Hard Lying.
Some members of the British navy get extra pay for "hard lying." This has nothing to do with spying or other intelligence work or conducting visitors over the fleet or writing reports, as might be surmised. It refers to the difficulties of sleeping in a nasty little torpedo boat or similar craft which has not space enough to swing a comfortable hammock. The men had to sleep on hard decks and compensation was awarded in addition to ordinary pay. In future all engaged in submarine work are to have an additional allowance, according to a recent admiralty order.

COMRADESHIP SPIRIT SHOWN

Minnesota Veteran Receives Wallet Lost During War and Found by British Soldier.

The spirit of comradeship between soldiers of the allied armies of the World War, as demonstrated by the formation of the Interallied Veterans association, of which the American Legion is a member body, has been shown in a number of instances.

One of the most interesting examples of this friendly feeling between comrades was revealed in the finding of the personal wallet of Francis E. Ellis a veteran of St. James, Minn., by Bert Goetze of London, a former British soldier.

Ellis served with Co. M., 145th Infantry, toward the close of the war and was moving up with his company when the Germans were turning back through Belgium. He lost his wallet, together with his registration card and other personal memoranda on the trip.

Recently he received a letter from Bert Goetze, under a London date line. The note read: "I am sending you this wallet which I believe to be your property. I trust it finds you alive and in the best of health after the terrible strife we have been through."

"I don't know if you recollect traveling in some box cars through Belgium in the latter end of 1918. I myself, being wounded on the Ypres front, was, after a week or two, discharged from a dressing station and posted as a temporary guard on Vlametinczhe siding, where your train was unloaded. On finding your wallet, it has been my ambition since to forward it to you. I am inclosing a photo of myself. Possibly you saw me while your regiment was passing my post. . . . Trusting you will drop me a line, I am, yours sincerely, Bert Goetze."

TO FORM SPARTANAIRE CLUB

Organization to Give American Boys Character Training, Business Management and Salesmanship.

The American Legion Weekly has formulated plans for the organization of a national boys' club, based on the tradition of the endurance of the Spartan boys, to give to young Americans an opportunity in character training, business management and salesmanship. The organization is called the "Spartanaire club."

The following points have been adopted as the code of the Spartanaire: 1. The Spartanaire puts his whole heart into everything he does; he strives to be 100 per cent American. 2. He is proud of everything he accomplishes; but never brags or gloats over his success. 3. He is a good sportsman and knows how to lose without thinking; he never makes the same mistake twice. 4. He plays square and fair in everything he does; his word is absolute. 5. His name is like a trademark; if he says or does anything, his friends know he is right. 6. He studies his mistakes so that he will turn them into victories next time. 7. He does not believe that he is all-perfect; but he knows that he is nearer to it today than he was yesterday. 8. He is always learning something that will be of value to him when he grows older. 9. He gets a full day's value of work, play and rest in every 24 hours. 10. He is never selfish and is always ready to help others. 11. He is true blue and his friends are proud of his friendship. 12. He is a Spartanaire and he sticks to everything he undertakes.

HOSPITAL AT CAMP CUSTER
New Institution Will Have Thirty Buildings Spread Over Tract of 500 Acres.
Plans have been drawn for the construction by the federal government of a million and a half dollar hospital for former service men suffering from nervous and mental diseases on the site of the Camp Custer cantonment. The hospital will have thirty buildings spread over a tract of 500 acres. It is one of five for which congress appropriated \$18,000,000.
The government hospital will have facilities for the treatment of 500 patients. It will be built around a commodious two-story structure, winged with general wards on one side and wards for "disturbed" patients on the other. At one end of the hospital group will be located the cottage for tubercular patients, equipped with sleeping porches and the most modern methods of treating this disease.
There is a group of buildings for "continued treatment" cases, containing large day rooms on the first floor with wards above. Three separate buildings will provide accommodations for nurses, female attendants and male attendants. There will be separate structures for the vocational training shops, garage and repair shops.

SONG OF LEGION AUXILIARY

"The Call of the Flag," Given to Organization by Author, Used in Americanism Campaign.

