The Lie in Parliament. London, Aug. 17 .- When the house of commons began its regular work Sir Richard Webster, Conservative member for the Isle of Wight division of Hampshire and formerly attorney general, moved that a certified copy of the trial and conviction of Michael Daly, the dynamiter, who was recently elected to parliament, representing Limerick,

although convicted in 1884 of having been engaged in dynamite conspiracies, be furnished to the house and that the governor of Portland prison present a certificate that Daly was still a prisoner in that prison. John Redmond, member for Water-ford City, Parnellite, said that he

recognized in that motion the first step in proceedings aiming at overriding the unanimous action of the electors of Limerick and he protested against It and insisted upon a division.

The motion was carried-314 to 77and the Daly matter was made the order of the day for Monday. Mr. Redmond moved an amendment

to the address inviting the government to declare that there would be no delay in the Irish policy. Five-sixths of the electors of Ireland had declared in favor of home rule, and he protested that the verdict of the election was not against home rule. He warned the government that Ireland could not be satisfactorily governed from Westminster and that the only remedy for her ills was the national self government. Regarding land legislation, he admitted that the only remedy was compulsory purchase by the tenants.

Graid Baltour, chief secretary for Ireland, declared that Ireland was prosperous and crops good, and there was no seed for hasty action on the land question.

Timothy Harrington declared that the Liberal party had fled from lone rule, whereupon Dr. Charles K. D. Tanner shouted out "A He" Loud and indignant cries of "Order" were heard from both sides of the hou e.

MUST BRAVE THE KURDS

Difficulties in the Way of Recovering Bicyclist Lenz's Body.

WASHINGTON, Aug. 17 -The state department has received a dispatch from Minister Terrill in Turkey stating that for the past three months he has been urging the Turkish authorities to permit an investigation of the circumstances of the death of Lenz, the bicyclist, killed by the Kurds. Mr. Terrill says that in order to comply with the request of Mr. Sachtleben, sent by Outing to investigate the case, that he be given authority to search the residences of the Kurds for relics of the bicyclist and proofs of his death, an army would be necessary. These Kurds live in the hills and mountains and would not permit a stranger and a foreigner to enter their houses, even though armed with authority of the Turkish government. Mr. Terrill says he expects to secure a guard of Turkish troops, which will accompany Sachtleben into the country of the Kurds for the purpose of recovering the remains of Lenz.

The Silver Conference.

WASHINGTON, Aug. 16 .- When the national silver Democratic conference reassembled yesterday afternoon the programme committee reported through Senator Daniel that it was ready to report, and the conference proper adjourned until this morning. while the program and resolution committee met again and remained in session for several hours. At this meeting each member gave an account of the condition of the silver movement in his state and pointed out what he thought was necessary to strengthen the sentiment in favor of free coinage.

When the conference was called to o der again at 10 o'clock this morning, the committee on resolutions and program was still unable to report and it was suggested that the conference should listen to speeches by those present.

C. P. Cockran, editor of the St. Joseph, Mo., Gazette, first spoke. said that it seemed anomalous that a meeting such as the present should be called, for he knew of no doctrine of the party which was not in consonance with the purposes of this conference. Congress was the place to look for the declaration of the party's belief, and he declared that gold monometallism would be more disastrous than war, pestilence and famine. It was important to settle first what was Republicanism and what Democracywhether such men as ex-Senator Thurman and Senator Harris or Senator Sherman were to be the leaders of Democratic party. He declared silver agitation would not die out, but would continue until the end for which it had been originated should be attained. He also declared against the perpetuation of the national banks, whose tyrany, he said, was the greatest that any people would bear. The national banks were directly opposed to Democracy. He was for a declara-tion for silver without regard to the prospect of success or failure at the

