### The Nebraska Club.

The executive committee of the Nebraska club met in Lincoln and took steps to push forward the work of the organization. Several very important matters were put under way, details of which are withheld pending completion of plans.

Secretary Williamson made a comprehensive report of the work up to the present time. He showed a map, on which he has indicated the growth of the idea. In fifteen counties auxiliary organizations have been formed, and the club has members in sixteen, while workers are busy in thirty. Arrange-ments have been made with the railroad companies by which missionaries may reach the states of Illinois, Iowa, Michigan, Ohio and others, from which Nebraska has drawn an excellent class of citizens. Only counties in which auxiliaries have been organized are entitled to this benefit. Another plan that has been perfected is to get into the columns of the state papers matter prepared by an experienced journalist, which will treat especially of the resources and attractions of the counties

organized. C. H. Morrill of Lincoln, J. E. Smith of Beatrice and W. H. Lanning of Hasttings announced themselves as three of lifty who would take 100 shares each. This will provide for half of the 10,000 shares needed to commence business OD.

#### Nebraska's Chicory Industry.

Fremont dispatch: An agent of the ferman Chicory company of O'Neill has been in town the past few days making contracts with farmers to raise chicory for its factory. It has met with success and has already 250 acres in sight. The company agrees to furnish seed for 50 cents a pound, to be taken from the first shipment or be paid in cash. It will pay \$10.50 a ton for the roots delivered on the cars at O'Neill. The contract also contains a provision similar to that in the contracts of the Norfolk Sugar Beet company, that if the state bounty is not paid then the farmer is to receive \$9 per ton at the factory instead of \$10. The roots are not required to meet any test as to but are paid for wholly by quality, weight They are to be free from earth and well topped. A few acres were raised in this vicinity last season with satisfactory results, although the cost of digging them was larger than was anticipated. The roots were so long that no machine would work satisfactorily and they had to be spaded up by hand.

#### Working Nebraska Gold Fields.

Crete dispatch: The gold prospect ors here are by no means idle. There was general dissatisfaction with the result of the last washing of sand off the Norris farm Last week a syndicate of five prominent business men was formed for the purpose of thoroughly testing the sand from the Norris farm. The sluice boxes were improved by inserting copper plates in each box covered by quicksilver, Quicksilver was also placed under all riffles in the boxes. Five loads, carefully measured and weighed, were hauled to the sluices. These five loads contained exactly five tons of sand. The washing was done very slowly and the results of the clean-up are axiously awaited. From all indications the result will far exceed that of the last experiment. Should it be satisfactory actual work to sinice the entire deposit of sand will at once be commenced. The result of the cleanap is now in possession of Prof. Hosford of Doane college to be retorted. When that is done the actual amount of gold in the five tons will be known.

SO NEAR AND YET SO FAR.

The Senator's Re-Election Seemed Assures on the Forty Second Ballot, But the Friends of Carliste Railled the Sound Money Men and Forced a Deadlock - Populists

Vote for Him.

#### FRANKFORT, Ky., March 9 -- Senator Blackburn narrowly missed re-election in the joint assembly to-day. In fact, his election was announced on the strength of a bolt to his side by Populist Poor and other followers of carlisle, but the gain was quickly covered by the sound money advocates, some of them Republicans, who rallied other bolters to Carlisle's side.

There was another big crowd present to see the forty-second ballo taken. The roll call showed 124 members present, necessary to a choice sixty-three. The pairs numbered seven. Senator Elliston led off by voting for Carlisle. He was followed by Senators Holloway, Noe, Salyer, Smith and Stephenson. The Repub-licans voted solidly for Boyle. Baird was the first Demotrat in the house to vote for Carlisle. After him came Carroll, Dougherty, Norman, N. B. Rice, Speight, Swinford, Violett, Walker and Witt.

There were no speeches of explanation to-day from anyone until the roll call had been completed, when Populist Poor arose and said that it had been said that there was no hope to elect Blackburn. He believed that that time had now arrived. He would cast his vote for Blackburn. (Cheers. Then one by one, amia cheers from the friends of Blackburn, the follow ing Democrats changed to Blackburn from Carlisle: Elliston, Smith, Witt, Stephenson, Dougherty, Noc. Salyer, Baird, Holloway, Rice, Norman.

