

MILK PRODUCTION SHOWN IN PICTURES

Movies Used to Show How Baby Secures Its Milk—University Expert in Charge.

DISTRIBUTION IS PICTURED

Motion pictures, showing methods of producing and distributing milk, were shown at the Baby Health show yesterday afternoon by courtesy of the Alamo Dairy company.

The afternoon program was in charge of the social science department of the Omaha Woman's club.

This Suit Breaks All Records for Causes of Action

It is estimated that if each of the causes of action in a suit filed in federal court Wednesday were to be tried separately the suit would require about three years to try.

The plaintiff is the Nye-Schneider-Power company of Fremont and the defendant is the Chicago & Northwestern Railway company.

The plaintiff cites that since February 1, 1915, it has shipped over the defendant railroad 691 cars of grain and that a quantity of grain has been lost in transit from each car.

Damages are asked in the sum of \$5,640.22.

Seven closely typewritten pages are covered with the dates of shipment of each car, number of car, name of railroad owning car, amount of grain missing from car, and so on.

No other suit involving nearly so many causes of action has been filed in the federal court here within recollection of the oldest employe.

Moorhead to Keep Open Until the Clock Hits Five Saturday

Election Commissioner Moorhead announces that his office will be open until 5 p. m. Saturday for receipt of filings.

The eleventh-hour rush is now on and a considerable movement is expected in the direction of the court house during the next few days.

Saturday will be the last day for filings. The election commissioner says he feels that 5 o'clock will be too late to keep his office open, but intimates that should any belated patriot wish to file between 5 and 12 p. m. on the closing day his filing would not be refused.

Saturday also will be the last day for the April primaries for registration of new voters who have just taken out their papers.

The last day of general registration and revision for the April primary will be on April 8, or ten days before the primary, as prescribed by law.

Bull Moosers Are Invading City Hall

The city hall is the center of considerable political activity these days. The democratic donkey does not have the place all to himself, not much.

"Bull moose" breaks into these sacred precincts now and then and gives the municipal building the appearance of a political menagerie.

W. J. Broatch and Dennis Cunningham were seen in conference with R. B. Howell in the city water office.

The meeting of this triumvirate of moosers was said to have been in the interests of Mr. Howell's bull moose machinations.

When Mr. Howell emerged from the meeting a city hall habitue asked, "Are you passing out cigars these days?"

"Oh, no, we are just saving souls, that's all," replied the admiral of the water plant.

TOURIST FINDS RELIABLE INFORMATION ON ROADS

On a cross-country tour from Chicago to Omaha, the Automobile club in this city is the only one where he found reliable and authentic road reports.

Anderson declared when he registered in the tourists' ledger at club headquarters in the Hotel Fontenelle, Mr. Anderson's home is in Chicago.

Road conditions in Illinois and eastern Iowa were characterized by Mr. Anderson as "terrible." Along many highways, he said, the mud was so deep that even farmers could not get through with their horses and wagons.

The Chicago motorist will tour to Sioux City from here, and from that point to Neigh and North Platte.

APE MAN STOPS SOLOMON FROM COMMITTING SUICIDE

A. J. Solomon, who is held at the county jail awaiting a hearing by the grand jury, tried to commit suicide in his cell late Tuesday afternoon by cutting his throat with a razor which he had stolen from the barber at the jail.

Oldest City Hall Employe Surprises Friends and Weds at the Age of 82

John Mathieson, the oldest employe in the city hall both in point of years and continues service, was wed Tuesday afternoon to Magdalena Dueholm.

Mathieson is 82 years of age and has been an employe in the city hall for twenty-four successive years. He is at present in the license department in the city clerk's office.

His bride gave her age as "over 15" when the license was obtained.

Mathieson went over to the court house Tuesday afternoon without saying a word to any of his friends. He obtained the license and a few moments later the marriage service was performed by County Judge Crawford.

Mathieson appeared for work five minutes late yesterday and when an explanation was demanded by his fellow employes, who never before heard of him being late, he confessed.

Mathieson is one of the oldest Danish pioneers of Omaha. The other night he attended the forty-sixth annual snarquerade ball of the Danish Brotherhood. He has attended every one of the forty-six without a miss.

The newly wedded couple will live at 2908 South Tenth street.

