**ANNOUNCEMENT**

**Webster County Bank**

WE WISH to announce that we have opened up a savings department in our bank for the use of the children, adults and every one. Thrift and saving is something that has been neglected.

We kindly invite you to take advantage of this savings idea and make this your banking home with your savings—no matter how small, you are always welcome.

A saver is a hustler and we are for both. Bank with us and you can bank on us.

We welcome every child in the community to become a customer of this new department.

**FARMERS PLAN WHEAT BOOST**

Concerted action by farmers to bolster up the price of wheat was sought Monday at a conference of representatives of five hard wheat producing states held in Wichita, Kansas.

The suggestion of Governor Jonathan Dav's, of Kansas, that the other farmers urge a "sellers' strike" was considered by the delegates.

Farm clubs, granges, cooperative associations and other farm organizations of Kansas, Texas, Oklahoma, Nebraska and Colorado, were represented at the meeting. The conference met on call of John A. Whitehurst, secretary of the Oklahoma board of agriculture.

Whitehurst believes the way to solve the wheat problem is entirely thru control of production. He said: "Heretofore when prices were low, farmers sought to make up their losses by an increase in acreage the following year. This practice has overloaded the markets of the world and reduced the production per acre, as the result of improper cultivation and poor quality of seed."

Whitehurst urged:  
 1—Reduced acreage.  
 2—Improved quality of grain.  
 3—Intensive cultivation to produce a greater yield per acre.  
 "In many cases wheat growers are not able to make enough off their crop at present prices to pay taxes," Whitehurst said.—State Journal.

(By County Extension Agent, Henry R. Fausch)

**FEDERAL FARM LOANS**

The Annual meeting of secretaries of Federal Farm Loan Associations was held at Omaha. About one hundred and fifty of the four hundred and three secretaries were present.

The Federal Land Bank of Omaha makes authorized loans to farmers in Iowa, Nebraska, South Dakota and Wyoming. At the close of business June 30, 1923, 16,491 loans were closed for a total of \$84,811,740.00. The Webster County Association has closed 51 loans for a total of \$297,400.00.

The Federal Land Bank is owned entirely by its borrowers. It is controlled by a Board of Seven Directors, three of whom are selected by the Farm Loan Board at Washington, three elected by the borrowers and the seventh is selected by the Board from three nominated by the borrowers. It is fully co-operative.

Every farmer should borrow from his own bank. There is no maturity to worry about. With its recurrent commissions this loan pays itself off at the borrowers rate of speed. It is co-operative, the borrower participates fully in all profits disbursed. In case death should come, the estate is not confronted with the danger or refusal to renew which is frequently denied in five year loans. The father who wishes to finance his son to buy a farm will find in this loan the most economical arrangement, as well as one which teaches thrift and community interest.

Bonds are sold at four and one half per cent, secured by farm loans made at five and one half per cent, from this spread the expense is paid, the remaining profits are distributed to the borrowers. Last year's dividend was thirteen per cent. Farmers with loans to renew or needing new loans should get acquainted with the Federal Loan system. It will pay them.