MR. STONE READS THE ADDRESS

This was divided into two sections, one consisting of an address to Democrats and the other of the plan of organization. The address was read by Governor Stone of Missouri. It disclaims speaking with party authority, the assem-blage being a voluntary one, but strongly represents the opinion of the conterence, that the party should declare for free coinage of silver. It concludes "Duty to the people reas follows: quires that the party of the people continue the battle for bimetallism until its efforts are crowned with success, therefore be it

"Resolved, That the Democratic party in national convention assembled, should demand the free and unlimited coinage of silver and gold iato primary or redemption money at the ratio of 10 to 1 without waiting for the action or approval of any other

"Resolved, That it should declare its opposition to the issuing of interest bearing bonds of the United States in time of peace and especially to placing the treasury of the government under the control of any syndicate of bankers and the issuance of bonds to be sold by them at an enormous profit for the purpose of supplying the federal treasury with gold to maintain

the policy of gold monometallism. With a view to securing the adherence to and adoption of the Democratic financial policy above set forth by the Democratic national convention to be assembled in 1:96, and of the nomination of a candidate for the presidency well known to be in hearty sympathy therewith, we hereby pledge our mutual co-operation and urgently recommend to our Democratic brethren in all the states to at once begin and vigorously and systematicaly proscente the work of a thorough organigation, and to this end the adoption of the : lan or organization herewith submitted is recommended.

Carib Indians in British Honduras Massa

NEW YORK, Aug. 10.—According to a letter from Belze, British Honduras, just received in Trenton, N. J., English planters in the Straum creek district, which is settled by upwards of 2,000 Caribs, whose reservations or plantations embrace most of the ground under cultivation, and by English, planters who have in their service 4,000 Jamaica negroe, applied to the colonial legislature for permission to construct railroads from their plantations through the Carib reservations to the Permission was granted and the surveyor general was authorized to survey the routes. The rails for the road arrived from England three or four weeks ago.

As soon as the Caribs found it out a number of them went to the English planters and warned them not to the rails upon their reservation if they desired to avoid serious trouble. The English planters laughed and the work went on. The English thought the Caribs meant nothing by their threats, but late on August 3 the Caribs in large numbers, armed with machetes, advanced upon the negroes at work on the railroad and ordered them to take up the rails. The negroes refused and threatened to attack the Caribs unless they cleared out. They went away but returned in less than an hour in great force and began to tear up the rails.

The infuriated Englishmen ordered their negroes to try a little fighting. The moment the negroes raised their weapons the Caribs rushed upon them and with their machetes hacked and chopped the negroes to pieces. negroes fought bravely and killed many of their antagonists, but they could only stand against the Carlbs two hours. Between 500 and 600 negroes in all were killed and almost as many injured, while of the Caribs about 200 were killed and twice as many wounded, some mortally,

As soon as the negroes were forced to beat a retreat the Caribs went to work and tore up every foot of rail, damaged many of the English piantations, and destroyed fruit and rubber to the value of many thousands of dol-

LOST BY THE TREASURY. Δ Large Sum of Gold Has Been Exported to Europe.

WASHINGTON, Aug. 14.-The trensary yesterday lost \$1,650,000 in gold for export to Europe, leaving the reserve only about \$1,300,000 above the \$100,000,000 point.

Mr. Curtis, the acting secretary, said he had nothing to say in regard to the matter. He had no specific intormation and could not say whether the syndicate would allow the \$100,-000,000 to be encroached upon or not. None of the other officials would talk in the absence of Secretary Carlisle, This heavy withdrawal has given rise to a report that another bond issue is impending, but there is no one in Washington who can speak authorita-

tively on the subject, or who has in-formation not shared by the public. The best public opinion is that the syndicate will not allow the reserve to e encroached upon until after October I, when, as generally understood, its obligation ceases. But even in the event of still further withdrawals, it is believed that both Mr. Cleveland and Mr. Carlisle would see the reserve reach a point below any that it has yet touched before they would take any steps to recoup it by another sale of bonds or purchase of gold.
