HARMAN LIKELY TO BE CANDIDATE

Food Commissioner is Considering Entering the Race for Governor.

TALK MOREHEAD FOR SENATOR

(From a Staff Correspondent.) LINCOLN, Feb. 7 .- (Special.)-The fun that democrats have been making over the fact that the republicans had a superabundance of candidates for the nomination for governor may be turned in their direction at the rate filings are coming in.

The last week three candidates grew where none had grown pefore and this week there are indications of more. Those interested in the already complicated situation in that party are interested in the rumor that petitions are out for Food Commissioner Harman for the nomina-

Mr. Harman would say very little, but admitted that one petition in his behalf had already reached his office, It has long been known that the food commissioner would like to be governor of Ne braska, but as the present primary disfranchises the poor man, unless he can find someone to back him with sufficient dough to make it interesting, Harman says he has been steering clear of the proposition. But those petitions look good to him, and as Harman has some pretty well-to-do friends he might be able to find the backing.

More Morehead Petitions.

will get in before the time comes to close up the filing mill. Mayor Bryan, Edgar Howard and Ignatius Dunn of Omaha were in conference here the latter part of last week and it is expected that there may be some developments from that meeting soon. It

It is pretty well understood that both the Bryan and Hitchcock factions fear the popularity of the governor should he the watchword at this time until the efhas been determined.

However, it makes little difference what to be saved, anyhow, for Felix Newton filed today for the state legislature and so an interesting campaign is assured. Mr. Newton likes neither Bryan, Hitchcock or Morehead, and when he gets into the campaign all of these gentlemen might as well take to the woods.

Omaha Gospel Team Visits Columbus

Captained by W. E. Foshier, the followup Omaha gospel team, growing out of the recent "Billy" Sunday meetings, invaded Columbus for the week end, adding sest to the movement and securing a number of new "trail hitters." Other members of the team were P. N. Wiemer. H. C. Forgy, Harry Trimble and C. C. association building Saturday night and 40,598. Sunday morning the team divided itself into two parts, taking charge of the services respectively in the Methodist and Federated (Congregational and Presbyterian) churches.

LAND IN THE IRRIGATED DISTRICT TO BE "OPENED"

(From a Staff Correspondent.) LINCOLN, Feb. 7 .- (Special.) -- Secretary of State Pool this morning received a communication from the Alliance land office in which the officials correct the impression which appears to have prevailed that the land opening in that distriot involves the sale of 140,000 acres of land. This is a mistake, according to lot in Polk county, near shelby, the officials, and should be only 4,000

The land is situated north of the Platte river and the Burlington railroad about eight to twelve miles northeast of Bayard in Morrill county, and consists of tracts ranging from forty to 160 acres, most of first make a personal visit to the land and see what it is.

The Basis of Rates

The last few years have been arduous ones for public utilities. The cost of equipment and of labor have been constantly increasing, while there have been few increases in rates.

We do not believe that any public utility can furnish, nor the public obtain, permanent and efficient service without a fair profit.

The public is our only source of revenue, and any increased taxes, material or labor costs must always be met by the telephone users, either directly or indirectly.

We have always endeavored to adjust our telephone r to make it possible for everyone to be connected who would add to the value of the service, thus giving the greatest good to the greatest number.

We believe that the public is best served by our charging rates that will afford us enough money to maintain and operate our system properly, furnish a sufficient surplus fund with which to rebuild or restore parts of the plant when worn out, and earn a fair rate of interest for the men and women who have their savings invested in our property.

NEBRASKA TELEPHONE COMPANY

WHEN You Get Through a Path---Keep it Warm

Speaking before the Advertisers' Association of Chicago, Arthur Brisbane, the great master of English, Ideas and Practical Expression said:

"The business man's problem is to find a short way into the public's mind. After you have found your way, keep to that path. When you get through a path-KERP IT WARM. In other words, repetition.

'If we go through a path today and nobody goes through again for six months you have got to make it all over again.

"I want to impress on you that to ignore repetition, which is the daily paper, is to ignore individual opportunity of education and success. If I say something to you today, ing, evening and Sunday, which the news-paper makes possible, and if I am sayi g the right thing I cannot fail to hew my path into your brain

"Some people in London made Beecham's pills. They used the power of repetition a long time, spent a great deal of money and they thought they would coast for awhile. The Pears Soap people once did the same thing—and they found that for their failure to continue the repetition they had to spend only as much as they would have spent had they continued in the same path, but a very large sum in addition to make up for their coasting. The path had grown up with
