It Pays to Naturalize

they had the United States to fall back upon. At the same time Germany is confident of victory.

Harry Zimman Talks To Economic League Upon City Gas Plant

That a proposition should be made to the gas company to buy its plant and make it a municipal plant, or that the city should go ahead and build a municipal plant, was reiterated last night by Harry B. Zimman in an address before the Economic League at the court house.

"Omaha is to be congratulated," he said, "on the existing condition which makes it possible for it to buy the plant without having to pay an exorbitant price for the franchise or for going value."

He reminded the members that the gas company's franchise expires in December, 1918. He reminded them further that the figures of the hired expert are on file with the city, giving the physical valuation of the plant at \$1,500,000 approximately.

"On that basis," he said, "it is safe to proceed with a bond issue of \$2,500,000. Then we are in a position to buy the present plant or to build a new one. Now we must give the gas company officials credit for having some regard for the capital they have invested. Naturally they would in such a situation seek to save all they could from the wreckage, and they would sell rather than have us build a competing plant, for the moment we have a competing plant built ready to commence business when their franchise expires their property is absolutely worthless."

"If the city council refuses to support such a movement to issue bonds, I am

entirely get rid of all symptoms of dyspepsia, liver and other trouble in from ten to fourteen days' time simply by taking iron. In the firm, and his after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old form of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good otherwise it may prove worse than useless. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena, while many another has gone down in inglorious defeat simply for the lack of iron.

Over Long-Distance They Hear the Roar Of the Breakers

WASHINGTON, March 8.—Demonstrations of recent achievements in the development of long-distance and wireless telephony featured the annual dinner tonight of the National Geographic society. Among the guests of honor were Dr. Alexander Graham Bell, inventor of the telephone, and Theodore N. Vail, president of the American Telephone and Telegraph company, who met face to face for the first time in thirty years, in spite of their mutual interests of almost a lifetime.

The diners heard by telephone breakers rolling against the California coast, and at the same time watched moving pictures of the surf at the same point. Words and music of the Star Spangled Banner, picked up from a phonograph by a wireless telephone receiver at the navy's great Arlington plant, went through the air to a long-distance wire line, out of New York, which brought them to the banquet table.

During the evening communication was established with points in Canada, Juarez, Mex.; Seattle, Wash., and Jacksonville, Fla.

EL PASO, March 7, 12:56 a. m.—General J. Pershing, commanding the Eighth Infantry brigade, with headquarters in El Paso, tonight delivered a brief address over the telephone to the National Geographical society in Washington.

Bank at Rock, Kan., Robbed. WINFIELD, Kan., March 8.—Robbers blew open the safe of the State bank at Rock, Kan., sixteen miles north of here, early today and escaped with \$3,000.

Take Iron, Says Doctor, if You Want Plenty of "Stay There" Strength Like an Athletic!

Ordinary Nuxated Iron Will Make Delicate, Nervous, Run-down People 300% Stronger in Two Weeks' Time, in Many Cases.

NEW YORK, N. Y.—Most people foolishly seem to think they are going to get renewed health and strength by some stimulating medicine, secret non-toxic or narcotic drug, said Dr. Sauer, a specialist of this city, when, as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally commence doctoring for stomach, liver or kidney trouble or symptoms of some other ailment caused by the lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were alling all the while, double their strength and endurance and

entirely get rid of all symptoms of dyspepsia, liver and other trouble in from ten to fourteen days' time simply by taking iron. In the firm, and his after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old form of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good otherwise it may prove worse than useless. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the arena, while many another has gone down in inglorious defeat simply for the lack of iron. DR. SAUER'S Iron recommended above by Dr. Sauer, is one of the newer organic iron compounds. Unlike the older inorganic iron products, it is easily assimilated, does not irritate the stomach, make them black, nor upset the stomach; on the contrary, it is a most potent remedy, in nearly all forms of indigestion, as well as for nervous run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take one of our women under 50 who lacks iron and increase their strength 300 per cent or over in four weeks' time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Sherman & McClellan Drug Store and all other druggists. Advertisement.

