This is an ideal site for a fine apartment building, with side wings and court in center, and someone will pay good money for it for some such improvement in the near future, as it is in such easy walking distance from the business heart of Omaha. In the meantime the income from the dwelling will nicely carry the property. Texas Lands. A POOR MAN'S OPPORTUNITY

OPPORTUNITY

A farmer cannot get a start in this country and pay \$150 to \$200 per acre for land, because keeping up his interest takes a big share of what he makes; furthermore, he cannot hope to see his land grow very much in value. The time has passed for \$30 to \$60 land in this country so that the real, wide-awake farmer has to look elsewhere for such land. We have some A-l land in Western Texas, below the Panhandle country, that affords wenderful opportunities for the poor man. The country in question has fertile soil, rainfall has averaged \$T\$ inches per year, for livery in question has fertile and of the water supply is unlimited and of the very best quality. A great variety of crops is being successfully raised here, including corn, wheat, alfalfa, cotton, kaffir corn, maize, feterito, sudan grass, etc. This is not a desert country nor a mountainous waste, but a fast developing prairie country, with excellent railroad facilities and fast growing towns. Think of getting the price of your land back in one year's crops. This has been done time and again. Why not get into a country where you can raise good crops and see your land so right up in price each year! These lands may be bought on a payment of to \$8 per acre down, balance easy yearly payments. Write or call for descriptive matter. Come to our office and se the display of products.