Mr. Mathieson has been married twice before.

JOHN MATHIESON. Before, the first venture being city clerk.

Visiting Nurses Plan Campaign to Fight Tuberculosis

The tubercular situation in Omaha and how to meet it was discussed at the board meeting of the Visiting Nurse association yesterday.

The percentage of tubercular cases is much larger than it should be, according to Miss Beas Randall the superintendent, and the association will exert every effort to meet the situation.

The tent for tubercular patients which was at the county hospital last year has been moved to the South Side, where a mother and her two little daughters, aged 5 and 7, all of them suffering from the lung trouble, are being housed.

For the first time since its organization the Visiting Nurse association has been instrumental in securing admittance of its patients to state institutions.

One insane woman was taken to the Lincoln asylum, accompanied by a nurse; another woman was admitted to the Kearney Consumptives' hospital, while her three children were taken to the Riverview Home, and a 9-month-old baby, also consumptive, is being cared for at the county hospital.

During the last month 961 calls were made on 288 patients. Twenty-eight were maternity cases.

Thieves Get Small Amount from Safe Which is Unlocked

The following thefts have been reported to the police within the last twenty-four hours:

J. E. Mason, 611 Paxton block, was visited by thieves, who stole \$15 from the safe, which was unlocked.

Gerald Klook, 213 Farnam street, asserts that his room was entered by a sneak thief, who stole an overcoat containing \$1.

Paul Bogard, engineer at the Sacred Heart convent, Thirty-sixth and Burt streets, reports the theft of tools and a gold watch.

H. K. Anderson, 1215 California street, is minus clothes and \$85, as is Elmer Boyer, Nineteenth and Davenport streets.

Dr. H. L. Karr, 483 Brandeis building, was robbed of dental gold to the value of \$10.

All these robberies occurred after entrance had been gained to the above numbers by unlocking the door.

SALE OF MARKET STALLS YIELDS MORE THIS YEAR

The annual sale of stalls at the city market place yielded \$693. The sale last year netted \$567.

Three choice stalls were sold to the Omaha Fruit Growers association for \$300. The highest price paid by a market gardener for one stall was \$42.

Thirty-two stalls were sold by Market Master Killian.

EIGHT SCARLET FEVER CASES ARE REPORTED

The following new cases of scarlet fever have been reported:

Emma Peterson, 2208 Castelar. Emma Pastello, 1211 Dorcas. Evelyn Mullen, 418 North Seventeenth. Harold Egan, 2212 Boyer. "Fourie" Anna Heischenberg, 2313 Dodge. Mildred Buettgenbeck, 1341 South Twenty-first. Cyril Byrnes, 2066 Mason.

Eat Less Meat And Take Salts If Kidneys Hurt

Says a tablespoonful of Salts flushes Kidneys, stopping Backache.

Meat forms Uric Acid, which excites Kidneys and weakens Bladder.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean; thus avoiding serious kidney disease.—Advertisement.

COULD STOP HALF OF BABY DEATHS

Dr. F. S. Clarke Gives Some Practical Advice to Mothers on the Care of Infants.

NEED MORE HEALTH INSPECTION

If the people of the United States spent as much on baby welfare work as they do on the prevention of hog cholera the lives of more babies would be saved, Dr. F. S. Clarke told an audience of Omaha mothers in a lecture at the Boyd theater on the subject, "How We Can Prevent Illness in Children." It was the third of the morning lectures which are being delivered by Omaha doctors in connection with the "Baby Health Week" program.

Dr. Clarke asserted that one-fourth of all babies born die in their first year and that half of these deaths are preventable. He deplored the fact that, in his opinion, the amount of money spent on the health department, not only here, but in practically every city in the United States, is greatly inadequate to the needs of the community.

"The health department of any city is in direct proportion to the infant mortality of that city," he declared.

Should Prevent Diseases.

To prevent diseases in babies is better than to cure them after they have them. We should begin at the very foundation and do all in our power to make the babies healthy—and the result will be better men and women.

"An ill baby is handicapped as in no other way. Mothers do not properly conserve their babies' lives; it is not because of lack of affection. It is ignorance and neglect.

One of the greatest evils is that most babies are pampered too much. "The American mother bundles her baby up in virtually yards and yards of heavy clothes—and takes the child out for an airing."

