OFFICIAL CANVASS OF NEBRASKA'S VOTE. GILMURE HEARD TRUM HOUSEHOLD HELPS.

Lincoln, Neb.—Special.)—The state canvassing board met Monday and commenced the wors of canvassing the voice cast at the late election for judge of the supreme court, regents of the university, judges of the district court and congressman in the Sixth district to fill vacancy. Governor Poynter, Treasurer Meserve, Auditor Cornell, Deputy Aitorney General Oldham and Secretary of State Porter made up the board.

The abstracts of the county voice as certified by the county clerks to Secretary of State Porter were opened by him and copied on the sheet for the use of the board in making the grand totals. The votes for judge of the supreme court of regents had some astonishers in them. One thing was the large number of voices who evidently did not vote for these state officers. It was eval not from the incomplete returns received and tabulatwas the large number of voters who evidently did not vote for these state officers. It was eval nt from the incomplete returns received and tabulated several days and that there were a large number of voters who did not vote for these, but the showing that a arry 17,000 men who went to the polls and voted some part of the ticket, did not vote for either candidate for supreme judge, and that approximately 27,000 did not vote for regents of the state university, was something of a stunner even to those who had kept the calling of the state university.

The total number of votes cast, 229,224, shows one of the heaviest votes The total number of votes cast, 229,224, shows one of the heaviest votes in the history of the state. The complete official returns show that Edson Rich, who received the lowest vote for regent on the fusion ticket, gets through by the good, big majority of 3,709, and it also shows that the hysterical claims of the republicans a few days after election that he war beaten, were without foundation to rest upon. There is another surprise in the size of the prohibition vote. The gh there was no candidate for the judgeship, this party had two candidates for regents, and the foremost one of these, Smith, gets 5,664.

Judge Neville is shown to have been elected in the Sixth district by 2,360 over Kinkaid, republican.

Many of the troops are suffering from exhaustion, fever or dysentery, and are in need of hospital treatment. Captain Fowler's march after General Alejandro's brigade with one company of the Thirty-third regiment was one of the bravest incidents of the war. The company left Dagupan alone, under orders to locate the enemy. Captain Fowler had been warned by the natives that he and his men would be exterminated. The guides deserted them before Mangatarom (or Mangataron) was reached. All Alejandro's artillery was focused on the main sireet, along which the Americans advanced. The guns were manned by Spaniards, who said afterwards that they had fired over the heads of the Americans, as they desired that the latter should win, hoping thus to gain their own freedom. TIMELY HINTS.

A very decorative lamp shade may be made of four Japanese fans. The handle is cut just outside of the bamboo, which passed through it, and the fans are fastened in an upright position to a square shade frame of wire, so as to have the edges touching. This over a bright light gives a very pretty ef-fect if the fans have been well chosen—the paim-leaf fans are excellent for this purpose when a strong, steady light is desired without glare. For a round shade it is likely that five or six

When refurnishing some portions of your house this autumn, if you would save labor eventually, remember that matting, with rugs, should cover the floor nearly all over the house, instead of carpets. The reason is that wiping over and taking away the dust quietly, takes less tie than sweeping—which always makes work through so generously distributing the dust all over the room. With good wall papers but few ornaments, pictures and little drapery and furniture are needed. Only clean a thing when it is apparently necclean a thing when it is apparently nec-essary—for instance, wash off dirty marks on paint, but do not of necessity wash all the paint. A plateful of cold bits of chicken which are insufficient for a meal will, however, afford the foundation for several substantial dishes. A most appetizing one is made with the aid of boiled rice, well seasoned and pressed into a square pan. When it is cold it should be sliced and fried until very crisp and brown. The chicken minced and seasoned is piled upon bread slices. If curry powder is liked, a little of this may be added to the chicken by way of a distinctive flavor.
