### THE SIOUX COUNTY JOURNAL.

L. J. Simmons, Editor and Prop.

P. E. & M. V R. R. Time table.

J. B. PHINNEY, M. D.

Physician and Surgeon.

All calls given prompt attention

MARRIMON. - - NEBRASKA.

-For information rend THE JOURNAL. -Jacob Marking was over from Ard more on Monday.

-Call at THE JOURNAL office and have your final proof papers made out. It will cost you nothing.

-A. E. Gates was up from White river Monday on business in the probate -County Attorney Guthrie made a

trip to Edgement the first of the week on legal business. -John L. Stratton has possession of

Priddy blacksmith shop and will conduct it in future. -C. C. Jameson was up from Chadron the first of the week to visit B E. Brewster. Both are democrats who will

vote for McKinley. -J. F. Cook was in town Tuesday. Jack has always been a democrat but mays his party left him so he will vote for McKinley.

-Mr. and Mrs. Elward Wright, of New York, arrived a few days ago on a visit to Mr. and Mrs. W. B. Wright and

other relatives. -THE JOURNAL job department is employing extra help and working over time in getting out the ballots for the election next Tuesday.

-Some one shot a valuable horse belonging to N. L. Tipton a few days ago. The animal may recover but the one who did the shooting ought to be prose-

-The pump at the pumping station broke down Saturday and the supply got pretty low, but it was ready to start up this morning so that no one will suffer for a drink.

-Miss Ad a Brown leaves this week for the home of C. F. Coffee, the big Sioux county cattleman, where she will accept a position as governess to Mr. Coffee's children.-Chadron Signal-Recorder.

-A letter from Phil Brinkerhoff re peived a few days ago says Wisconsin will go over-whelmingly for McKinley and Phil will help to bring about such a

-Winter started in on Tuesday night and has kept it up pretty well since, a considerable quantity of snow having dien, but it has not been very cold and now nice weather is likely to prevail for

-In speaking of the situation a few days ago John R. Shepperd, of Ottumwa, Iowa, said that state would give nearly one hundred thousand majority to McKinley. People there laugh at any one who expresses the opinion that such will not be the care.

-It is reported that J. C. Dahlman. chairman of the silver democratic state pommittee has sent out word that he had no hope of carrying this state for Bryan, but wanted to make as good a showing as possible. The fellows who are informed as to the situation know that the Bryan fellows are simbly bluffing and that at the show down next Toesday the weakness of their hand with be known to all.

- Supt. W. J. O'Brien was in Harrison Saturday with the state fish car and delivered carp and cattish to those who had applied for them. He made a pleasant call at this office and in a conversation with the writer stated that each year people came to better appreciate the value of fish. A few years ago the general idea was that a fish pond was a zury to be indulged in only by people of means, but it has come to be recognized as a valuable, though inexpensive thing for any who have the water in which fish will live. The car will not come here again this fall. The prospects are that a large number of trout will be on hand for distribution in the spring so that those who want a supply should make application.

-The secretary of state had the amendment bullots printed. There were about two million of them and tons of paper were used. The expense is borne by the taxpayers of the state. The regular ballots are procured by the cierks of the various counties and an equal number will be required and they are larger than the amendment ballots. It is useless to have so large a number printed and it is also useless to have so many tickets in the field, but the law requires a certain number to be printed and it makes it so easy for people to run or office that a large ballot is required e accomodate all the aspirants. A law educing the number of ballots to be ed and making it harder for ants to get on the ballot would the texpayers a good sugs of mon
