MELLON NOT TALKATIVE MAN

Secretary of the Treasury Will Never Make Reputation as a Great Conversationalist.

Two sportsmen, noted for their rarity of speech, were playing golf. Up to the seventeenth hole neither spoke a word.

It began to rain and Sandy observed: "Shall we quit?"

"Chatterbox," muttered his opponent, as he drove off the final.

Secretary Mellon is silent like that, writes "Girard" in the Philadelphia Enquirer. If, as our copybooks informed us, silence is golden, that able banker came by his great wealth in the most natural way.

"This is not a talkative cabinet"—that from a Philadelphia coal man often brought into contact with Mr. Hoover and others of the presidential family.

"But," he continued, "Secretary Mellon can say less in a day than all the rest of them put together."

Good intentions will easily better part with new than try to save the lid.

A dog appears to always agree with his master except when he is being led by a chain.

The Girl I Love.

Several days ago Ed L. Hall, of this city, came into possession of a one dollar bill, with the following inscription neatly typewritten across its face: "This is my last dollar, and I gave it to the girl I love."

Mr. Hall is of the opinion that a real "human interest" story awaits some budding "O. Henry," with the necessary tact and patience to find this modern lover, remarks the Indianapolis News.

Parting with one's last dollar is a circumstance which might easily be fraught with tragic significance at any time, and in this case it seems doubly so.

But, of course, "the girl I love" may have been his sister, his "last dollar" may have gone for candy, and the next day may have been his regular pay day. Who knows the answer? Some one does!

Yes, Indeed.

"Did that rich uncle of yours leave many heirlooms?"

"Do you believe the human race originated with Adam?"

"Well, Adam or atom."

The Meat of the Wheat

STARCH is the "meat" of the wheat berry. It is the great energy-producing element of the grain. But, in order to do you any good, it must be thoroughly digested, and it is right here that such a food as Grape-Nuts renders special service.

Grape-Nuts, made from wheat and malted barley, supplies the meat of the wheat in most digestible form.

That is because in the making of Grape-Nuts a large proportion of the starch is converted into dextrins and maltose—forms into which all starch elements must be changed before they can be assimilated by the system.

Grape-Nuts not only digests easily, but also aids in the digestion of other foods.

Crisp, delicious Grape-Nuts with milk or cream is a complete food. It supplies the life-essential vitamin-B; also iron, phosphorus and other important mineral elements for nerve, tooth, bone and other body structure.

The daily use of Grape-Nuts is a form of health insurance which has demonstrated its value for more than 25 years.

SLIPOVER FROCK IS POPULAR;

BATHING SUIT AND BEACH ROBE

FROM very humble beginnings the slip-over apron dress has been elaborated to a point where it is accepted as a proper costume for informal wear throughout the summer season. This year dresses of this classification are being made not only of cotton and gingham, but also of finer materials, such as tub silks, pongee, dimity, dotted swiss, French gingham and linen, as well as ratine and heavier gingham. Organize or self-material may be used for pippings, pockets and panels, or as collars and cuffs.

In the garments shown below, wash

in the picture appeal to the ideal of the most fastidious.

The knitted beach robe with its accompanying suit has just the dash of color one longs for at shore resorts. Its inspiration is traced to the colorful Navajo blanket. The long graceful robe is a protection against the sun and appeals to those who are looking for a garment that combines utility with style superlative and highest aestheticism.

Among practical knitted bathing suits the most popular are those of all wool regulation offered in a wide

Wash Silk and Striped Dimity

silk printed in a fine check is used in the model at the left. Plain silk forms the binding of the long sailor collar and the two patch pockets. A band of the same silk finishes the short sleeves. A narrow white leather belt holds the fullness at the waist.

Striped dimity is used in the delightfully cool and fresh-looking dress shown at the right. Two long steepled panels are placed at the sides, forming pockets at the top; these are further ornamented with rows of pearl but-

range of solid colors with introduction of gay stripes.

Round, square or V necklines are approved in wool jersey models and choice color combinations are to be had such as navy and red, navy and green, brown and tan, black and purple, jade and white, also tan bordered with nasturtium.

There is a general feeling for bright color. An effective color which seems to fit into the line of the sky and ocean, is the new sea blue. A knitted

Knitted Suit and Cape

one-piece garment in this lovely shade is enhanced with gray stripes. Another effective combination is solid yellow with trimmings of black and white check.

A new effect in knitted beach capes is the accordion plait, attained through clever novelty stitch.

RECORD IN CROPS

Western Canada Farmers Assured of Bountiful Yields.

Conditions Reported From All Parts of the Provinces Satisfactory in the Highest Degree—Pass Expectations.

From as early as April 17, when seeding became general throughout the Western Canadian Provinces, was there anything but optimism in the feelings of the farmers of that country. An uninterrupted chain of favorable conditions have bound the early seeding data with the conditions of the crop today. There were no setbacks. There may have been a hail storm or two with some ill effects through portions of the country, but the track they took was so small that the percentage of loss was almost imperceptible compared with the whole. Rains fell just when needed, the sun shone as if regulated by the farmer himself, the ground, generally, was in perfect condition and fully responsive. It is now a question of rivalry between districts and provinces which will produce the greatest results in crop yields and averages. Out in Alberta, whether it be in the north or in the south, that which gave assurance, in a well-prepared seed bed, of an excellent crop is passing expectation, and experts say there will be produced a crop away greater than ever before in the history of the province, and Alberta has had some big yields. Then, in Saskatchewan there exist the same conditions. The extreme north and extreme south will vie with the east and west in the story at harvest and threshing time.

Manitoba, while not boastful, emphatically watches fields of wheat, oats, rye and barley that promise to set a new record for that province.

The fact is apparent that Western Canada will have a crop yield in all grains away ahead of any year in the history of the country. This will be pleasing news to the thousands in the United States, who have friends and relatives farming in that country. It should not be forgotten that these crops will be raised on land that in many cases cost less than \$40 an acre and some of it was procured by merely homesteading. It is possible today to secure improved farms at very low figures, as well as raw or virgin prairie. Any Canadian government agent will gladly give information as to the condition of the crops, and dates when special rates may be had by those who wish to look over what is probably one of the greatest grain fields on the continent.—Advertisement.

Location He Was Looking For.

A street mendicant, noticing that a pal was trailing a citizen, fell into step and inquired: "Why are you following that man?"

"I heard him say," explained the pal, "that he was on Easy street."

This explanation was mullered over for a block. And then: "What if he does live on Easy street?"

"I just wanted to locate it. I've always thought I'd like to work the back doors along that boulevard."

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healthy influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. Dr. Kilmer's Swamp-Root is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for sample bottle. When writing be sure and mention this paper.—Advertisement.
