TODAY'S BEAUTY TALK

You can make a delightful shampoo with very little effort and for a very trifling cost if you get from your drugdist a package of canthrox and dissolve a teaspoonful in a cup of hot water. Your shampoo is now ready. Just pour a little at a time on the scalp and rub briskly. This creates an abundance of oil and dirt. After rinsing, the halv makes it seem heavier than it is, and takes on a rich luster and a softness that make arranging it a pleasure .-- Ad-
