SCHOOL NOTES

The Senior High School attendance for the first month was 98%. There were seven cases of tardiness during the month. This is a good record. We urge parents and pupils to cooperate in maintaining a high percentage of attendance, as regular attendance is essential for good work.

There are sixty three non-resident pupils enrolled in the Senior High this year. The tuition received is \$108 per pupil for the year.

The High School paper staff are planning to publish the first issue of the Mirror October 25. Vacancies in the staff have been filled and reporters appointed. Considerable interest is being shown, and plans made to make the Mirror of 1923-24 the best published by pupils of R. C. H. S.

The Science classes this semester are: physics, agriculture and biology. Our school has one of the best equipped and furnished laboratories for a school of this size and class. The practical side with its relation to life and work outside of school is emphasized. The work consists of four periods of laboratory per week and recitation three periods. Field trips are taken when ever considered advantageous.

Several boys of the physics class made a trip to Amesby to study the hydraulic ram installed there. They watched it work, inspected its parts, and were well interested as to the use and value by Mr. Fildie, the owner. The boys made a complete report of their project to the class, illustrating their talk with well drawn sketches.

The Undergraders has been studying the domestic animals, their habits, uses etc. They have held a milk-ling farm stand on the school table. The fourth month has now evened out all but three remaining 100%.

The first grade is spending more time upon reading and phonics, endeavoring to read naturally and with expression. They hope to be able to have the Deason system mastered before long, so they may take up a new system which is being introduced.

In hand work and on the sand table the children are working out the life of the Indians, leading up to the life of the Pilgrims and harvest time.

The second grade is making booklets for autumn leaves they have gathered and pressed.

The third grade has won the half holiday for the highest average in attendance every Friday afternoon of this school term. The averages were 100% for the first week, 99.1% the second and 97.5% for the third week.

The fourth grade is beginning an intensive study of the people of North America. We have begun with the life and country of the Eskimo. This will be followed by the Indians of the North country, the Canadians, the people of Labrador and Newfoundland, our own people and lastly the Mexicans and people of the Sugar Islands. We plan to make booklets containing pictures and stories about these people. Already four splendid books on the life of the Eskimo, loaned us by Miss Swartz have been read by the pupils.

Some of the devices used by the fifth grade in studying the Indian are: stereoscopic views, stories, phonograph records, Indian games, collection of Indian pictures and curios. The curios are brought by the pupils and each tells the story of their curio.

The pupils of the sixth grade have been making salt and flour maps in their study of the surface and drainage of Nebraska. Now they are making a collection of the various soils of Nebraska. The history class made Columbus booklets, containing the story of his voyage.

In the flag contest given by the Anti-Saloon League Friday evening, September 21st, the seventh grade pupils were the winners.

The seventh grade are taking an unusual amount of interest in their study of hygiene as presented by Gregg's Hygiene by Experiment. This text seeks to give the pupil: 1st the necessary motivation for the study of the subject through the appeal to his normal interests; 2nd, the necessary sense experience by which to interpret the terms of the book; 3rd the necessary stimulus to guarantee the fixing of the proper health habits. Friday afternoon the pupils will dramatize "The Story of Contagion."

Mrs. A. R. Garrett and children left for their home in Farmington, New Mexico Wednesday evening on train 17. She has been here for the past month visiting with her sister, Mrs. Miner Sherwood and family.

Mrs. Burgess of Long Beach, California, arrived here Tuesday morning on number 16 for a visit with her daughter, Mrs. N. B. Busp.

SCHOOL NOTES

By County Superintendent S. Ducker Teachers' examinations will be given this year on the following dates:

- October 20, 1923
December 1, 1923
January 19, 1924
April 12, 1924
May 20-22, 1924
June 27-28, 1924
August 22, 1924

The Webster County Agricultural Society meets October 9 to 12, 1923. Article 22 schools and article 6 schools are classed as town schools in the catalogue. By a mistake in copying from the State Fair list it appears as though the town schools were left out. This is my oversight which I make haste to rectify.

The Webster County Agricultural Society meets October 9 to 12, 1923. Article 22 schools and article 6 schools are classed as town schools in the catalogue. By a mistake in copying from the State Fair list it appears as though the town schools were left out. This is my oversight which I make haste to rectify.

The best premium offered in the fair is for the parade. This should carry out some idea or represent some event or undertaking either of the present or past and it should be apparent what its aim is.

Teachers' Examinations will be given in Red Cloud, Guide Rock and Blue Hill, and in any other place where they will be carried on carefully and will bear their own expenses. The state has decreed that the papers must be sent sooner than in the past so that all papers must reach Red Cloud by Monday after the examination. Algebra, geometry, arithmetic, reading, civic agriculture, spelling, drawing, penmanship, English composition are morning subjects.

Botany, music, grammar, history, geography, theory and art mental arithmetic, physiology, bookkeeping are afternoon subjects.

November 18-24 is American Education week.

Sunday, November 18: For God and country "A Godly Nation Cannot Fail".

Monday, November 19: Constitution day—"Ballots Not Bullets".

Tuesday, November 20—Patriotism day—"America First"

Wednesday, November 21—School and teacher day—"Improve the School"

Thursday, November 22—Illiteracy day—"No Illiteracy in 1927."

Friday, November 23—Community day—"An Equal Chance For All Children"

Saturday, November 24: Physical Educational day—"A Sick Body Makes a Sick Mind"

The State teachers program of the fifth district of the Nebraska State Teachers' Association will be given November 1 and 2 at Holdrege. A great deal of attention will be given to improving rural conditions. This meeting is well worth attending.

Will Hines went to Wymore Sunday morning to spend the day with his parents, returning home on No. 17 that evening.
