A SQUARE MEAL **BEATS POETRY**

To the Average Man the Material Comforts Count Most.

For the average person, unblessed with riches, it is the material comforts of life that count. That "we want but little here below" is a truism, but to be without that little is keenest hardship. A good meal isn't poetical, but the honest declaration, "I can eat a hearty meal

without discomfort," has a better sound to the average man than the best line ever penned by poet. It is after long loss that the material things, when won back, seem so much

better Of all the ailments that afflict humanity, chronic dyspepsia probably is the est common. Its causes and characterizations have been unable to cope with this almost universal malady, but Mother Nature, in combination with skill and chemistry, has compounded in her exhaustible laboratory a marvelous remedy

for this trouble. The symptoms of this common disease, which is only a forerunner of more complicated maladies, are many. Belching after meals, frequent nausea, pains in feeling, are only a few of the indications. Dyspeptics become listless, then morbid, are melancholy over trivial things, have whimsical ideas, besides physical sufferings, and with appetite gone, sleep fit-

Announcement Citizens of Omaha My Foreword:

I am going to write a series of stories, and I assure you they will be

instructive as well as interesting. In publishing these stories I am going to break the law of the American Medical Association. I know in advance I will be frowned upon by some of its members. And why-BECAUSE I DARE TO ADVERTISE IN THE PAPERS. Omaha with about 175,000 people has about 250 doctors, which would make about 100 families to each doctor it evenly divided. In my active practice of about twenty years I have found that about one-half of a doctor's patients pay him. If that rule holds good in Omaha then about fifty families are supporting a doctor, thus making the charges higher for the ones who pay to make up the loss of those who don't pay. I WANT TO STATE MY PURPOSE-I WANT TO JUSTIFY MY POSITION. Why should a doctor advertise? He need not if he is well known and has a growing business, but how about the doctor that locates in Omaha as a stranger and has not the courage to let the people know who and where he is? We have a Medical Trust who represent but a very small part of the total number of doctors, who says it is undignified to advertise, unless doing so in the manner that most of them follow, such as advertising their operations as a matter of news. hospital connections and cashing their lodge and church membership. All of this is ethical, as they pay nothing for it. I pay for my own ads. Can't you see the difference? All my life I have held to their view and practiced their way, but from now on I will follow my own convictions. In doing so I break no moral law, and I am quite in accord with modern business methods. WHY SHOULD I SIT HERE FOR YEARS AND WAIT FOR BUSINESS-do you know any other business that does? I have decided to let the Medical Trust think of me as they please. I WILL NOT PLAY THE AIYPOCKITE. I am going to advertise to the public, tell you who I am and where I can be found, and offer you my services as a general and special office practitioner of nearly twenty years of active experience, and sell you my services for ONE-HALF the usual fee, AND COLLECT IT CASH. I have no bargains or contracts to cure, I have no great discovery or secret cures, neither do I use testimonials in print or the old quack idea of treating by the month in order to hold the patient. I will not quack or decieve the people ethically or unethically. I will make an honest effort to cure or relieve you, and promise careful, scientific, up-to-date service in every case. Some cases I will fail as all doctors do. No honest doctor will promise to cure you. You pay cash each time; if I don't help you, you won't come back. NOTICE AS TO MY CHARGES-In all cases where consultation only

is needed and you do not need lengthy examination, the charge will be \$1.00, and REMEMBER I INCLUDE THE MEDICINE. Cases taking more time and needing physical examination, or cases taking treatment in the office will pay from \$1.50 to \$2.00, according to the time put in on the I always furnish the medicine. Many of you have been paying more for the medicine than I will charge for my total service. I AM NOT A TRAVELING DOCTOR AND NEVER HAVE BEEN. I offer you a square deal at a small cash price. I am here to stay and if anything ails you I would be glad to have you call at the office. Those of you I can not help I will tell you so, and you will be my friend. My time is valuable and I have to see many cases each day at the small fee I charge. No free

consultations or examinations. SPECIAL ATTENTION GIVEN TO DISEASES OF WOMEN.
