If you want a farm paper get one published in Nebraska. THE JOURNAL clubs with the Nebraska Farmer. Call and see a copy of it.

Five cars of cattle were loaded at Van Tassel last Monday. Jarvis Richards went up to superintendent the loading.

I. Richstein, J. W. Smith and Tom Bingham went to Andrews Tuesday to try to catch some trout but did not succeed in their efforts.

While on his trip in the Black Hills recently G. H. Turner purchased a car load of lumber with which to build a new house on his ranch at Grammercy.

Buckingham's Dye for the whiskers can be applied when at home, and is uniformly successful in coloring a brown or black. Hence its great popularity.

On account of the evenings being so short the Wednesday evening meetings of the singing club have been discontinued for the present.

In another column of this issue appears the call for the populist judicial convention. The columns of THE JOURNAL are open to all announcements of such a nature,—no party will be barred.

W. E. Pontius has been promoted to the position of cashier at Rapid City. Will is a good boy and from present indications will make an efficient and valuable railroad man.

H. A. Fridly has developed into an expert bicycle and typewriter repairer. P. S. We will order our collar, as Homer said he would annihilate us if we published the above.

Mrs. H. T. Conley of this city has lately received word of a legacy left her by a lately deceased aunt in New Hampshire. The bequest is in cash and is expected to reach here soon.—Pawnee Independent.

B. L. Smuck returned Friday from Alliance where he attended the races. He says they had a good time. While there he traded his trotter for a pacer and he is very proud of his new acquisition.

The school board of district No. 30 will hold a meeting on August 31 to elect a teacher. They will have four months school and will pay \$35 a month. H. Smoke is director and C. Christensen, moderator, postoffice Harrison.

Effectual.—Charles J. Booth, Olive-wood, Cal., says: "I have used Ayer's Pills in my family for several years, and have always found them most effectual in the relief of ailments arising from a disordered stomach, torpid liver and constipated bowels."

Speaking of his crop prospects the last of the week Andrew Christian said they were not half what they were last year. His best piece of wheat, by far, is on land that was summer-fallowed last year. He intends to use a subsoil plow next season.

Have tried others, but like Ayer's best is the statement made over and over again by those who testify to the benefit derived from the use of Ayer's Sarsaparilla. Disease never had a greater enemy than this powerful blood-purifier. It makes the weak strong.

Mrs. J. M. Smiley informs us that Jim will be down from Sioux county in a short time, and may possibly locate again in Seward county. They have tried that country several years, but find it is not what they expected. When people leave Seward county to look for a better county they travel a long distance before they find it.—Seward Blade.

The stock-shipping season is at hand and an unusually large amount of beef is expected to go over this line. The section foremen have been ordered to put the track in good shape and in order to do this two men are to be added to the force on each section. Men are hard to get just at present.

The interest in baseball has revived here. A few days ago a crowd got together and had a practice game on the grounds. The most notable catch of the day was made by County Superintendent Davis who caught a hot one in the left eye and the optic has been trimmed in mourning ever since.

A road overseer in Holt county has published a notice on the subject of the Russian thistle at a cost of \$22.00. Who will pay it is yet to be seen. In most counties the road overseers are resigning and none can be found to take the office. It is claimed that the Russian thistle law if enforced will break the land owners and if not enforced will break the road overseers.

PERSONAL.

Fred Knott is in from Gilchrist today. R. E. Neece was up from Ranning Water yesterday.

D. H. Griswold made a business trip to Lusk on Friday.

Tom Snow was in from Rawhide Tuesday purchasing supplies.

Scott Jenks was doing business at Harrison the last of the week.

Mrs. L. J. Simmons went to Chadron last evening, returning this morning.

Miss Cora Warts was up from Crawford the first of the week visiting friends.

V. A. Hester returned from Wyoming the last of the week where he had been putting up windmills.

Elen Cowlishaw was in from the north part of the county yesterday and called for a short chat.

Frank Nutto came over from Indian creek Tuesday and bought a bunch of cattle from Ed. Smiley.

J. T. Coffee and Will Rickard were here the first of the week buying supplies for the 7 box L ranch.

G. H. Turner was in town Tuesday. He and Mrs. Turner had just returned from an outing in the Black Hills.

H. Prieshoff, M. Gayhart and Claus Christensen were over from Montrose Monday on school district matters.

J. M. Robinson arrived from Omaha Saturday and will remain a couple of months looking after his interest here and getting rid of some of the superfluous flesh which he brought with him.

