We are glad to see that the Sunday school workers at Pleasant Ridge are going to keep their Sabbath school going through the winter. Here's success to you.

Alfred Morris, who has been staying at the Commercial hotel since last spring left for the eastern part of the state last Saturday evening to join his father, sisters and brother.

We have been asked the meaning of the word Pantheism, Webster gives it thus—The doctrine that the universe, taken or conceived of as a whole, is God; the doctrine that there is no God but the combined forces and laws which are manifested in the existing universe.

We have been thinking for some time for some amusement for our young people and we know of no better thing than an ice pond for our boys and girls to spend some of their leisure moments. It would not be a great cost to put down a well at some convenient place and a pond could soon be made that would not only furnish amusement in the winter but in the summer as well. The skating rink just started by W. C. Stewart is a good move but the hall is not large enough and then there is a dust there that is not so healthy as our beautiful atmosphere on the outside. We can't see but what parents ought to furnish something of this kind for their children for it is all we have to live for, and there is one thing sure if we don't furnish something that is pure and elevating Satan will find something for them to do. Our young people are deprived of many privileges that we, when we were young had the benefit of, and while our conditions are different we can make things more pleasant for our children, and they in return will bless us for it. Won't someone take the initiative step in this matter? We are sure the small amount of land required will be easy to get, and the work could be done by those interested except the well and its attachments; so let us not only think about it but let us do something. Who will be willing to take the matter up and push it? Let us hear from others. The columns of this paper are at your service for anything you have to say on the matter.

GLEN ROUNDUPS

Mr. Shepherd, who has been working for the officers and lived on the Peter Nelson place, we learn, received a telegram from his mother, who lives in New York, that she was very sick and for him to come at once. He departed on the next train.
Mrs. M. H. Green has been troubled with neuralgia for some time past but at this writing she is much better.
Mr. Ray Hamaker took shelter at the DL bar Saturday night enroute for the south divide.
Mr. A. T. Hughson made a business trip to Crawford Wednesday night returning Friday morning and spent the remainder of the day with Denstova.
Those who were Crawford visitors last Saturday were Fred Webster, James and Hans Jensen.
Sunday being a very raw and disagreeable day the audience was not large at Sunday school Sunday but our minister was with us and the sermon was very well discussed; The text was taken from the iv Psalms in which it says: "Who will show us any good?" This is a broad and deep subject and when ardy huddled as it was Sunday there is something in going to church. There will be church on the 29th of January and as this is communion day every one is most cordially invited to attend.
Mr. and Mrs. M. H. Green were callers at Mr. Hans Petersons Sunday afternoon.
Mr. and Mrs. J. H. Denstow were callers at Mr. John Blombergs Sunday afternoon.
Mr. S. J. Rule made the overland trip to Crawford Monday, also Geo. Lakin. On Monday morning the "sage brush flyer" somewhere west of Glen was stranded and it was necessary for the company to send another engine from Indian, and a few hours later the broken engine returned.
On Tuesday evening Mrs. M. H. Green and Orval made a pleasant call at Mrs. Denstova.
The Jensen boys are putting up ice these days, but it is not extra good yet. YOUNG AS B 4.

Hunter Happenings.

School began Monday.
W. T. Jones was a Harrison visitor Thursday.
DeAlma office of Runningwater was an over night visitor at East Andrews Saturday.
Delbert Rice was at Harrison Saturday.
Mr. Rice and son brought a load of wood home Friday and went back to the mill Sunday.
Harvey McIntosh, eldest son of I. S., came home from Iowa, where he has been for some time. He was at Harrison Friday and went over to the ranch on Saturday.
Oscar McIntosh came home from the ranch the last of the week and is going to school.
Miss Warner came back to Hunter after a two weeks visit at her home near Creighton, Nebr. She had a good time but was ready to get to her school work again. We look for another four months of good work done in the school room.
The new stove for district 30 came Monday. We will use mostly coal in the future as wood is getting to be hard to get.
George Baldwin went to Harrison last Friday bringing home a fine graphophone with which several neighbors were very pleasantly entertained several evenings.
Mrs. J. H. Cook and son Harold came over from Agate Sunday and went up to Harrison Monday morning.
Ezra Tucker went up to Harrison last Saturday on business. He is now a very important personage along White river. He is the Honorable Ezra Tucker J. P. also roadmaster on this line. We look for justice to the bad roads and peace to the good people; he went from Harrison to Crawford, coming up on the passenger Monday. The engine had to stop two or three times to get up steam, on account of its heavy load, we suppose.

Wm. Hannan came over from his place Sunday to see Mr. Baldwin who is staying at Mr. Jones at present.

Thomas Jones was very sick Saturday night and Sunday; was not able to go to school Monday. Too bad he had to be absent as Velma Rice and Thomas were present every day the last four months, neither being absent nor tardy during the entire term.

Paula and Thomas Jones visited friends at Saw Dust a part of last week, coming back by Haterbrook where George Baldwin had some business to attend to at Mr. Teclabolds; They got home Thursday nearly frozen but reported a good time.

Axel Madson of Glen visited Thomas Jones the last of the week. He came after their cow that has been here for some time, but she was unable to travel

Treasurer's Statement.

No uncalled registered warrants outstanding. CARL M. LUX, County Treasurer.

The highest cash price paid for hides at J. W. Ricedorffs.

Mrs. E. F. Pontius was quite sick one night last week and from what we learn was near death's door for a time. The trouble was acute neuralgia of the heart. We are glad to say that she is herself again, and much credit can be given to Dr. Phinney for his promptness and quick diagnosis of the case or we would have been called upon to write differently from this. The new doctors come and go, but Dr. Phinney has been a blessing to many homes in this county and if we know where we speak he will continue to do so for years to come.

A car load of Glenstock coal for sale by Chas. Umst. The commission agents are in session again this week.

Glass Christensen is up from Montrose this week. Archie Davis left for Grand Island last Saturday evening after spending vacation at home. Miss Hattie O'Conner left for Indian creek Sunday where she will teach school at Mr. Nolans. Harrison has a preacher at last, Rev. A. R. York arrived here from Wisconsin last Friday morning and filled the pulpit both morning and evening Sunday. We hope his health will prove good here and that the work of the church will prove good progress by his efforts. Both persons Sunday were inspiring.

From what we can glean from the daily news papers and other sources there will be quite a rail road boom in Wyoming this year and the big government campaign the north Platte will give plenty of work besides putting lots of money in circulation in this part of the county.

MARRIED—On last Friday, Andrew Kline of Manville, Wyo. and Mary E. Riley of Yankton S. Dak. were united in the holy bonds of matrimony by Judge Wilbermsdorfer. They took the west bound train Saturday morning for Manville where they will make their future home. Mr. Kline is a black smith by trade and is thinking a mething of locating in Harrison at some future date. The PIONEER JOURNAL extends best wishes.

Dolphins as Targets. Six torpedo boats were recently told off to destroy the dolphins, which are playing havoc with the sardines in Douarnenez bay, France. Floating bait is to be used, and the best marksmen on the vessels are to be provided with rifles to shoot the dolphins.

Hereditary Musician. Prof. Henry Appy, violinist, who died at Rochester, N. Y., recently, age seventy-eight, was the son of the leader of the orchestra in the chapel of William of Orange.

Largest Photograph. The largest photographic picture in existence is being exhibited in Berlin. It is about 40 feet by 6 feet, and represents a view of the Bay of Naples.
