We go to press one day early this week so as to give our printer and the devil a chance to eat turkey, and rest on Thanksgiving.

Tom Horn pays the penalty of taking the life of Willie Nickel some time ago. He was hung on last Friday at 1 o'clock at Cheyenne.

From the amount of gobbling we have heard lately, we think everybody will have all the turkey they want for Thanksgiving.

We understand that Deputy State Supt. McEwen will be in attendance at the teachers association held at Crawford Friday and Saturday.

While chopping in the canyon Tuesday George Dieckmann cut his foot quite severe. He will probably have a very sore foot for some time.

**THANKSGIVING BALL.**  
The next grand ball will be given, Thanksgiving evening, Nov. 26, at the hall. Come one and all and have a good time.  
L. C. LUNN.

The Harrison Sun has changed hands. John H. Newlin purchasing the same. Mr. Newlin will take charge about the first of the year. The paper will continue its political complexion as a Republican paper.

With Judges. Woster, and Harrington on the bench cattle rustlers and other desperate characters had better give the judicial district a wide berth for there is no dilly dallying in their methods of dealing out justice.

Senator Dietrich was indicted by the federal grand jury at Omaha last week. The senator is liable to be indicted to stay to the word that the G. O. P. would stand any footing with. Mr. Dietrich is only a senator, hence his character is not particularly important.

## HERE AND THERE

Joe Statney came in on Tuesday's train. Mr. Statney took his wife to Lincoln some time ago, and placed her under the care of a doctor and trained nurse, hoping that her ailment might be restored to her again; but when he left her on Monday she was no better.

Rev. Daniels and family came in on Tuesday's train. Mr. Daniels will take on the work as pastor of the M. E. church at this place. The people of Harrison welcome them to our midst and look forward to a pleasant and profitable year in laboring for the Master.

There are some smart alecks around town that are going to come down with a thud that they will remember the balance of their lives if they don't get into their place soon and keep there. Fathers had better be looking after their young Americans that never do anything wrong before it is too late.

We notice an article in the Chadron Journal from the pen of Miss Blanche Coffey, on the subject of "What is Worth While?" Miss Coffey brings out some deep thoughts on this subject, and were we not crowded for space this week we would publish it, but we will give it to our readers later on.

Gordon has had seven principals engaged since the board first solicited for professors, so says the Gordon Journal. Number six lost his wind and grip, and had to let loose. Well that is better than Harrison done last year for our man lost his wind and grip of all, but staying with his salary until the end of the year.

We listened to John W. Brown, a socialist speaker from Massachusetts, who spoke at Mitchell on the 12 and want to say that if he ever comes this way you want to hear him, for he is one of the brightest speakers we have ever heard, and whatever your politics may be you will enjoy the time spent listening to him.

Doc C. H. and Bonnie Curry, the Eye Specialists, of Chicago, who have made several visits to Harrison, will make their next professional visit to Harrison for one day only, Saturday, Dec. 5th. They are the oldest and most reliable specialists in the west and carry the largest and most complete set of instruments in use. Consultation, free. Glasses filled at the lowest prices. They are known to be good and reliable.

**JUST WHAT YOU NEED.**  
**Stopped Against a Hot Stove.**  
A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which scalded him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that he had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and in less than two weeks was well. Mrs. Benson is a well known resident of Keller, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by All Druggists.

## The Best Remedy for Croup.

[From the Atchison, Kan., Daily Globe.]  
This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and tolu, but some modern mothers that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "stow up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by All Druggists.

## DRYER-BROWN Nuptials.

**MARRIED**—At the home of the bride's parents Mr. and Mrs. John Brown on Wednesday, Nov. 18th, at 9 o'clock A. M. occurred one of the prettiest weddings of the season. When Miss Margaret V. Brown and Frank W. Dryer were united in marriage. The bride was attired in a gown of Navy Blue and trimmings of White Satin. While the groom wore the conventional Black.

