RANCH SUPPLY HOUSE.

-W. R. Smith is hauling lumber to Gering, using five teams.

-The material is said to be on the ground for the new store at Badare and it will soon be put together.

-The JOURNAL was in error as to the team mentioned last week as having broken loose. It did not belong to Pat Lacy but we did not learn the name of the owner.

-A. T. Hughson sends us a remittance from Oelrichs, S. D., and informs us that he has 80 head of cattle and a good place to keep them, but bitter water to drink, and expects to return to Sioux county in the fall.

-The contest of Newman vs. Nichols has been decided by the general land office in favor of the contestant. At the local land office one of the officers held for each of the parties so it had to go to the commissioner of the general land office.

-The latest business enterprise in the county that has been reported is the establishment of a store on White river, just outside the government reservation. It is expected that application will be made to the county board for a saloon license and the next step will likely be an effort to have a railway station and postoffice provided. Towns are on the boom in Sioux county.

Fine line of jewelry and clocks at Pioneer Pharmacy.

-W. B. Marsteller is building a summer kitchen to his residence.

-Horehound compound cough syrup the great remedy for coughs and colds at the Pioneer Pharmacy.

-The high wind the first of the week brought the vane of Hester's windmill to grief.

-FOR SALE OR RENT-160 acres near Harrison. Free from incumbrance and well improved. Inquire at this office.

-All persons indebted to me are requested to call and settle their accounts by cash or note by May 2.

J. W. SMITH.

-WANTED-500 cattle to herd during the coming season. Good range and water, and careful attention guaranteed. Terms, 80 cents for the season.

P. N. KILPATRICK, Harrison, Neb.

-I have a large list of lands belonging to eastern parties which I will sell on easy terms. May be I have just what you. Call and see me or send description of any land you want.

GRANT GUTHRIE, Harrison, Neb.

-WANTED-A reliable lady or gentleman to distribute samples and make a house to house canvass for our Vegetable Toilet Soap and Pure Flavoring extracts. \$40 to \$75 a month easily made. Address CROFT & REED, Chicago, Ill.

-C. F. Coffey expect to start for Arizona the first of the week after cattle to put on his Wyoming ranch. He expects to get two train loads. C. B. Hollingsworth will accompany him on the trip.

-R. F. Neece came up Friday and on Saturday moved his two daughters, who have been attending school here, down to the ranch on Running Water. He reported the stock in that locality in good condition.

-It is reported that when Theo. Hillebrand took his band of sheep into Wyoming the people in the locality did not like it and took measures which ran him out. Sheep play havoc with the pasture for cattle.

-The schools closed last Friday with rhetorical exercises and the same evening Mr. Fisher started for his home in Dawes county, riding through on horseback. Mrs. Fisher left on the train Monday evening.

-Some wolves got after C. H. Unitt's cattle last week and the count was three short and some that were present were injured. Lightning got in its work on several head belonging to A. McKinley about the same time. Either is bad for cattle.

-T. O. Williams is putting down a well for a party near Lusk and when completed he will put one down for Henry Warneke and also one W. A. Bigelow and S. B. Coffey between Running Water and Sheep creek, where those parties will range their cattle during the summer.

-Dr. Meredith came up from Crawford Monday to consult Dr. Phinney in regard to the treatment of Albert Erdman. They drove out to his place in the evening the patient returned with them, and he is still here and in a fair way to soon be all right.

-J. W. Scott informed us that some one had broken a number of panes of glass out of the windows in the school house and done considerable mischief inside the building. It was very likely the pranks of some boys who desire for fun got the better of their judgment, but they should not have destroyed property.

-There seems to be a question as to the right of the board of equalization to change the valuation put upon property by the assessors when it is the same in the various precincts. They have authority to lower in some and raise in others for the purpose of equalization, but the aggregate must be maintained at the amount returned by the assessors.

-Jas. E. Verity writes to have THE JOURNAL sent to White Bear Lake, Minn., where his family will spend the summer while he is looking for a business opening. He has been a resident of Nebraska so long that it will seem queer to him to have to write the name of any other state in a date line.

-The arrest of Herman Keoning seems to have been like some arrests in this county. Parties from that locality report that he was taken to Hot Springs but was not kept under guard even, and on preliminary examination was discharged, as he was not the man wanted, and there was no evidence against him. Such arrests are worse than useless.

-L. T. Poole informed us the machinery for sinking the test well for artesian water at Marsland is on the ground and work will begin at once. The money is raised by subscription and costs twenty-five cents a foot to have the well put down, the people to furnish all material and board the men while the work is in progress. They have about five hundred dollars in the fund. The result will be watched for with much interest. By the people of this county, as its success will indicate that our people may also get artesian water. The people of Marsland and vicinity are entitled to credit for the enterprise displayed in the matter and it is hoped that their efforts will be crowned with success.

DOUGLASS-ZIMMERMAN.-At the residence of the bride's parents near Badare, Sioux county, Nebraska, on Wednesday, April 22, 1896, by Rev. C. E. Rice, Mr. Leonard Douglass and Miss Myrtle Zimmerman, both of Sioux county, Nebraska.

The contracting parties have both resided in the county so long that they have an extended circle of acquaintances and their popularity among them is the best possible gauge of their merit. They will make their home at the place fitted up by the groom in Warbonnet precinct, and settle down to the enjoyment of wedded bliss, attended by the wish of all that few sorrows and many joys may be their lot in life.

Died.

SCHAEFER.-At the family residence near Badare postoffice, Sioux county, Nebraska, on Friday, April 24, 1896, Peter Schaefer, aged 49 years.

Deceased was an industrious farmer who came here about three years ago and purchased a large farm and set to work to develop a system of irrigation which the former owner had commenced. His health failed more than a year ago and he became a victim to consumption on the above date. He leaves a wife and nine children to mourn his death, all of whom were with him at the time of his death except his eldest daughter, Mrs. H. J. Smiley. The deceased was buried on Sunday in the Catholic cemetery at Montrose. The bereaved family have the sympathy of all in their loss.

A Good Plan.

Wagon Republican. The common people of the state are supposed to abide by and be law-abiding citizens, and yet the state makes no provision for them to become acquainted with those laws. Even session of the legislature enact a lot of laws and only a few lawyers and favored ones ever learn what those laws are. The laws go into effect any time from the date of their passage up to July 1 of the year in which they are enacted, and the session laws published by the state seldom are ready before October following. It seems that there ought to be provisions made by the legislature for a more general knowledge of what the people are expected to conform to than under the present system. Hundreds of thousands of dollars are expended annually by the masses in defending themselves against breaches of laws that they never had a y means of knowing were in existence; this should be remedied. It can be done by an act of the legislature authorizing the publication of all such acts passed in at least two papers in each county in the state. It would be a matter of economy to the people, and would go a long way toward preventing the passage of pernicious acts, in that the people would know just what their representatives were doing and could hold them responsible for anything favoring oppression or wrong in any manner.
