staying on Wildy's ranch while  
Herman is east.

J. F. Peckenpaugh, night op-  
erator, has been transferred to  
Hecla. A. M. Beeman takes his  
place here.

Keith Pierce leaves for Lin-  
coln tonight where he will at-  
tend a summer school at the  
Lincoln Normal University.

Mrs. E. W. Alexander came up  
from Alliance Wednesday and  
spent the day visiting relatives  
and friends.

A. V. Burk arrived this morn-  
ing from Omaha and will spend a  
few days with his parents, Mr.  
and Mrs. S. R. Burk.

Wildy Bros. shipped a car of  
cattle to Omaha and a car of  
horses to St. Louis Tuesday. H.  
B. accompanied the shipment.

Misses Nellie Goodenough and  
Loula Blair left Monday night  
for Omaha. They will take in  
the Exposition and also visit  
their former homes.

Mrs. Baumont and little  
daughter went to Omaha Friday  
night. They will attend the Ex-  
position and visit relatives at  
Lincoln.

Examination for teachers' cer-  
tificates will be held in the office  
of the county Superintendent  
Saturday July 9. No examina-  
tions will be held July 10.

Miss Agnes Esancy and broth-  
er Wilhe departed last night for  
their home at Council Bluffs,  
Iowa. Mrs. Sherwood gave a  
party in their honor last evening  
and a pleasant evening was spent.

John Schaffer came down from  
Oreville S. D. Wednesday night  
and will remain a couple of weeks.  
John has been blacksmithing at  
the Oreville mine for the past  
three months and it seems to  
agree with him.

E. C. Loman, a B. & M. pump  
repairman, fell a distance of  
forty-five feet from the top of  
the windmill tower at Marsland  
Monday. A bone in his leg was  
fractured and he was badly  
bruised. Dr. Bellwood attended  
him.

John Strasak who resides four-  
teen miles southeast of Heming-  
ford was in town with a load of  
wheat which he disposed of to  
Miller & Wildy. Mr. Strasak is  
a good farmer and has one of the  
best improved farms in north-  
western Nebraska.

Among those from a distance  
who were present at the cream-  
ery opening Wednesday were  
Postmaster Snow, Mr. and Mrs.  
John Sullenberger and Mr. and  
Mrs. W. M. Evans of Marsland;  
Postmaster Atkin of Box Butte,  
Postmaster Wanek of Lawn and  
W. R. Kent and F. W. Feidler  
of Alliance.

The annual school election was  
held Monday. I. E. Tash was  
elected treasurer to succeed  
Anton Uhrig. Mr. Uhrig held  
the office two terms and made an  
efficient officer. He refused to  
accept the office another year.  
No doubt his successor, Mr.  
Tash, will make a capable official  
and he has already established a  
reputation for getting on the  
"good side" of school matters.

Pierre, the 10-year-old son of  
Mr. and Mrs. G. C. Alexander  
who was lost last Tuesday, men-  
tion of which was made in last  
week's issue, was found dead  
Sunday by his father in a coyote  
hole about 80 rods from the house.  
The boy had a stroke of paraly-  
sis about a year ago and it is  
probable that he was again  
stricken and fell into the hole  
where he was found. Or he may  
have sit in the hole to rest, fell  
asleep and slid down. His knees  
were doubled up which made it  
impossible to extricate himself.  
The finger nails on his left hand  
were worn off, his arm was  
bruised and there was evidence  
that he tried to get out. It was  
a very sad occurrence and the  
grief stricken family have the  
sympathy of everyone.

Mr. and Mrs. G. C. Alexander.

## CREAMERY OPENS.

### A Great Day at Hemingford.

The Hemingford creamery  
opened its doors on Wednesday  
according to announcement. The  
plant is a fine one, the machin-  
ery being the latest improved and  
the best obtainable. Messrs.  
Hause and Roval, who are prac-  
tical creamery men, have charge  
of the business. Wednesday  
morning J. C. Osborn was the  
"early bird" to bring in milk but  
E. Mabin was not far behind him.  
The milk wagons continued to  
come until ten o'clock when it  
was ascertained that eleven  
thousand four hundred seventy  
pounds of milk was on hand,  
which amount, Mr. Marple stated,  
is the largest ever supplied at  
the opening of any creamery  
west of the Mississippi river and  
he never heard of so much being  
supplied any creamery in the  
United States.

There was a very large crowd  
in town—seemed as if the whole  
country turned out. At one  
o'clock all repaired to the court  
house square where awnings had  
been prepared. Chairman Sher-  
wood introduced Prof. Haecker  
who spoke for thirty minutes on  
the dairy business.

