## CZAR'S VISIT UNLUCKY.

Minor Mishaps in France Cause Super

stitious Comment. Paris, Oct. 8. - A series of unpleas ant incidents has marked the visit of the exar of Russia to France and su perstitious people are busy comment ing on the matter. First came the gale in which he crossed the channel and which nearly wrecked the decora tions at Cherbourg, as well as caused a slight mishap at the landing. Ther came several slight misadventures a Cherbourg and on the way here These were followed by the backing of the imperial carriage against the curbstone by restive horses, during which the czarina was struck in the face by a shrub and forced to abandon her visit to the Elysee. Finally the performance at the opera last night was terminated abruptly in the middle of the ballet owing to the illness of the ezar, which, it is said, was occasioned by the bad cooking at the Elysee palace. What effect these various mishaps will have on the czar's feelings no one can say, but there are many who fear that he will remember these more strongly than the enthusiasm of the million people who greeted him yesterday and the reception given by the President and statesmen. He is known to be very superstitious and it is feared that the untoward incidents will affect him unfavorably

# Gettysburg Survivor.

From the Journal-Press, St. Cloud,

Each day, each month, each year, the Grand Army of the Republic in growing smaller. Almost each hour is some veteran soldier of the Rebellion responding to the call of the Great Commander and joining the army of the silent majority. At such an alarming rate is the death rate increasing among the army membership that statisticians tell us that it will be but a few years before the Veterans will be but a memory. It is for this reason that the entire public is interested to hear of the recovery from sickness of a comrade.

James M. McKelvy Post G. A. R., of St. Cloud, Minnesota, contains one such, Milton F. Sweet. No man stands higher in the community than does he and through his strict integrity and honesty of conviction he has won the respect of all who know him. Mr. Sweet has for many years been a resident of Minnesota, and for the past ten years has resided in this city, where he is engaged in the manufacture of carpets. He is now fifty-one years of age. He served in the war three years and seven months, with Company G, New York, participating in sixty battles, including Gettysburg, During the war Mr. Sweet contracted

heart disease, which was accompanied by excessive nervousness. As age increased his symptoms grew worse and many were the remedies resorted to by him without the slightest relief.

We will let Mr. Sweet tell the story in his own words:

"Six months ago, at the suggestion of a comrade, who had been benefited by Dr. Williams' Pink Pills, I began their use, and I very cheerfully state that they have invigorated and built the property of the p up my nervous system in a wonderful way. They have done me a world of good and I have been greatly benefited by their use, where everything else I took failed to give me the relief I sought for. I have recommended them to a large number of my old comrades and it is a pleasure for me to do so, for I feel that the manufact-urers are deserving of any good that I can do them in saying a good word for their product, in return for the good they have done me. I will gladly recommend these pills to any one writing me if they doubt the genuiness of this statement."

when interviewed, Mr. Sweet felt so grateful for the good that he had received through Dr. Williams' Pink Pills that he did not have the slightest hesitancy in going on record. His hesitancy in going on record. His word is considered his bond by all who know him throughout this section. Mr. Sweet is not the only one in Stearns County who is using this celebrated medicine and with equally good re-

Sults.
Subscribed and sworn to before me this 12th day of June, 1896.

JOSH BILLINGS' PHILOSOPHY.

Comik writers are allwuss expected to be phunny when they talk, and, in the effort to be so, are often very silly. Book-larning iz good, but too mutch ov it konkokts kruditys, which have been known to sour on the intelektual

found cluss to the bed-rock. Mi natur prompts me to make fust advances. I hav often been snubbed krewelly for this, but I kan't help it, kan I? I shall fite it out on this line.

Yu kan't allwuss judge bi appearances. I hav often known a whole shirt to be compozed entirely ov a paper collar and a pair ov cotton wristbands.

I hav allwuss notissed that thoze circles which are the most exklusive hav but little individual strength; mutual admirashun iz the pap that sus-