"In bundling up their children mothers think they are looking out for the best interests of their health; as a matter of fact, they are only doing them harm.

Babies Need More Air.

"When you raise babies like hothouse plants, expect them to be sick most of the time. Modern day babies don't get enough air. The baby should be taken out in the air every day almost from the date of birth. Leave your house windows open; the fresh air is the best thing in the world for the little fellow. A 'hot-

house' baby can't be expected to resist disease.

"The modern mother makes a great mistake in feeding her baby. They feed them too much and too frequently." Mrs. K. R. J. Edholm introduced Dr. Clarke.

Retail Credit Men Select Omaha for Their Convention

The National Association of Retail Credit Men is to hold its next meeting in Omaha in August of this year. Notice has just been received by the bureau of publicity of the Commercial club from S. L. Giffilan of Minneapolis, chairman of the board of directors.

E. V. Parrish of the bureau of publicity and J. W. Metcalfe, secretary of the Associated Retailers of Omaha, have been working for some weeks to secure this convention for Omaha. It is expected it will bring some 350 delegates to Omaha.

Do Something for Your Cold. At the first sign of a cough or cold take Dr. Bell's Pine-Tar-Honey. You won't suffer long. 25c. All druggists.—Advertisement.

ADollar-Meal For Five Cents. The most expensive foods are quite often entirely lacking in food value. They do not build muscle or supply energy. Measured by the cost of most foods, a breakfast or luncheon of Shredded Wheat with milk and cream is worth a dollar—and the cost is not over five cents. Two Biscuits will supply all the strength needed for a half day's work or play.

Made at Niagara Falls, N. Y.

"Bob's" Fee Graft

Tuesday's pocketing of half of the receipts gave him \$33 in addition to his \$4,000 a year salary.

Table with columns: Date, Amount, Total. Rows for March 1 through 15.

Eleven days in March, \$32 YESTERDAY, \$4

TO REMOVE DANDRUFF

Get a 2-cent bottle of Danderrin at any drug store, pour a little into your hand and rub well into the scalp with the finger tips. By morning most, if not all, of this awful scurf will have disappeared. Two or three applications will destroy every bit of dandruff; stop scalp itching and falling hair.—Advertisement.

Child Gets Sick, Cross, Feverish if Constipated

Look at tongue! Then give fruit laxative for stomach, liver, bowels.

"California Syrup of Figs" can't harm children and they love it.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs." Then see that it is made by the "California Fig Syrup Company."

IT is especially in springtime when the rigor of winter has passed that the tonic qualities of

are particularly beneficial. Better have a case sent home.

Before you buy a farm tractor

it behooves you to skin your eyes and approach the matter with exceeding wariness.

The business of making small, low-priced tractors is young. But it's popular. More than a hundred concerns have taken out tractor patents in the last two years.

The infant tractor industry today resembles the infant automobile industry of a few years ago. Some manufacturers have rushed into it blindly. Some tractors will do the work and some will not. Some farmers will suffer.

A man who has no ax to grind has been investigating the whole tractor situation. He has learned a good deal that you can profitably learn before you loosen up on your tractor money. He tells what he learned in a series of articles—The Tractor—and the first appears today in

The COUNTRY GENTLEMAN

Also in this issue:

A Fruitman-Shepherd: An account of a personally conducted visit to the farm of David K. Bell, with whom taking first prizes for pears and sheep has become a habit.

Pigs that Cost Less: A discussion of hog breeding from the dollars-and-cents viewpoint—and it certainly makes a difference whether a newborn pig costs fifty cents or five dollars.

Underdrainage of Farm Land: A practical, authoritative talk on the classification of soils and the manner of laying out a system of tile drains.

Corn in the Classroom: In which it appears that a farm-bred boy can go to the right kind of a school and learn a whole lot about making corn raising more profitable.

Stabilizing Farm Credits: Suddenly the country has awakened to the fact that something has happened in Congress having to do with rural credits. What?

And more, including: Building a Lath House; Economical Road Building; The Campines, by Judge W. H. Card; Building a Workbench; Curing Pea-Vine Hay; A Start with Sheep; Treatment of Alkali Land; The Cow on Test; What is New in Embroidery; A Reel for the Clothesline; Dried Fish Dishes, etc., and
