

COST MONEY TO PAY WOMAN HER DUES

Great Effort to Get Three Dimes to Woman as Her Share of Receiver's Sale.

COURT HAD ORDERED IT PAID

About \$29 worth of time and labor has been expended by the federal officers here in paying 29 cents due to Mrs. Dora E. Murphy, Magnolia, Ia., and Mrs. Murphy is now about to receive the two dimes, a nickel and four cents.

She was one of the bondholders in the Nebraska Public Service corporation, which went into the hands of a receiver. Her share of the salvage was the above mentioned amount.

So District Clerk Hoyt had to go into court and get an order for the sum. As the court wasn't here the necessary papers were made out and forwarded to Lincoln. Judge Munger was in McCook, so to McCook the papers went, and then the judge was back in Lincoln. On to Lincoln with the papers. Judge Munger had gone to Hastings. On to Hastings went the papers, and finally found him back in Lincoln.

He signed the order for 29 cents. Back to Omaha it came and, after being entered with due formality on the books, and the check having been made out, the 29 cents is now on its way to Magnolia.

Two Plans Under Way to Combat the Loan Shark Evil

Whether a remedial loan association or a Morris Plan bank is finally to be established here still remains a question. A week ago a big meeting was held at the Commercial club rooms, when representatives of the Morris Plan appeared before the business men and explained the plan whereby loans may be made to persons of small means with character, the whole basis of credit and without chattel mortgages.

J. P. Palmer, attorney and member of the legislature, who had much to do with getting a loan shark bill through the legislature, is opposed to the Morris plan. Led by Palmer a half dozen friends of his met at the Commercial club at noon and sought a hearing before the directors of the Omaha Manufacturers' association in the hope of explaining their opposition to the Morris plan and expounding the virtues of the remedial loan association plan which they advocate.

As this was the first meeting of the manufacturers in some weeks, they had so much business that they could not hear Palmer's representation at this meeting. They expressed the hope, however, that they might hear his case at an early meeting. Palmer wants to go before them because it was before this body that he first proposed the remedial loan association, even before the Morris plan representatives were heard of in Omaha.

CITY WATER PLANTS ARE CONTROLLED BY COUNCIL

Assistant City Engineer Townsend states that water plant information received from twenty-four cities where the plants are municipally owned shows that Omaha and Wheeling are the only cities where the plants are not under control of the city council. Three of the twenty-four cities have rates higher than has Omaha.

INSTANCES WHERE PENSIONS WILL NOT BE ALLOWED

(Correspondence of The Associated Press.) LONDON, Mar. 8.—A statement made by a discharged soldier, summoned to court for failure to pay alimony, that a great many men discharged from the army for disability, receive no pensions,

has put the war office on the defensive. The war office has definitely promised pensions for disability due to disease resulting from war service.

But it now appears from an official statement that the men have to prove that their disability is directly due to war service. If it is shown that they had the seeds of some disabling disease in their systems at the time of their enlist-

ment, which developed straightway on the ordinary exposures of soldiering, they get no pensions. But their cases are first gone into carefully by medical experts.

FAMILY OF BEBEL, SOCIALIST, LIKELY TO BECOME EXTINCT

(Correspondence of The Associated Press.) BERLIN, Mar. 8.—The family of August Bebel, socialist leader who died in 1913, is doomed to extinction through the death of his only grandson, which has occurred at Jena. This young man, who

was the son of Bebel's daughter, an only child, was born at Zurich and was greatly beloved by Bebel. Soon after the outbreak of the war he had to go into the army through the mobilization of the Swiss troops. He was not able to stand the hardships of the service, however, and soon developed symptoms of consumption, but instead of going to a health resort, as advised by his physicians, he

went last October to Jena to begin his studies at the university. He left no sister and his mother is a widow.
