Governor Enriques also stated that he was returning to its rightful owners all property confiscated by Francisco Villa. Referring to the "retained" property of persons believed to be enemies of the Carranza government, Governor Enriques said that it would be carefully administered and conserved.

The Day's War News

PARIS AND ITS PEOPLE escaped harm in the second Reppelin raid made on the city within two days. The official statement on the Sunday night attack declares while the airship dropped a number of hombs, no damage has been reported. Most of the bombs fell on fields or open spaces.
WHILE ISOLATED encounters and

much artillery and mining activity are reported, comparative quiet seems to have settled down again upon the western fighting front, where the Germans recently reported notable successes.

ASIDE FROM along the France Belgian lines, the military areas in which chief activity is being dsplayed at present are the Balkan and Caucasus fronts, where the Turks and Russans are fighting near Erserum. Athens reiterates reports received through diplomatic channels that the Russions are surrounding Erzerum, having inflicted a fresh defeat on the Turks.

IN ALBANIA the advance of the Austrians continues, but according to reports today from German sources there is likely to be increased opposition to them in the near future. Italy, it is declared, has decided to continue its Albantan campaign and has landed another infantry division with heavy artillery at Avlona, with a view to an effective defense of southern Albania as a measure of political necessity.
