

Nebraska CANDIDATES FILING NAMES FOR OFFICE

Many Getting Busy in Preparation for Coming Primaries in Nebraska.

SPURK AGAIN IN THE LISTS

(From a Staff Correspondent.)
LINCOLN, March 8.—(Special.)—Senator F. J. Spirk of Saline county has filed for renomination on the republican ticket again to represent his district in the next legislature. Senator Spirk has served time in two sessions, both in the senate from the district composed of Fillmore and Saline counties. It has been the custom to alternate on candidates between the two counties, but after waiting some time, and a petition having been circulated from Fillmore county asking him to again be a candidate, the senator has responded.

H. Gordon Cross, editor of the St. Edward Sun, is a candidate for presidential elector on the progressive ticket. This is the second time he has braved certain defeat for the good of the cause. His filing reached the office of the secretary of state last night.

Charles F. Todenhoff of Columbus has filed for the republican nomination for the state senate from the Eleventh district, composed of the counties of Platte, Polk and Merrick, representing in the last session of the Nebraska legislature. Mr. Todenhoff is a democrat. This district is normally 800 democratic, so it is up to Mr. Todenhoff to go some.

Willis Reed Better.

Attorney General Willis Reed is somewhat better and is now able to sit up a part of the time, and it is believed that he will be able to back to his duties before long. He has had a serious time and it was feared at one time that complications which set in might prove exceedingly dangerous.

Asks if Ford's Name Off.

Secretary of State Pool received a message from a Detroit newspaper this morning asking if the name of Henry Ford had been withdrawn from the presidential preference list, inquiring as to the time when same would have to be withdrawn. This is taken as evidence that Mr. Ford's name will not appear on the Nebraska ballot.

Commission to Consider Protest.

There will be a hearing before the State Railway commission next Tuesday on the application of the Rock Island railroad to take off four of its trains running out of Lincoln and Fairbury into Kansas and return. A protest has reached the commission from patrons of the road around Fairbury and the hearing will probably be hotly fought.

Colton's Name Filed.

A petition containing a large number of signatures reached the office of the secretary of state today filing the name of William Colton of York as a candidate for delegate to the national republican convention from the Fourth district. His acceptance accompanied the filing.

Republican Victory Sure.

A. P. Moran of Nebraska City was at the state house this morning. Mr. Moran is one of the republican candidates from the Cass-Gree district for the state senate, and says that things down in that section of the state look exceedingly bright for republican victory. There is no factional feeling down there and everybody appears to be willing to get behind the republican candidates after they are nominated and go to it.

Pool Sends Perfectly Good Moneys Back

(From a Staff Correspondent.)

LINCOLN, March 8.—(Special.)—"Gene" Westerfelt of Scott's Bluff, editor and philanthropist, is a candidate for delegate to the national republican convention and evidently has money enough to pay his own expenses and some left over, for he has forwarded \$5 to Secretary of State Pool as a filing fee. Mr. Pool has returned it to him.

Mr. Pool returned another \$5 this morning. This was to a brewery firm which had forwarded too much to the secretary of state on postage and office expense necessary to remain a bunch of books which came to the office for members of the legislature. He returned the money by mail to the brewery firm instead of using the usual method of getting money to those individuals.

Pollard Considers Running as Delegate

(From a Staff Correspondent.)

LINCOLN, March 8.—(Special.)—E. M. Pollard of Nehawka, was in the city a short time yesterday, conferring with friends over the matter of being a candidate for the republican nomination of delegate to the national convention from this district.

Heretofore it had been supposed that the filings of J. Reid Green of Lincoln and J. H. Sweet of Nebraska City would be the only ones made, but petitions are in circulation for Prof. Maxey of the state university and this will give the voters plenty of opportunity to select from a field of candidates that will insure good representatives from this district.

BEATRICE, Neb., March 8.—(Special.)—Arthur Keechley, a farmer 22 years of age and son of Mr. and Mrs. F. D. Keechley, living three miles southwest of Beatrice, was seriously if not fatally injured late yesterday afternoon by getting caught in the fly wheel of an engine while shelling corn on the August Guenther farm, six miles southeast of Beatrice. His left arm and left leg were fractured and he was severely cut and bruised about the head. His clothing caught in the wheel in some way and after the engine was shut down workmen were obliged to remove him from the wheel, as he was held fast by his clothing, which was wrapped about the iron frame. In an unconscious condition he was rushed to the Lutheran hospital. He was reported slightly improved last night.

THEY OBJECT TO WAY KANSAS MISREPRESENTS

(From a Staff Correspondent.)

LINCOLN, March 8.—(Special.)—What the governor of South Carolina said to the governor of North Carolina would not be very interesting reading compared to what the governor of certain states bordering on Kansas are saying about the governor of the Sunflower state just now caused by an advertisement appearing in the Country Gentleman said to have been credited to Governor Capper of Kansas, who gave out the statement that Kansas was \$1.50 richer per capita than any other western state.

This has aroused the people of Iowa and as a result Governor Morehead has received a letter from Ralph Bolton, director of the Greater Des Moines committee, in which he says that he has protested to the publishers of the Country Gentleman against the "false advertising" put out by the state. Referring to the matter he says in part: "We in Iowa do not find it necessary to misrepresent our great resources in our outside publicity work. You are, of course, familiar with the 'Estimated Valuation of National Wealth' published by the bureau of census of the Department of Commerce in 1915, which gives the per capita wealth of these states which all exceed Kansas: Nevada, \$5.08; Iowa, \$3.82; North Dakota, \$3.74; California, \$3.54; Nebraska, \$3.10; Illinois, \$2.54; Colorado, \$2.75; Oregon, \$2.51; Minnesota, \$2.52."

If you see fit to protest against this false advertising, we would be very glad to have you let us know what you do. We are also protesting to the National Vigilance Committee of Associated Retailing Clubs, which stands for honest advertising.

Women Should Get This Habit as Well as Men

Don't eat bite of breakfast until you drink glass of hot water.

Happy, bright, alert-vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store, which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Advertisement.

(From a Staff Correspondent.)

Referring to Carsten's questioning of his ability to act as governor Mr. Madgett asks the public to investigate Carsten's own record of successes and failures and determine for themselves whether Carsten is competent to judge.

YOU Can't Lift Yourself By Your Boot Legs

Neither can a merchant pull his business out of a rut by main strength. New trade must be won and to win it intelligent, consistent and persistent work must be done. In these days this means the merchant must advertise. This is the day of the printed word and its greatest messenger is the daily newspaper that goes directly into the home. Today news is flashing like lightning from the ends of the earth to Omaha and back again. It is the day of the fast press and the faster trains. It happens in Europe today and within the hour the people of Omaha are told about it through the newspapers.

As it is with the news so it is with merchandise. A product that was unborn yesterday is made known to thousands, yes millions, today. But the world is too progressive and moves so fast for one telling to suffice. It is constant repetition that impresses the people with a store's service and character.

Progressive, up-to-the-minute stores in Omaha are not those that advertise today and then do not let people hear from them again for a month. They tell their story over and over again, day after day. They tell it differently every time—they put "news" in their advertisements—they persistently use newspapers like
