Shopping In London.

One of the erroneous impressions that Americans have before they try shopping in London is that things are remarkably cheap there, and when they are set right by actual experience with the fashionable dressmakers and haberdashers they get a second mistaken idea that English tradesmen are extraordiparily uncivil. This all arises from the different customs that govern retail business in the two countries. In America we pay cash for goods or settle our accounts monthly. In England, however, accounts are supposed to be rendered quarterly, and it has frequently happened that because some patrons have a social prominence that gives their trade value as an advertisement the shopkeeper has allowed their accounts to run for three and four years. Other patrons have demanded the same privileges and have abused them, and the result is that to compensate for interest on money owing by solvent debtors and for the sums lost through those who never pay the tradesman charges a goodly profit on all his goods, and the prices are accordingly high. On the other hand, American women shopping abroad seem to be bargain mad, and their efforts to beat down prices inspire the tradesman with much the same feeling that a well trained butler experiences when his nouveau riche master econcmizes on his wines. In fact, looking for bargains in Bond street is folly .- San Francisco Argonaut.

Lord Byron.

Here is a new light on the character of Lord Byron. The quotation is from a letter by John Murray:

"Lord Byron is a curious man. He gave me, as I told you, the copyright of his new poems, to be printed only in his works. I did not receive the last until Tuesday night. I was so delighted with it that even as I read I sent him a draft for 1,000 guineas. The two poems are altogether no more than 1,200 and 1,000 lines and will together sel! for 5s. 6d. But he returned the draft, saying that it was very liberal-much more than they were worth; that I was perfeetly welcome to both poems to print in his (collected) works without cost or expectation, but that he did not think them equal to what they ought to be, and that he would no admit of their separate publication.

"I went yesterday, and he was rallying me upon my felly in offering so much and that he dared to say I thought now I had a most lucky escape.

" 'To prove how much I think so, my lord, ' said I, 'do me the favor to accept this pocketbook,' in which I had brought with me the draft, changed into two bank notes of £1,000 and £50, but he would not take it."

A Transformation.

Soon after my arrival in Leipsic my attention was called one day to an elderly gentleman on the street.

"Do you see that old gentleman with the big soft felt hat, the blue glasses and the big umbrella?"

"You mean the one who is shambling along as if he were not just sure where he is going?" "Yes, but you should not speak so

disrespectfully of the greatest of living psychologists.'

But the mistake was pardonable, for few would have supposed that he was not some plain village burgher who had just come up to town and felt somewhat lost in the big city. Once in Wundt's lecture room, however, one receives a very different impression of him. As the great philosopher pours forth one of his learned discourses those plain features light up, his bearing becomes dignified and impressive, and you no longer think of the ungainly walk and the quaint mannerisms .-Roanoke Collegian.

On the Wrong Track.

Slims recently received private information that his son was not confining himself strictly to the straight and parrow path. There were ugly rumors that the young man played cards and bet on the horses. Slims determined to double his parental vigilance. The other evening he turned to the young man who was deep in a newspaper and inquired sharply, "What are you reading. "A column under the head of 'What the Book Makers Are Doing?' "

"I'll tell you what they are doing, sir," said the old man severely. "They are living luxuriously this winter and laying their plans to fleece such lambs as you next season. They keep up the race tracks and get rich by fooling noodle pates like you. I've heard all about you, sir, and your wild ways. Order that paper stopped. What are you laughing at, you young rascal?"

TIGER AND BULL.

A Fierce Battle, In Which the Tiger Was Badly Beaten.

The Paris letter of the London Post gives details of an extraordinary entertainment given at the Plaza de Madrid in the presence of 1,300 spectators. This was a combat between a royal Bengal tiger and an Andalusian fighting bull. The tiger, Cesar, was a full grown brute belonging to Spessardi, the trainer, who had never been able to do any thing with it and had, indeed, once pearly fallen a victim to its ferocity. He sold it for 6,000 francs to the director of the plaza.

A cage 17 yards square by 4 in height had been erected in the middle of the arena, and the nuimals were brought on in vans, the bull being the first to be released into the inclosure. The brute immediately began to run round and round his prison, bellowing and throwing up sand and gravel with his hoofs.

The instant the tiger entered the cage he gave a roar and bounded on the bull, avoiding the borns, and fixed on his flanks and belly with both teeth and claws. The bull remained still for a few seconds, and then seemed to be sinking backward to the ground. The spectators thought that all was over, but the tiger let go for a second to take another hold, and in the brief interval ingford, seb. was kicked over by the wild plunges of the bull. Before the tiger had time to IN THE COUNTY COURT OF BOX BUTTE recover the bull was on him, and, sinking his horns into the striped hide, it tossed the tiger into the air. This was repeated four or five times, the bull varying his tactics occasionally by banging his adversary against the bars. When the bull stopped, the tiger lay limp on the ground, and the crowd, thinking be was dead, cried, "Bravo, toro!"

The bull stood stamping for a moment in the middle of the cage, and then, seeing the tiger did not move, approached and smelled bim. But Cesar was only shamming death and seized the bull's muzzle in his powerful jaws so the animal could not move. Eventually, bowever, he was released, and after stamping furiously on the tiger again caught him on his horns. This time the tossing, stamping and banging apparently really ended in Cesar's death. The cage was then opened and the bull w. A. Coursen, Defendants. rushed out and back to his stable. For rushed out and back to his stable. For precaution's sake the tiger's van was brought up, and, to the general surble limiter plaintiff herein, filed his petition in the District Court of Rox Butte county, New York and Stable Present Surble Present precaution's sake the tiger's van was prise, Cesar rose to his feet, glauced round as if afraid the bull was still there, and then bounded into the van The tiger was found to have five ribs broken, besides having a number of wounds from the bull's horns. It is said that all wild animals-bears, lions,

Easily Enough.

Here is a Sioux City (Ia.) Sunday school story:

They were studying in the catechism about the wonderful greatness and power of God. "Can God do everything?" asked the teacher. It was generally admitted that he could. They had never thought of such a thing as that, and it looked as if their faith was wavering. The teacher waited with a rather amused smile on his face. Then up shot a little hand. to one of the waiters in a low tone. At the moment when the German triumphal march was due to begin the French singer, who could hardly control her agitation, prepared to leave the table. The first chord was played, the artist arose and stood, pale, agitated, amazed, while the officers and other passengers also got up and smiled sympathetically at her. And the band played "The Marseillaise!"

Alligators can go a long way without eating, but when they do get a chance at what is called a square meal they make short work of it.