While the wedding march was being played, by Miss Lillian Zimmerman, the happy couple, attended by Miss Winnie Brown and Clarence Zimmerman, came marching in. The ceremony was then performed by Rev. Holson, pastor of the M. E. church of Crawford Neb.

Immediately after the ceremony, the wedding party retired to the dining room, where they partook of an excellent lunch such as we know Mrs. Brown is able to prepare.

Lunch over—Mr. and Mrs. F. W. Dryer departed for their new home, where the groom had things in readiness to welcome his new bride.

The bride is one of our late Sioux City teachers who has a number of friends and will be greatly missed from among the teachers. The groom is one of S. Dakota's young ranchmen whose friends likewise are numerous. And I with their other friends join in wishing the happy couple a long and prosperous life; but a few of their intimate friends being present. Of the invited number all were present, but Rev. E. E. Zimmerman whose presence was greatly missed.

## LETTER FROM MRS. E. L. RICE.

Hotelkiss, Colo., Nov. 13, 1903.

I ought to have written my Journal letter last week while I could brag on the weather. We certainly have had a beautiful fall. Since early September, when we had a week of threatening weather, a big rain and a big freeze, the weather has been all that one could ask for—One sunny day after another, cold and sharp nights and mornings; but during the days such weather as makes one glad to be out of doors as much as possible. This week we had no sunshine and much threatening weather; Tuesday was cold and the ice in the ditch showed signs of thawing all day, but today (Friday) the sun is trying to come out and it is warm, so warm that I am sitting near an open door and the flies are buzzing around me; and for all the threatening we have had no storm. It has snowed on the mountains in sight almost every night. That September freeze did much damage to the peaches which were about ready to pick. Some lost nearly half their crop. Many were sold to the canning factory, which would have been first grade peaches, but for the freeze. The chief loss was in the Elbertas, which are the principal shipping peach. But in spite of this misfortune there seems to be plenty to eat, can and feed to the pigs. It seemed almost wicked to me at first to feed peaches to the pigs, but all the pigs in the country feast on peaches and I am getting used to it, and when it is our pig that gets the benefit of it I am very willing.

This last moon gave us some perfect evenings and we were tempted to a little dissipation;—A social, a stereopticon lecture and two evenings at church. Our Rogers Mesa Sunday School has bought a new organ and is having dime socials etc. to help pay for it. We had eighty at Sunday School last Sunday—pretty good for a country school.

It seems to be necessary to one's comfort and health in this country to have a cistern, and we are getting one. It seems to be a slow process, but we hope the worst is done, and that it will soon be ready for use. Is it not such a soft snags getting a cistern in Sioux county. In the first place digging the hole is quite a different matter. We were fortunate that there were no stones

TIMOTHY.

in our big enough to have to be blasted out, but the lower third was almost all stone. Then it is to be walled up with stone, and while the country is full of them, selecting the flat ones and hauling them up for a wall a foot thick is no small job. The arch is to be of stone also, and they must be of a big flat thin kind, to be found only eight or nine miles away, and the sand must come from the river three miles away.

Hotchiss is putting in water works this fall and building two big reservoirs on our Mesa. There is an abundance of work for every body at good wages, there and in taking care of the fruit and getting ready for winter generally. Help is in great demand and hard to get. One of my neighbors paid a woman two dollars a day for cleaning house and could not get all the help she needed at that.

We had a wind Sunday, which reminded me of Nebraska, and I suppose it blew up all this threatening weather. When we do have a wind I think of Clio and pity her for having to endure so much of it. We are awfully sorry that Zed had his moved to town and will write no more, and we wish Dorothy and M. A. C. would be heard from every week.

Greetings to you all and to all your neighbors.

The old dog Mrs. Williams gave us found it very hard to keep up, though he tried very hard to do so; and the noon we stepped at Mr. Selder's we thought we had lost him, but when we went out after dinner he was under the wagon. I got some milk and gave him with his dinner, and at night he was missing again but the boys saw him last in Sioux county. In the first place digging the hole is quite a different matter.
