Damages Orphanage

Damage to the extent of about \$20,000 was inflicted on the Christian Home Orphanage at Council Bluffs, Iowa, by floods from excessive rains and cloud bursts on the nights of September 28 and 29. Every building at this great institution was damaged, the heating, lighting and power plants rendered useless for several days and the store rooms in the basements of the buildings were flooded and thousands of dollars worth of supplies ruined. This is the worst catastrophe that has ever befallen this work, and comes as a serious blow when the institution was already struggling to free itself of debt. This institution is non-sectarian, receives orphan and destitute children from all parts of the country and is supported entirely by the voluntary contributions of charitable people. It is appealing to the public for a Thanksgiving offering to help overcome the losses by the recent floods and to meet running expenses in the daily care of two hundred and fifty inmates. We have had calls from those in distress in foreign climes and have responded to them. Here is a good work right here at home that has met serious trouble and is now asking us for help. Let all send some thing at Thanksgiving and help to put the home of those little children back on its feet. Address: The Christian Home Orphanage, Council Bluffs, Iowa.