Mr. Baird, in explaining his vote. said that he was opposed to the Demceratic nominee's views on the currency question, but as there was no chance to elect their caudidate, he would east his vote for that candidate. Wild cheers.

Senator Holloway spoke in explanation, as did Senator Salyer. They the ground that it was their took duty to vote for the nonlinee whenever there was a chance to elect him. Representative Chambers, who was paired with Senator Weissinger, said that he wished to vote.

Senator Bronston protested and said that the Republicans should see that the pair was not broken. James arose changed his vote to John G. and Carlisle

At this Representative Lyons arose and caused the wildest excitement by saying that if any attempt was made to cleet John G. Carlisle he would vote for Blackburn. This statement was cered by the friends of Black-

PLANT CITY, Fla., March 9 .- In a desperate battle with regulators, Bowen Sykes fatally shot foor men aud wounded six others seriously.

Sykes lives in Hillsboro county and had incurred the enmity of his neighbors. Within the last ten days he had received notices to leave. Wednesday morning Sykes found a rudely drawn coffin on his front door, and underneath a statement that, unless he left inmediately, he would be killed. Sykes prepared to defend himself against the expected attack, which came Thursday morning about 1 o'eloele.

At that hour a mob of fifteen masked men broke down the door , and entered the house. Sykes was ready, and as the regulators entered, he opened fire with a Winchester rifle. Soon four of the regulators were down and the others fled. Sykes continued to fire at the fugitives as long as they were in range and is confident six others were wounded. Sykes then tore the masks from the four men who had fallen, and found that they were John and Atonzo Barnes, John Gilliland Dennis Driggers. The Barnes and brothers were shot through the head and cannot live. Gilliland and Drig-gers were shot in the chest and their wonnels are fatal.

Sykes came here, reported the tragedy and swore out warrants. Officers man in it.

### NO CUBAN RECOGNITION.

#### President Cleveland and Cabinet Strongly Opposed to It.

WASHINGTON, March 5 .- The President and his Cabinet are undoubtedly opposed to the present recognition of belligerency of the Cuban insurgents and to any declaration concerning their independence as embodied in recent Congressional resolutions. The following is not an official statement, but it is known from careful inquiry that it accurately represents the administration's views in the matter.

While the President and members of the Cabinet personally feel the sympathy common to all Americans with these Cubans who are contending for self-government, they feel that in their official action they should not depart from the well-settled principles which were followed by former Presidents and Secretaries of State during prior insurrections in Cuba. These were clearly set forth by General Grant in his message of 1875, in which he dealt with the question of the recognition of Cuban independence and also with that of the recognition of helligerency.

Both independence and belligerency are facts, and their recognition by other powers, as the term implies, is merely formal acknowledgment of a state of things which, rightly or wrongly, has come about.

When a people, united under some known and defined form of government, which administers its functions by the usual methods, come to occupy and control a known territory over which it is competent to administer justice and within which it affords protection to citizens and strangers, a new state exists. Refusal of recognition would not change the fact, any more than premature "recognition" could create it. The former would be merely a slight to the new government, just as the latter is merely an affront to the old one, The question necessarily is always what government is actually in control of the country.

Recognition of belligerency depends upon the same facts, and is only a modified form of recognizing independence, though the latter implies more perfect accomplishments.

The pretension of recognizing what does not exist "is always, and justly, regarded as an unfriendly act, and a gratuitous demonstration of moral support to the rebellion."

It is understood that, judged by these tests, the administration does not think the present state of affairs in Cuba justifies any change in the attitude of the Government. Its function is to act and not to express feeling.

## For Country's Sake.

AN INDIAN FIGHTER SUFFERS AGONIES FROM DISEASE.

#### He Was in the Battle With the Apaches When Geronimo Was Capture L.

From the Press, New York City. Worn with the exposure of army life on the frontler, and poisoned by the continual drinking of alkali water, Joseph Flegaut returned to Philadelphin eight years ago, broken down in health and unable to do any work.