ALL OMAHA SEES NEED OF STATION

Keener Interest is Being Manifested in The Bee's Demand for a New Structure. LOOKS LIKE WAYSIDE AFFAIR

Keener and Keener interest is being taken in The Bee's demand that a new union depot be built for Omaha. Business men all over the city are talking of it, and universal expressions of the great need of such a structure in Omaha are heard. Following are a few of the expressions heard:

Randall K. Brown, Chairman of the Executive Committee of the Commercial Club—I can only say that after returning from Kansas City and the palatial depot there, that Omaha's depot looks more than ever like a wayside station. We are certainly entitled to something better.

Charles E. Black, the Hatter, Former King of Ak-Sar-Bon—Of course we need a depot in Omaha. There can be no argument about that. I don't see how a man who has a residence or a business in Omaha can have any other thought. Not up to class.

George E. Roberts, Grain Dealer—Omaha certainly needs a union depot and I never realize the fact more than when I go away from home and return. So far as I know, there is not a city in Omaha's class that does not have better union depot facilities. The inadequate depot facilities here are a constant injury to the city. In every other respect we are up to, if not ahead of other cities in the

some class, but when it comes to a depot, we are not one, two, three. Still, I believe that if the business men would pull together, we could shame the railroads into building a depot that would be in keeping with the importance of the city. Harry A. Tukey, Real Estate and Form, or Executive Committeeman of the Commercial Club—it is hard to believe that the railroads will spend any huge sum of money in Omaha with the present proposed adverse legislation that seems to be popular throughout the country.

Gives Bad Impression.

J. A. Cavers, Member of the Grain Exchange—The present station that has been given the name, "Union depot," is not up to the standard of today. It is not the kind of a depot that the railroads have built in cities of the same class as Omaha and is not an up-to-date structure in any respect. It is not the kind that accommodates the people to the best advantage and what is still worse, when you come into town from either direction and look it over it gives you a very bad impression of the city. Strangers get the impression that Omaha is in keeping with its union station, whereas, we have one of the best and most progressive cities in the country, while our depot is a relic of the past. We are entitled to a better depot and I believe that if we go about it in the right way we can get it. We have got to not only ask, but we have got to demand a better depot, and back our demands up by presenting a united and solid front.

T. F. Sturgess, Editor of The Twentieth Century Farmer—I have just returned from a trip through the east, Washington, New York, Pittsburgh, Chicago, etc., and when I stepped into the Omaha station I felt as though they had had a rain here and the depot had shrunk.

J. P. McGrath, With Updike Grain Company—It is a shame the way Omaha has been treated in the matter of union depot facilities. We are entitled to better treatment. Our grain business, our

jobbing, our live stock, our grain and our other commercial business indicates that we are one of the cities in the United States that is forging ahead in every line. Still the railroads hang back and make us put up with a depot that is not only totally inadequate, but a disgrace to the city. It is time that some action be taken by the people to induce the railroads to give us what is coming and I am confidently of the opinion that if we present a solid front and show that we are earnest in the matter we can get a better depot.

Ball Yard Sold.

The only base ball park in Akron, O., was last week sold to a real estate firm for building purposes.

INSPECTION OF SHAVING BRUSHES IS NOW ORDERED

NEW YORK, March 8.—Shipments of shaving brushes from London will henceforth be thoroughly inspected, because of the possibility that they may carry anthrax germs, the health department announced tonight. This action will result from a letter received by the department from Dr. A. K. Chalmers, health officer of Glasgow, Scotland, in which he said examination of shaving brushes from London had disclosed living anthrax germs.

Key to the Situation—See Want Ads.