On account of the troops being called out to fight Indians the game of baseball at Chadron is off.

Peter Schaefer is in town this morning for the first time in several months. He says he is gaining strength slowly.

The Bannock Indians have been making trouble out in western Wyoming and the settlers went out and made a few good Indians but are too few to be able to hold their own. The war department was appealed to and the regular troops ordered out. A train load of horses and equipment from Fort Robinson passed through here going west about 10 o'clock this morning and a little later eight coaches filled with soldiers followed. It is hoped that it will be Indians and not soldiers that are shot.

During the past week many inquiries have been made as to the crops in the county. It seems from the reports that in the territory adjoining the ridge and in the Connouwood, White river and other small valleys fair crops of small grain will be harvested, but the corn is in hard shape on account of the cold nights. Further out in the valley the prospects are not so good. Most of the small grain will be cut for hay and the corn will be cut and cured for fodder. Vegetables promise fairly well in most localities so that there will be plenty in that line. Some fields of wheat are said to be very badly smutted. Hay is all right so that stock will go through the winter all right. There are a large number who have small fields which they irrigate and as a result they will be in good shape. The fact that the most of the people of Sioux county have small bunches of stock so that few of them depend entirely on farming puts the county in condition to get along much better than many of her neighbors. Taken as a whole the products of the county will exceed those of last year and no one suffered then so that the outlook is not so bad as it might be.

The Sunnee Girl of 1895.

The summer girl is out of the running this season unless she has gone in for athletics. In order to be a successful summer-girl she must be past mistress of two roles: the gauzy, butterfly girl—a bewitching maze of iron-frou ruffles, ribbons and lace, whose marvelous parasols and Gainsborough hats accentuate the dainty execution of her flashing eyes—is only for evening and garden-party use; in the morning, she is quite another creature. Down to breakfast—often at the heathenish hour of eight—she comes in triggest athletic attire, and she eats her breakfast, too, a healthful one of fruit, with a dainty chop or omelet and watercress or tomatoes; and then the business of the day begins. If a yachting trip be planned, the dress is nautical,—blue serge or white duck, according to temperature; if a spin on her wheel, our girl is as ready for a mountain climb as for a bicycle ride, for her neat and convenient dress is adapted to either pleasure; and though, of course, being the fin de siècle girl she is, her golf and tennis gowns are specially designed for those games, yet, under the influence of the bicycle gown, they, too, are shorter than heretofore; give their wearer perfect freedom of motion, and could be used for bicycling, or vice versa. If a sail occupies the morning, the yachting girl becomes a sea-nymph about twelve o'clock; then, after luncheon, to which she comes in her golf gown she will be found on the links in hot pursuit of flying balls. And she is no mean competitor; she gives her opponent all he can do to win, for she is in deadly earnest in everything she does. What a transformation when evening comes, and our girl, in daintiest, Parisian gown, proves that in pursuing health she has forgotten not one of her feminine graces and fascinations!—From "Chit" in Lamoine's Magazine for August.

I wish to call your attention to the fact that the County Treasurers have been very lenient with you during the several crop failures and as nearly all school districts are in need of money and the prospects are good for fine crops this year, I shall insist upon the payment of your personal taxes. Gentlemen they have stood long enough.

Very Respectfully, H. S. WOODRUFF, County Treasurer.

No steps have been taken to call a special school meeting so that the board will likely have to fix up the old building where it stands. It seems like a waste of money, but if the people are not interested enough to petition the board to call a meeting they should not kick on what the board does.

There has been considerable talk during the past week about fitting up a race track and holding a fair and race meeting. It is claimed by those who have been looking the matter up that enough work can be secured by donations to make the track without the use of any money. There is some money in the treasury of the agricultural society which with contributions from the business men and others interested could be used for purses and premiums. The officers of the county society are heartily in favor of the move. President Woodruff will be here in a few days and take an active hand in the work, the business men are unanimously in favor of the move and every one has been spelt to express the hope that the plan will be carried out and a willingness to help in the work. One thing must be borne in mind and that is that the time is short and there is much work to be done and if the plan is to be carried out there is no time to lose. A united, earnest effort will make it a success, but a half-hearted method will result in as grand a fizzle as could be desired. It rests with the people whether it will be—a fair or a fizzle.
