction guaranteed. Located at the harness shop.

Largest Circulation in Nebraska.

It isn't much wonder that the State Journal now has the largest circulation in Nebraska. It has reduced its price to 65 cents a month with Sunday, or 50 cents without Sunday; it has been spending more money for Nebraska than any other paper; it has on its staff such men as Bixby, Walt Mason and Annin. The Journal is being pushed at every point and is climbing steadily and surely away ahead of the other state dailies. People like a Lincoln paper. Especially when it is as good as the Journal.

You will find it the farmer's daily. Markets alone are worth more money than that. If you take it the rest of this year for 50 cents you will want to keep it always. Blood Poison THE BANE OF HUMAN LIFE, Driven Out of the System by the Use of Ayer's Sarsaparilla

"For five years, I was a great sufferer from a most persistent blood disease, none of the various medicines I took being of any help whatever. Hoping that change of climate would benefit me, I went to Cuba, to Florida, and then to Saratoga Springs, where I remained some time drinking the waters. But all was no use. At last, being advised by several friends to try Ayer's Sarsaparilla, I began taking it, and very soon favorable results were manifest. To-day I consider myself a perfectly healthy man, with a good appetite and not the least trace of my former complaint. To all my friends, and especially young men like myself, I recommend Ayer's Sarsaparilla, if in need of a perfectly reliable blood-purifier." —JOSE A. ESCOBAR, proprietor Hotel Victoria, Key West, Fla.; residence, 352 W. 16th St., New York.