Burgess-Nash Announce a Sale of MINA TAYLOR DRESSES

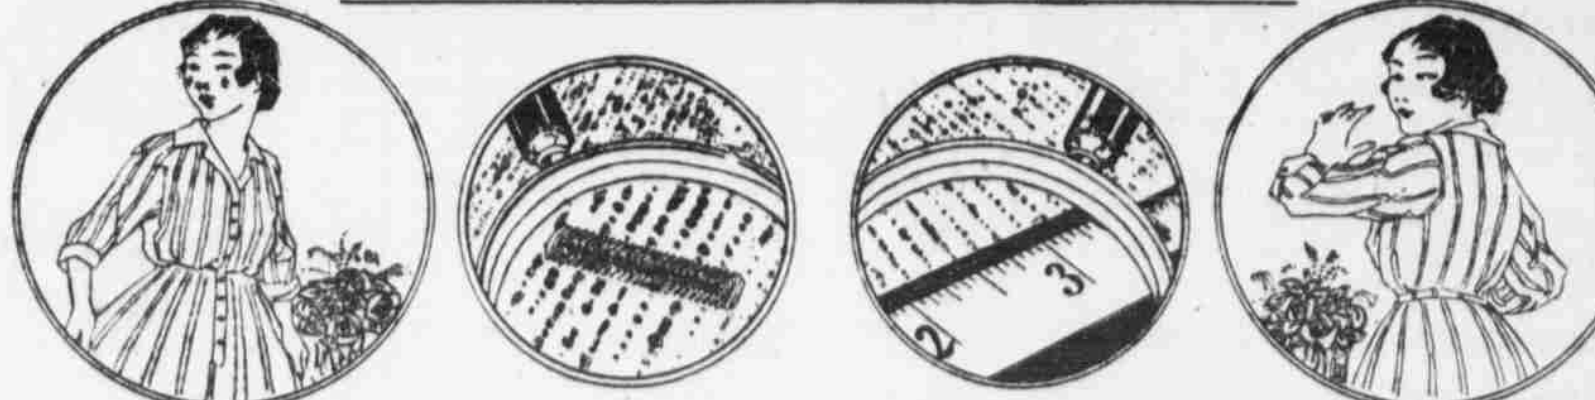

For House or Porch Wear at \$1.00, \$1.50, \$1.95, \$2.25 and \$2.50

A year ago we placed Mina Taylor House Dresses on sale for the first time in Omaha. We offered these dresses for sale then after the closest investigation—after it had been demonstrated to us that they more nearly met the requirements of comfort, style and good material, combined with economy, than any other house dresses which had ever before been brought to our notice. Now—after a year's experience, experience that is backed by the endorsement of hundreds and hundreds of women—we announce this present sale of Mina Taylor Dresses with great enthusiasm.

Mina Taylor Dresses have features which take them entirely out of the class of the ordinary garments. You should see them.

Four Big Features of Mina Taylor Dresses

- 1-EXTRA ROOM OVER THE HIPS. The dresses are so designed that they curve with the natural hip lines, thus giving room where room is needed without sacrificing neatness. 2-SHIRT BUTTON HOLES THAT WILL NOT RUN OR RAVEL—made like those in a man's shirt so that they will not wear out quickly; and they cannot ravel even if a stitch breaks. 3-SIXTEEN STITCHES TO THE INCH IN ALL FLAT SEAMS. This makes a neat, strong seam, in keeping with the high quality of these dresses. 4-NON-BINDING SLEEVES INSURE COMFORT. The sleeves are so cut that the wearer can hang a picture or dress her hair without pulling or binding at the armholes.

It Doesn't Pay to Make Your Own House Dresses You'll Appreciate the Comfort and Fit of Mina Taylor Dresses

MINA Taylor Dresses are so stylish in appearance; so low in price; so sturdy in service, because made of such good material—that no woman who values her time will try to make a house dress when she can buy a Mina Taylor Dress at such a low price.

We Want You to Come Thursday and See This Display

YOU will be so delighted with these dainty dresses when you see them that we urge you to attend this important display and sale. Every woman has the assurance that her appearance is always above criticism when she is clad in a Mina Taylor Dress.
