OFFICIAL PAPER OF SIOUX COUNTY.

GEO. D. CANON, - - - Editor.

Entered at the Harrison post office as second class matter.

The republican party will not have a walkaway in passing the new tariff measure that is now before Congress.

The total cost of the building and the preparations of the grounds for the Texas-Mississippi Exposition to be held at Dallas, Tex., in 1898, will exceed over one million dollars.

The recent floods in Iowa, and South Dakota have destroyed vast amounts of personal property, which will run up to the hundreds of thousands of dollars.

Notwithstanding the hue and cry of this opposition party, the reform legislature at Lincoln this winter has made a saving of over \$2,000,000 to the State for salaries of officers in the State alone.

The dedication of the great Monument at Riverside Drive at or near the city of New York will take place April 27. President McKinley has promised to be present and deliver an address on the occasion.

It is becoming the republican press to talk about the alleged acts of the dominant party in power in this state, taking the law into their own hands as regards the re-examining of the ballots in the last fall election. One usually has their hands full to keep their own clean yard clean.

If protection is the thing, why ought to we be per based in theory? Is not protection for our own according to the "Wilson Bill" for the people want more high protection and then the gold standard along with it, will make the interests of the farmer and laborer, who have no fixed income just a ridiculous thing? You need some more protection than you ought to have it.

Henry L. Wendell, who said in congress that he had discovered paper money and it was very simple, being the truth.

"Paper makes money,
Money makes bonds,
Bonds makes poverty,
Poverty makes rags,
Rags makes paper,
Paper makes money,
Money makes bonds."

The above represents the gold standard and National bank theory. See

The following is an extract of a letter written to his sister by a gentleman living in La Salle county, Ill., showing about how much confidence and he is a middle republican, and doubtless voted the McKinley ticket—he has now in the promised wave of prosperity.

"There is not much going on here now. On McKinley's day, the 4th of March, the employees of W. H. Morse & Co. got a reduction of fifty cents a day. The President of the Republican club fainted when he heard it. The same day Betendorf Wheel Co. reduced their men's wages 10 cents. Other concerns, such as the Peru Flax Works, the glass works, foundry, rolling mill, clock works, and works and others are going to cut their men's wages. Coal miners are working slow, half time, some half days they earn 67 cents and some, they earn nothing. Business is dull.

"The people have lost more confidence than what they had, and this is the way McKinley is restoring confidence. Just wait four years, and the republican party will be ousted for a rather long time I think. Now I don't know whether you folks are Democrats, Republicans or Populist, but I will express my sentiments anyway."—The Dakota Steve.

Summer School.

Arrangements have been completed for the holding of a summer school at Harrison for the benefit of teachers and others who might desire to attend such a school. It will begin June 1st, and continue four weeks, followed by two weeks normal institute.

For full particulars write,

Co. Sup't.

Our third quarterly meeting will be held by Elder Julian, at Pleasant Ridge, April 3rd and 4th. Saturday at 3:00 o'clock P.M., and Sunday at 10:00 o'clock A.M. He will also preach in Harrison Sunday evening.

Sioux County,

A new county with schools, churches, railroads, etc.,

AND 800,000 ACRES YET OPEN.

NO BONDS, NO DEBTS, LOW TAXES.

Contains over forty-five miles of railroad and has no county bonds.

Fuel, Posts, Logs and Lumber Cheaper Than at any Other Place in Nebraska.

Good Location for Stock Growers.

Sioux county is the northwest county of Nebraska. It is about thirty miles east and west by about seventy miles north and south and contains

OVER 1,300,000 ACRES of land. There are more bright, sparkling, small streams in the county than can be found in the same area elsewhere

With high tariff, the retarding of the growth back to treasury notes, and the taking away of the constitutional right to coin money and regulate the value thereof, and pass it over to the National banks, and those run in the interest of J. Pierpont Morgan, Ang. Belmont and co., the people will begin to see "where they are at." The sooner they are brought about, the sooner the people will take steps to right the wrongs the republican party hope to force upon the American people which, in effect will serve to perpetuate crime, despotism, transplant and misery.

What They Say About Us at Our Old Home.

George D. Canon has resigned as post master of Alpena, and is now editor of The Sioux County Journal, published at Harrison, Sioux county, Nebraska, at the northwest corner of a state. George put in some of his best years here in Carroll county. The Journal extorts him severance fees for his services. His family will leave for the west shortly to be followed by Uncle Sam.—The S. C. Journal.

How the reputation of the state is lacking about the amount of the ballots on the amendment to the constitution at the last general election. But a very little is being said about the plundering the state treasury of \$1,000,000 that was in sight by the republican party, which they do not believe is the party of the people. South Dakota and Nebraska have had quite enough of republican rule, and the people decided to relieve that party from any further responsibility of looking after and taking care of the people interests. Our state used to be free and wild, to conceive what the return party now in power in this state will do to us. The republicans, who have been banished from Min. strong hold in office in Nebraska. In our opinion it will be a cold day when the people return them to power.

Hon. W. J. Bryan's Generosity.

In answer to a communication from Mr. Justice M. Wood, W. J. Bryan & Co., Chicago, stating that \$1,000,000 was due him in regard to the first negotiates, Mr. Bryan has contributed them to Harrison, \$100 to Mr. Jones, \$1,500 to Mr. Wagner, \$1,000 to Mr. Allis and \$100 to Mr. Teller, and \$100 to each for these contributions. Mr. Jones, especially, deserves his portion in presenting the sum of \$100,000 to the Democratic party. Mr. Wagner is to receive the money received by him through the association of the national Republicans. Mr. Teller will expand his position for the most conservative of the three. Mr. Allis will employ his position in advancing the interest of broadminded through the top party.

Mr. Bryan based his division on the fact that he received \$500,000 from the Populist votes and \$500,000 from the Republican votes, recognizing at the same time the work done by the National Standard more as a non-partisan organization.—Rocky M. Hayes.

The above shows that Mr. Bryan has the true silver cause at heart, and though defeated, as we believe by unfair means yet, he is not disengaged and will live to see our monetary system re-estimated to its former position prior to 1873.

All who desire to get locations suitable for stock raising and buy cheap land are invited to come and see the country for themselves and judge of its merits.

The Journal will publish in the state. It has more pine timber in the state. It is then all the rest of the state combined. It grows the richest and most timber known so that for stock growing thereof, and pass it over to the National banks, and those run in the interest of J. Pierpont Morgan, Ang. The water is pure and refreshing well found in abundance in all parts of the county.

The county is practically out of debt and has over forty-five miles of railroad within its borders. Has a good brick court house and the necessary fixtures for running the county and there have never been one dollar of county funds caused and taxes taxes will be low.

The Fremont, Elkhorn & Missouri Valley railroad crosses Sioux county from east to west and the B. & M. has about fifteen miles of its line in the northern part of the county.

The change is more pleasant than that of the eastern portion of Nebraska.

There is still

Good-sized land can be purchased at reasonable rates with government land adjoining so that a person who wants more than one-quarter section can obtain it for a little money.

There are about 1,000 people in the county and there is room for thousands more.

Harrison is the county seat and is situated on the E. E. & M. V. railroad, and is as good a town as the thinly settled country demands.

No houses and churches are provided in almost every settlement and are kept up with the times.

All who desire to get locations suitable for stock raising and buy cheap land are invited to come and see the country for themselves and judge of its merits.
