Prices on Board of Trade.

CHICAGO. March 11.—Wheat underwent a decided sag today, influenced by beariah estimates of stocks in the Chicago experting countries and by the torpedoing of a Norwegian steamer, which had Americans in its crew. The market closed weak, 1%c to 2%c not lower, with May at 11.0% and July at 12.0%. Corn finished unchanged to 1-16c higher; cats varying from \$\frac{1}{2}\$c off to \$\pi\$c advance, and provisions up 2%c to 27%c.

Downturns, which began in the price of wheat as soon as trading opened, had their primary source in a comprehensive report made by a leading expert here, who announced that the United States, Canada, Argentins, Australia and India were in possession of enough available experts of wheat to fill, except to Germany and Austria, the entire world's needs for a year without taking a bushel of the new crops. At no time during the session were the buils able to bring about any decisive rally from the effects of this chowing.

chowing.

Lowest prices of the day in the wheat market were reached after word was received that the lives of seven American sailors had been endangered by a torpedo used without warning.

On the break which resulted from this news many noldings of wheat were sacrificed under standing emergency orders to sell out at fixed limits so as to put a stop to losses.

Corn displayed relative firmness throughout the day as compared with wheat. The principal immediate reasons were export inquiry and the lightness of receipts.

were expert inquiry and the lightness of receipts.

Con deerable irregularity developed in the oats market. Hedging sales from the northwest depressed the May option, but July hardened in sympathy with cern. Speculative buying, especially in the last lifteen minutes of the session, rallied provisions from an early decline. At first the market had lacked support and was inclined to give way owing to a setback in the price of hega.

The close was nervous at the same as yesterday's finish to a shade advance. Oats paralleled the action of corn. Changes it value, though, were not wide. Provisions lacked support. The sole exception was January pork.

Coffee Market.

NEW YORK, March II.—COFFEE—The market for coffee futures was very quiet this morning, the imports amounting to only 6,000 bags. Prices ruled steady, however, on a little scattred buying which came partly from commission house sources, and this may possibly have been inspired by indications of further good clearances from Rio. The market opened at an advance of 2 to 6 points, with May selling at 8,10c and September at 8,17c, or about 4 to 5 points above last night's closing figures, during the middle of the morning. Closing prices were within a point of the best, showing a net gain of 2 to 4 points. The official cables reported a decline of 8,32d in the rate of Rio exchange on London, with no change in militels prices. Rio New York and the stocks there showed a decrease of 8,700 bags, as compared with the previous day.

SHEEP—Thursday's lamb prices were, fully steady with those paid at last week's close, but the weakness which developed yesterday left closing prices any, where from steady in some cases to as much as 10c lower than Friday a week ago. During the first three days of the week values advanced fully logific under the influence of very moderate receipts.

The week closes with bulk of the good lambs bringing 10.56911.00, while best kinds are selling on up to \$11.15 and the fair to decent grades are bringing \$10.56 ft-10.50. The week's supply of shearing and feeding lambs was hardly large enough to make a basis for any sort of quotations. Monday \$10.50 was paid for feed at the close of the week brought \$10.75. A few fresh clipped lambs offered at the close of the week brought \$3.0099.25. They were a little weighty, but of real good quality.

Returns Loot After Years. A year ago the clothing store of Lee Socks, on South Third street, Easton, Pa, was entered by thieves who carried off clothins, shoes, shirts, underwear and other articles, valued in all at about \$200. Wednesday an express wagon backed up to the store and delivered a big box plainly stendled with Socks name. On top of the articles was found a note, reading, "Here are the goods I stole a year ago." Thirteen pairs of shoes, however, are missing. The police are attempting to trace the source of the box.—Philadelphia Inquirer.

money is to be used to increase the club's improvement fund. Last year the club raised about \$1,000, which was used for the permanent improvement of Mc-Pherson avenue. The women are now planning to raise a cash fund for immediate use. They want to have a large quantity of cinders placed on the road south of the city limits.

The club has been chiefly responsible for making McPherson avenue one of the best of the principal thoroughfares leading into the city.

For and Against

Following close upon the heels of Mrs. Ella Stewart, the Chicago woman who has come here to present the equal suffrage proposition to the people of Council Bluffs, Mrs. Henry Preston White of Boston is presenting the opposite side. Mrs. Stewart spoke to a large audience last night at the public library building and Mrs. White held a number of informal discussions. Mrs. White is a practical politician and

knows what to do and where to do it. Several days ago she appealed to a number of local anti-suffragists here for information as to the best way to secure a chance to address the German voters of the county. No one was able to suggest a good plan until she appealed to former Mayor Rohrer. He called up Editor Andrus of the Frie Presse and arganged for an interview. In a few hours plans were worked out and put into execution Circulars and posters were sent all over the county and published in the German newspaper, arranging for dates for meetings to be addressed by Mrs. White. The first of these meetings will be held

at Arion hall, in this city, next Wednesday evening. The advertisements an nounce that Mrs. White will speak under the auspices of the Sons of Herman. She has refused to meet Mrs. Stewart in debate, asserting that she wants to do all of the talking herself.