The patriotic appeal of the song, "The Call of the Flag," is to become one of the factors of the Americanism campaign which is being waged by the American Legion Auxiliary. This song, which has been adopted by the Auxiliary as its official composition, has a stirring air and possesses words which create a high enthusiasm among the hearers. The song was first heard by Legionnaires and Auxiliary members at the New Orleans convention, where it received the official endorsement of the Auxiliary.

Mrs. Madge King Johnston, national vice-president and chairman of the Americanism committee of the Auxiliary, plans to make wide use of the official song in the work which is being undertaken by the Auxiliary along the lines of Americanism. The song is now being distributed by the national organization of the Auxiliary through its departments and local units. Recent popularization of the song has been assisted by broadcasting from various radio stations throughout the country, particularly

on the patriotic holiday, when it was made a part of a special program.

Other ways of putting the composition before the public are being urged by Mrs. Johnston and through her efforts and those of other members of the committee, local units of the Auxiliary have received the endorsement of many civic, patriotic and fraternal organizations throughout the nation for the new song.

Mrs. L. D. Westfelt of New Orleans, who composed the song, turned over the plates, rights and arrangements for publication of future editions to the women of the Auxiliary. She advanced considerable money for the initial work, but freely gave this. Word has just been received by Mrs. Johnston from New Orleans telling of Mrs. Westfelt's death shortly after landing from a trip to Egypt and the Mediterranean sea.

A letter received by Mrs. Johnston told of her pleasure at returning home, and of her intense interest in the progress of the song. Mrs. Johnston, in a message to national headquarters of the Auxiliary says: "We will now feel that our work is a sacred obligation bequeathed to us in fulfilling her desires to aid the boys in this way."
The song may be obtained in sheet music form, orchestration, band arrangements and on player piano rolls. All rights to the composition have been relinquished by the composer to the Auxiliary.

FORD HOSPITAL DOORS OPEN

Detroit Institution to Admit Disabled War Veterans Who Are in Need of Attention.

A personal plea from Alvin Owsley, national commander of the American Legion, to Henry Ford has resulted in hospitalization for 300 disabled war veterans of Michigan.
Ford has agreed to throw open the doors of his big hospital in Detroit to every disabled ex-service man and woman in the state, following Commander Owsley's statement of the hopeless fight the Michigan veterans were making because the government failed to simplify the formal procedure through which applicants for hospitalization are forced to go and which has resulted in long delay in obtaining relief for the war fighters.

After hearing the Legion head's appeal, Mr. Ford immediately instructed the superintendent of the Henry Ford hospital to receive at once any man in need of hospital treatment who could produce proof of war service. The Ford hospital covers 20 acres in the heart of Detroit. It was used as United States general hospital No. 36 during and after the war.

Form Units of "Polar Bears."

Members of the detachment of American troops which served in Russia during the World War are forming units of the "Polar Bears." These men include a number of prominent Legionnaires who were on duty in the frozen north while their comrades were in France. They find much to talk about, according to reports of their meetings. Hard tack at \$10, cigarettes at \$2.50 a package, nights in "pup" tents with the thermometer flitting around 50 below—these are among the topics of the former members of the A. E. F. in Russia. Units of the organization have been formed in Chicago and in

Important to All Women

Readers of This Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.
Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.
You may suffer pain in the back, headache and loss of ambition.
Poor health makes you nervous, irritable and maybe despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.
Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by parcel post. You can purchase medium and large size bottles at all drug stores.—Advertisement.

WHY TAKE LAXATIVES?

Discovery by Science Has Replaced Them.

Pills and salts give temporary relief from constipation only at the expense of permanent injury, says an eminent medical authority.
Science has found a newer, better way—a means as simple as Nature itself—

In perfect health a natural lubricant keeps the food waste soft and moving. But when constipation exists this natural lubricant is not sufficient. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication.
As Nujol is not a medicine or laxative, it cannot gripe and, like pure water, it is harmless and pleasant.
Nujol is used in leading hospitals. Get a bottle from your druggist today.—Advertisement.