Dr. Peters then spoke on the  
diseases of cattle and explained  
the causes of black leg and way  
to prevent it. Both talks were in-  
structive and very much appre-  
ciated by everyone. Mr. Marple  
then made a short address. He  
could have spoke a half day  
without tiring the audience.

The milkmaids drill by seven  
young ladies—Misses Sweeney,  
Kern, Parkin, Ward, Bowers,  
Hernall, and Elsie Neeland—  
was well rendered and elicited  
much applause. The German  
and Norwegian songs were an  
interesting part of the program.  
The recitation by Mr. Rouse en-  
titled "The Labor Song" pleased  
the audience. The Hemingford  
Cornet Band was in evidence all  
day and no celebration would be  
complete without it. The boys  
received many compliments from  
the Lincoln gentlemen. Heming-  
ford can boast of having one  
of the best bands in the state and  
the leading one in the northwest.

The day was spent very profit-  
ably and pleasantly and it was  
one long to be remembered.

Nikont Bros brought in 330  
pounds of milk Wednesday,  
which was the largest amount  
supplied by one person, hence  
they were awarded the prize—a  
10-gallon milk can. Henry Win-  
ten came second, having 323 lbs  
Thursday there was 11,970 lbs  
and today there is about 12,000.

J. P. Israel, editor of the Up-to-  
Date Farmer, of Lincoln, at-  
tended the opening of the cream-  
ery Wednesday. It was Mr.  
Israel's first visit to Box Butte  
county and he was well  
pleased with the country and  
people. He will write up the  
creamery and our county for his  
own paper and a Chicago Journal.

CARD OF THANKS.  
We wish to express our grate-  
tude to the many kind friends in  
Box Butte and Daves counties  
who zealously assisted in the  
search and interment of our  
little Pierre. Special, loving  
thanks are extended to the many  
young boys who took such an  
active part in the search. May  
none of you kind friends ever  
suffer as we have.  
Mr. and Mrs. G. C. Alexander.

The Hemingford Cornet Band  
will give another grand ball at  
the court house in Hemingford  
on the evening of July 4th.  
Everybody cordially invited.

## Dairy Notes.

From the Up-to-Date Farmer.

The best way to find out wheth-  
er the creamery pays the farmer,  
is to ask the farmer who patron-  
izes the creamery. The cream-  
eries invite investigation. They do  
not ask anybody to take their  
word for it.

The farmers in western Nebr-  
aska have had hard times for many  
years, as a result of repeated crop  
failures; but now they are learn-  
ing a trick or two. They have be-  
gun to appreciate the value of the  
great American cow, and their  
future is assured.

It might be a good idea, when  
the flies are at their worst, to let  
the cows run in the pasture at  
night, and keep them in some cool  
and shady place during the day.  
The popular plan is just the re-  
verse of this. The cows are kept  
in the burning field all day, and  
shut up in a barren lot at night.

Three good cows, well kept and  
properly handled, will bring to a  
farmer every month \$13.00 if the  
milk is taken to a creamery station  
and the butter fat sold at present  
prices. The milk comes back to  
feed the calves and pigs and the  
cows go on month after month  
making this record of cash income.  
What pays on a farm better than  
that?

If your cow isn't paying her  
way get rid of her. If she breaks  
through fences, get rid of her, or  
she will teach other cows the trick.  
If everything she eats goes to  
the manufacture of tallow, instead  
of milk, get rid of her. Get rid  
of every cow that is not profitable,  
or there will be no profit in dairy-  
ing for you. A few losing cows  
will knock the profits from many  
good ones.

The old fashioned milking stool  
is still in vogue in some sections.  
It has one leg, attached to a small  
piece of plank, for the milker to  
sit on. It is made in that shape  
because it is so convenient to pick  
up and hit the cow on the head.  
It also enables the milker to cap-  
size and spill the milk, with the  
least trouble in the world. We  
see no good reason why the milker  
shouldn't be comfortable, and  
suggest that an old bucket, with a  
piece of sacking tacked over the  
open end, to sit on, makes a very  
handy and comfortable seat.

We learn that one firm in this  
neighborhood contemplates pro-  
curing seventy-five cows from  
which to furnish cream to the  
coming separating station at this  
place. This is the right spirit.  
More of it will assure the McCook  
station to be a big success from  
the start, although it usually  
takes some time to make a success  
of such enterprises.—McCook  
Tribune.