He had served five years with the Ninth United States Infantry in many desperate fight with the Indians in Arizona and other frontier states and had won an enviable record. In the flerce conflict when Geronimo, the famous chief of the Apaches, was captured, Mr. Fleugauf was among the brave soldiers who, forgetful of everything but duty, charged upon the hos-tile Indians.

Life on the plains sent to an untimely death many soldlers who were never touched by a redskin's bullet or arrow. and Mr. Flegauf came near such a fate as that. A long time before his time was out he was taken seriously ill, but he stuck to his post until an honorable

discharge was finally given to him. When he reached Philadelphis, the Indian fighter was scarcely more than skin and bones, and for three weeks he lay desperately III in a hospital. He feit dizzy, and his stomach felt as if it had dried up. These symptoms were accompanled by bloody dysentery, which no medicine seemed to relieve.

After two years of suffering, Mr. Flegauf came to New York and was did not agree, some calling his disease catarrh of the stomach, and others chronic diarrhoea.

In speaking to a reporter about his illness Mr. Flegauf said the doctors helped him, but, with all the money he spent for advice and medicine, he was able to work only a small part of the time. Since moving to his present home, No. 517 West Forty-second street, in New York, about a year ago. M. Flegauf has been so ill that his voice

The and hearing almost left him. Then all medicines failed, and the sick man had little hope of recovery. At this critical time Dr. Williams' Pink Pills for Pale People were recommended Mr. Flegauf, and, almost as a last hope, he began taking them.

"The beneficial effect of the medicine was felt at once." Mr. Flegauf told the reporter, "and before I had taken a box I begun to eat with relish. Three boxes made me so much better that I began work and have been able to keep at it ince, for five months

Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are for sale by by all druggists, or may be had by mall from Dr. Williams' Medicine Company, Schenectady, N. Y., for 50c per box, or six boxes for \$2.50.

#### The Coming Fashionable Bonnet-

That plaited straw, yellowish in tint, will form the fashionable bonnet there can be no doubt. But the shape selected will depend this season more than ever before, on that fancied by the wearer. Since the Directoire, First Empire and Louis Sixteenth styles are all in vogue with a suggestion of the large bonnets fancied during the early part of this century, and the small bonnets such as were in vogue among the beauties of the Second Empire, it would seem as if every face should be suited. The fact that the stock and the jabot are growing nearer and nearer to the intion was offered for adjournment to ears means to say the milliners, the March 11, one week earlier than the coming in of ribbon ties, and broad ones at that. THOMAS MOORE, who has been digging at a vein of coal recently located near Rock Bluff, south of Plattsmouth. has struck an extra vein of coal that promises to yield heavily. The vein, when first struck, was not considered worth working, but after digging a while it was discovered that it was growing larger and now indications are that the affair will make its owners some money.

WASBINGTON dispatch: Senator Thurston today reported favorably the bill to authorize and encourage the holding of a trans-Mississippi exposition at Omaha in 1898. The bill was reported substantially as presented. with the exception of a few amendments to make it more nearly correspond to that which was more recently introduced in the house by Congressman Mercer.

DISTRICT ATTORNEY SAWYER, on behalf of the government, has begun suit in federal court against the Burlington railroad company to restore to the publie domain land estimated at 200,000 neres in north central Nebraska claimed by the company under the act of congress of 1864. The government bases its suit on the ground that these lands were never ceded, but that the road took possession through the failure of the government to provide the number of sections agreed upon along the line in the South Platte country. The railroad company has long since disposed of much of the disputed property and nearly 1.500 settlers will be affected by the suit.

#### The Mortgage Record.

Auditor Moore has completed the record of the mortgage indebtedness of Nebraska for the year ending December 31, 1895. The total farm, town and city and chattel mortgages filed for that year show a decrease of \$9,183,-977.04 from that of the year 1894. To offset this, however, there is a corresponding decrease in the total amount of satisfactions, the satisfaction of farm, town and city chattel mortgages for 1805 being \$9,289,577.42 less than for the same period in 1894. The total decrease of farm mortgages is \$4,118,-022.75; total decrease of chattel mort gages. \$3,337,287.62. In town and eity mortgages for 1865 there is a decrease of nearly \$2,000,000, and a corresponding decrease in the amount of satisfactions. The number of sheriffs' deeds and other deeds in foreclosure are about the same for the two years.
